Subject: Annual Update - NPDES Phase II General Permit
Town of Sandwich Stormwater Management Plan: Year 9 Update

Dear U.S. EPA and MaDEP:

As required under the NPDES Stormwater General Permit, the Town of Sandwich hereby submits this annual update of the Town's Stormwater Management Plan (SMP). This report is a continuation of the original 5-year permit issued for the Town of Sandwich. During the ninth year, the Town continued many efforts implemented in the initial permit and strove to meet goals that were planned but not met within the first five years. An update of Year 9 accomplishments are listed below and shown in the attached tables.

Year 9 Update
The Town of Sandwich continues to be very proactive in the field of stormwater management and has successfully fulfilled nearly all of its goals established in its Stormwater Management Plan over the 9-year period.

This Annual Update provides a look at major accomplishments, new programs and goals and the status of goals that have not been met as scheduled. Below is a summary of Year 9 implementation.

Major Ninth Year Accomplishments (Spring 2011 - Winter 2012)
Below is a list of some of the significant goals accomplished over the past year. Further details and illustrations of these accomplishments are show in the attached appendix.

Stormwater Mitigation of Mill Creek
Building on an effort that started back in 1990, the Town of Sandwich has continued implementing BMP retrofits through another state grant (319 – Non-point Source Pollution). Construction of the first, second, and third phases are complete and
operational. The BMPs installed by this program mitigate stormwater pollution entering Mill Creek, a tributary of Sandwich Harbor. The grant also includes an educational aspect, actively involving local students with stormwater matters.

Shellfishing had been prohibited by the State at Sandwich Harbor since 1985 due to bacteriological contamination. Starting with illicit detection inspection in 1990 and continuing with Coastal Pollution Remediation (CPR) grants and now the 319 grant, the Town continues to actively mitigate stormwater impacts in the Town of Sandwich. The Towns efforts to abate pollution, including stormwater mitigation, have resulted in the recent reopening of the shellfish beds by the Division of Marine Fisheries.

Also this year the Town completed design work for stormwater treatment improvements in the historic Jarvesville section of old Sandwich village. This area also drains to Sandwich Harbor. Funding was being provided by the United States Department of Agriculture’s Natural Resource Conservation Service. Construction will proceed as funding is secured.

In addition to the above work, Sandwich’s Natural Resource Department is seeking funds to study and restore Brady’s Island Marsh, which is connected to Mill Creek. The study will focus on identifying pollution sources impacting the marsh and methods to rehabilitate the marsh.

Commencement of Comprehensive Water Resources Management Plan Development
The Town of Sandwich has continued Comprehensive Water Resources Management Planning to address water resource issues across Town, including stormwater management. In addition to stormwater, the work will assess and develop solutions for wastewater and other potential pollution sources. The work is primarily funded through a legal settlement with a military contractor that operated on the Massachusetts Military Reservation and impacted groundwater resources in Town. The Town’s consultant has made significant progress on the first phase of this work, the Needs Assessment. It is expected that significant progress will be made over the next year.

Environmental Exposition at Sandwich High School
The Engineering Department attends an Environmental Expo at Sandwich High School each year to view projects completed by the senior class. The Engineering Department assists students throughout their project period by providing mapping and stormwater information related to their local projects.

Sandwich Elementary School Water Festival
The Town continues to participate in Water Festivals held by the Cape Cod Commission and Americorps Cape Cod. These annual events educate elementary students about stormwater impacts and methods to minimize these impacts.

Household Hazardous Products Collection
The Town collaborates annually with four other neighboring communities to provide opportunities for residents to properly dispose of household hazardous products. This
reduces the amount of hazardous material released to the environment, including water resources.

**Municipal Solid Waste Disposal Enhancements**
This past year, the Town implemented a Pay-As-You-Throw program at the Solid Waste Transfer Station. This new program requires users to pay for each bag of general trash disposed of. This, together with improvements to the recycling center has reduced the