

Municipality/Organization: Town of Milford, MA

Permit Number: MAR041135

**Annual Report Number
& Reporting Period:** No. 9: March 11-March 12

NPDES Phase II Small MS4 General Permit Annual Report

Part I. General Information

Contact Person: Scott Crisafulli **Title:** Highway Surveyor

Telephone #: 508-473-1274 **Email:** Highway@MilfordMa.com

Certification:

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Signature: Scott J. Crisafulli

Printed Name: Scott J Crisafulli

Title: Highway Surveyor

Date: April 26, 2012

Part II. Self-Assessment

The Town of Milford has completed the required self-assessment and has determined that our municipality is in compliance with the permit conditions. Discussions of the progress on BMPs toward the measurable goals, as well as quantification of some of the programs, are included in the following sections. This Annual Report is based on the current General Permit being administratively continued, as it expired on May 1, 2008 and a new General Permit had not been issued at the time of preparation of this report. Any reference to planned activities in the coming year ("Year 10") is based on the assumption that the Town of Milford will continue to conduct activities to comply with the current Permit conditions until a new Permit takes effect. If a new Permit takes effect within the coming year (May 1, 2012 – May 1, 2013), the Town of Milford may revise the planned activities for "Year 10", in accordance with the new Permit.

Public Education and Outreach

Milford has met the goals of the BMPs in this category and will continue to provide public education in the form of presentations, expansion of collection of stormwater materials in the local library and other Town venues (schools, Town Hall), and postings on the Town website. During this permit year, a presentation was given by GZA GeoEnvironmental, Inc. to 8th grade students at Milford Middle School East during Career Day on October 7, 2011. The presentation focused on the engineering work performed by GZA within the Town of Milford, including stormwater system mapping, outfall sampling, and illicit discharge detection and elimination. General stormwater education was also incorporated into the presentation, with a focus on phosphorus and bacteria. Stormwater education materials were distributed to 6 Milford Schools, as well as the Town Library, Wastewater Treatment Plant, Milford Water Co., and Town Hall. Electronic files of these materials were provided to the Town of Milford Chief Technology Officer on April 23, 2012 for posting on the Town's web site. During Permit Year 10, public education will continue to focus on sources of bacteria and phosphorus in the watershed, as well as groundwater recharge.

Public Involvement and Participation

Annual clean-ups, scrap metal and used motor oil recycling, and semi-annual hazardous waste pickup days are ongoing programs to fulfill this component.

Illicit Discharge Detection and Elimination (IDDE)

The Town has communicated with a surveyor to provide a budget for complete mapping of the storm drain system. With budget constraints and other priorities, the Town has decided to postpone the appropriation of funding for mapping purposes until after the new MS4 permit is issued. The Town is planning to complete the mapping all at once, rather than performing it piecemeal, to provide

cost efficiencies.

The Town completed Phase II of the Prospect Heights project that included the replacement of a dirt bottom dilapidated stone culvert and new deep sump catch basins with oil/debris separators.

In August, 2011, eight (8) outfalls which discharge to Milford Pond were screened during dry weather. Of those outfalls screened, none were observed to be flowing, although one outfall (no. 326) contained a stagnant pool of water, from which a sample was collected. Results of the testing did not indicate the presence of an illicit discharge. However, the total phosphorus concentration exceeded guidance values, thus, the outfall system has been prioritized for future mapping efforts.

The Sewer Department continues to investigate the drainage system connected to an outfall along Main Street which exhibited elevated enterococcus levels during previous outfall screening. The Sewer Department has narrowed the potential source down from two locations to a one block area on Main Street. The Sewer Department dye tested every building but was unsuccessful in pinpointing the source. They are now considering the use of smoke testing. The Town is still considering the purchase of a closed circuit camera to use for detection of the source of this illicit discharge and for future efforts, but the high cost and budget constraints are an obstacle. No additional illicit discharges were found during this permit year.

Construction Site Stormwater Runoff Control, Post-Construction Stormwater Management in New Development and Redevelopment During this Permit Year, there were 6 Notices of Intent filed with the Milford Conservation Commission and 6 were issued Orders of Conditions. Two (2) of the projects were subject to the Town's Stormwater By-law and submitted Operation and Maintenance Plans which are now on file in the Town of Milford's Office of Planning and Engineering. A total of two (2) stormwater BMPs were constructed in association with the two (2) projects. There were no reported violations of the Stormwater By-law.

Pollution Prevention and Good Housekeeping in Municipal Operations

The Town has begun the design and permitting process for permanent rehabilitation of the stone masonry channelized sections of the Godfrey and O'Brien Brooks stream channels. Frequent damage to the aged stone walls results from high flows and contributes to periodic episodes of sediment loading from erosion. To date, preliminary design is almost complete for Phase I and survey work has been completed for Phase II. The replacement of the culvert conveying Godfrey Brook under Church Street has been designed and put out to bid. Construction is expected to be completed by Fall of 2012.

Part III. Summary of Minimum Control Measures

1. Public Education and Outreach

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 10
PE1	Brochures to educate public about stormwater pollution, pollution prevention, importance of reporting illicit dumping	Highway Dept.	Develop brochures in Permit Year (PY) 1. Produce and mail to residents in PY2.	Brochures distributed during PY2. Approximate volume of material removed from catch basins: PY2: 2,400 cubic yards (1598 tons of road sand were purchased by the Town during the previous winter season) PY3: 2,460 cubic yards (2710 tons of road sand were purchased by the Town during the previous winter season) PY4: 3,600 cubic yards (1185 tons of road sand were purchased by the Town during the previous winter season) PY5: 4,500 cubic yards PY6: 342 tons (catch basin and sweepings combined) PY7: 1,600 cubic yards (catch basin and sweepings combined) PY8: 1,515 cubic yards PY9: 1,159 tons catch basin cleanings + 1,719 cubic yards street sweepings	Monitor goal of reduction in pollutants in catch basins, observed by catch basin cleaning crews.
Revised					

1. Public Education and Outreach cont'd.

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 10
PE2 Revised	Brochures to educate business/industry regarding pollution prevention, material storage and handling, housekeeping, disposal practices	Highway Dept.	Develop brochure in PY1. Produce and mail to businesses in PY2.	Brochures distributed during PY2. Approximate volume of material removed from catch basins: PY2: 2,400 cubic yards (1,598 tons of road sand were purchased by the Town during the previous winter season) PY3: 2,460 cubic yards (2,710 tons of road sand were purchased by the Town during the previous winter season) PY4: 3,600 cubic yards (1,185 tons of road sand were purchased by the Town during the previous winter season) PY5: 4,500 cubic yards PY6: 342 tons (catch basin and sweepings combined) PY7: 1,600 cubic yards (catch basin and sweepings combined) PY8: 1,515 cubic yards PY9: 1,159 tons catch basin cleanings + 1,719 cubic yards street sweepings	Monitor goal of reduction in pollutants in catch basins, observed by catch basin cleaning crews.
PE3 Revised	Outreach program for local students, civic groups	Highway Dept.	Organize and implement round of presentations for local schools and at least one civic group.	Consultant performed stormwater education PowerPoint presentation for 8 th graders at Milford Middle School East (approximately 50 students) on October 7, 2011.	Continue education campaign about bacterial and phosphorus source issues. Include one (1) public presentation.

1. Public Education and Outreach cont'd.

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 10
PE4	Educational material in library	Highway Dept.	Organize a group of materials regarding stormwater pollution and make available at library.	Poster “Create your own Rain Garden” designed by consultant: Materials distributed to 6 Milford Schools, as well as Town Library, Wastewater Treatment Plant, Milford Water Co., and Town Hall in April, 2012.	Add to and update collection of materials, with a focus on bacteria and phosphorus.
Revised	<i>Educational materials in Town Hall and other locations</i>	Highway Dept.	Hang posters and have materials available in Town Hall.	Electronic files of these materials were provided to the Town of Milford Chief Technology Officer on April 23, 2012 for posting on the Town’s web site (main page). In general, the web site receives approximately 11,000 hits per month.	

2. Public Involvement and Participation

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 10
PP1	Community cleanup	Highway Dept.	Form volunteer group for annual cleanup. Hold cleanup day and record participants.	Cleanups conducted April 11-15 by inmate community service group to pick up litter along roadsides and culverts throughout town. Six inmates per day conducted work on each occasion.	Continue annual cleanup days to reduce amount of debris/trash along waterways and roadways.
Revised				<p>The Charles River Earth Day Cleanup Steering Committee held its 13th Annual Earth Day Charles River Watershed Cleanup Event during the weekend of April 21, 2012. This event involved 4,000 volunteers collecting trash throughout the Charles River watershed, including sites within Milford.</p> <p>The Friends of the Milford Upper Charles Trail held an Earth Day cleanup on April 21, 2012, along the bike trail which runs adjacent to Louisa Lake and Milford Pond within the Charles River watershed in Milford.</p>	

2. Public Involvement and Participation cont'd.

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) -- Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities -- Permit Year 10
PP2	Scrap metal and used motor oil recycling	Highway Dept.	Continue to offer recycling program. Record amount of material collected.	Program is ongoing and maintained by the Board of Health. Waste/used engine oil is collected year round. 1 or 2 collection days were held to collect used oil filters and antifreeze. 4,678 tons of general recyclables recycled in Calendar Year 2011, including 656 tons of scrap metal/white goods.	Continue to offer program and record amounts of materials collected.

2. Public Involvement and Participation cont'd.

2. Public Involvement and Participation cont'd.

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 10
PP4	Public meeting	Highway Dept.	Hold public meeting to present proposed bylaw/ordinances for input prior to implementation by end of PY1. Public meeting may also discuss stormwater pollution prevention.	Task completed in PY3.	Task complete.
Revised					

3. Illicit Discharge Detection and Elimination

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 10
IDD1 Revised	Storm Sewer Map	Highway Dept.	Seek Town Meeting funding in PY1. Complete map in PY2.	Outfall mapping completed by consultant August 2004, at cost of \$8,000. Additional storm sewer elements have been mapped in Project Years 4, 5, 6.	Task complete (all outfalls).
IDD2 Revised	IDDE program development, identification of problem areas, correction of issues.	Highway Dept.	Conduct outfall sampling in PY2. Number of illicit discharges to be removed in PY3, 4, 5.	Dry-weather field screening completed by consultant Fall of 2005 and “Dry Weather Outfall Investigation Summary Report” completed November 2005. 303 outfalls were inspected at least once during dry weather. Phase II of Prospect Heights drainage system project completed. PLEASE SEE PART II, SELF-ASSESSMENT FOR DETAILS. Dry weather screening of 8 outfalls conducted. PLEASE SEE PART II, SELF-ASSESSMENT FOR DETAILS. Annual report is hereby submitted.	Continue IDDE program.
IDD3 Revised	IDDE program documentation.	Highway Dept.	Submit annual report, including information on IDDE program steps.		Future PY annual reports will include information on IDDE program tasks.

3. Illicit Discharge Detection and Elimination cont'd.

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 10
IDD4	Storm drain stenciling program, focusing on drains tributary to ponds and known dumping areas. Program extended to brook drains as feasible.	Highway Dept.	Percentage/number of storm drains stenciled annually. Records of catch basin cleaning showing decreased dumping/pollutants in catch basins.	All Town storm drains (approximately 3,079) were stenciled in PY3. However, paint is fading in some areas. The Town is considering options for re-labeling catch basins in the future. Approximate volume of material removed from catch basins: PY3: 2,460 cubic yards (2710 tons of road sand were purchased by the Town during the previous winter season) PY4: 3,600 cubic yards (1185 tons of road sand were purchased by the Town during the previous winter season) PY5: 4,500 cubic yards PY6: 342 tons PY7: 1,600 cubic yards (catch basin and sweepings combined) PY8: 1,515 cubic yards PY9: 1,159 tons catch basin cleanings + 1,719 cubic yards street sweepings	Task complete.
Revised					
IDD5	Regulation prohibiting non-stormwater discharges to municipal system.	Highway Dept.	Development and implementation of regulation during PY2.	Sections on Prohibition of Illegal Discharges, Prohibition of Illicit Connections, and Waste Disposal Prohibitions included in Stormwater Management bylaw, in effect as of February 9, 2006.	Implement bylaw. Work with property owners to remove illicit discharges as needed.
Revised					

4. Construction Site Stormwater Runoff Control

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 10
CR1 Revised	Regulation for erosion/sediment controls, BMPs, construction controls	Highway Dept.	Development and establishment of regulation.	Stormwater Management bylaw requiring stormwater management permit for construction activities disturbing greater than 1 acre approved at Town Meeting on October 24, 2005. The Stormwater Management bylaw was approved by the Attorney General's Office in letter dated February 9, 2006.	Task complete.
CR2 Revised	Mechanism for site plan review, inspections, review procedures	Highway Dept.	Establishment of procedures and number of plans reviewed annually.	The Stormwater Management General By-Law, adopted on October 24, 2005, requires a Stormwater Permit for any construction activity disturbing greater than 1 acre of land except for projects that are required to file a Notice of Intent (NOI) with the Milford Conservation Commission. Such NOIs must include a fully executed Stormwater Management Form and projects must be designed in full compliance with DEP's Stormwater Management Policy. During this Permit Year, there were 6 Notices of Intent filed with the Milford Conservation Commission and 6 were issued Orders of Conditions. Two (2) of the projects were subject to the Town's Stormwater By-law and submitted Operation and Maintenance Plans which are now on file in the Town of Milford's Office of Planning and Engineering. A total of two (2) stormwater BMPs were constructed in association with the two (2) projects. There were no reported violations of the Stormwater By-law.	Implement bylaw.

5. Post-Construction Stormwater Management in New Development and Redevelopment

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 10
PCR1 Revised	Regulation for BMPs	Highway Dept.	Develop and adopt regulation, measure compliance (# of BMPs, % compliance, etc).	Two (2) BMPs constructed in association with 2 projects. There were no reported violations of the Stormwater Management By-Law associated with BMP requirements.	Continue to implement bylaw.
PCR2 Revised	Regulatory mechanism for BMP operation and maintenance (O&M)	Highway Dept.	Regulation development and adoption; maintenance of inspection reports.	Stormwater Management bylaw approved at Town Meeting on October 24, 2005 includes Operation, Maintenance, and Inspection Schedule requirements for privately-owned facilities, and assigns maintenance responsibility. The Stormwater Management bylaw was approved by the Attorney General's Office in letter dated February 9, 2006. During this Permit Year, there were 6 Notices of Intent filed with the Milford Conservation Commission and 6 were issued Orders of Conditions. Two (2) of the projects were subject to the Town's Stormwater By-law and submitted Operation and Maintenance Plans which are now on file in the Town of Milford's Office of Planning and Engineering. A total of two (2) stormwater BMPs were constructed in association with the two (2) projects. There were no reported violations of the Stormwater By-law.	Continue to implement bylaw.

6. Pollution Prevention and Good Housekeeping in Municipal Operations

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 10
MGH1 Revised	Street sweeping	Highway Dept.	Continue street sweeping program, note reduction in sediments in catch basins, quantities of material collected.	Street sweeping conducted March 22 through October 28 of 2011: 1,719 cubic yards collected at labor, fuel, & maintenance cost of \$65,000. All accepted streets (120 miles) were swept twice, while main roads were swept multiple times.	Continue program through all permit years.
MGH2 Revised	Catch basin cleanouts	Highway Dept.	Continue catch basin cleanout program. Record number of catch basins cleaned, sediment collected.	The Town conducted annual catch basin cleanouts in April through July of 2011 using an outside contractor. 3353 catch basins were cleaned and a total of 1,159 tons of material removed. Total cost of \$40,000 plus debris removal cost of \$46,000.	Continue program through all permit years.
MGH3 Revised	Record keeping/schedule of maintenance	Highway Dept.	Continue to keep listing of regular maintenance activities, schedules, and procedures.	Records added to maintenance file.	Continue to maintain records and update program as needed.
MGH4 Revised	Recycling and waste disposal program	Highway Dept.	Continue recycling and waste disposal program for municipal operations. Record quantities involved in program.	Program ongoing. 6,200 cubic yds of mulched lawn waste collected in Fall of 2011 from 120 miles of Town streets at cost of \$22,000. The Town composted the collected leaves. 575 Christmas trees and 1885 tons of yard debris collected.	Continue program through all permit years.

6. Pollution Prevention and Good Housekeeping in Municipal Operations cont'd.

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) - Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities - Permit Year 10
MGH 5	Waste disposal/housekeeping training and practices	Highway Dept.	Continue proper disposal procedures, conduct training, keep logs of material disposal.	300 gallons of oil/water were removed from two oil/water separators at the Highway Department Garage on 3/4/11 and 12/1/11 at a total cost of \$16,400. GZA conducted a training seminar on Illicit Discharge Detection and Elimination to 13 highway department employees in December, 2011.	Continue program through all permit years.
Revised					
MGH 6	Identification, inspection, maintenance of Town owned BMPs	Highway Dept.	Inspection and maintenance of structures, maintain records.	<ul style="list-style-type: none"> • 2 new catch basins were installed • 13 catch basins were rebuilt • 112 catch basins were repaired • Damaged area of stone wall on Godfrey Brook patched • Brush cutting conducted in various detention basins • Work conducted Summer 2011 • Total budget expense of \$24,000. 	Perform recommended maintenance activities on detention basins. Continue program.
Revised					

Part IV. Summary of Information Collected and Analyzed

The quantities of materials accepted by the Town's recycling programs are recorded by the Board of Health and have been included in the following section.

Part V. Program Outputs & Accomplishments

Education, Involvement, and Training

	(y/n)	YES
Stormwater education materials collected and available at library		3 events/ 6 days
Clean-up days held	(#)	
Household Hazardous Waste Recycling		
▪ material collected (automotive waste oil)	(gal)	Not reported
▪ material collected (household paint)	(gal)	Not reported
▪ annual recycling (January 2011 - December 2011 (inclusive))	(tons)	4678
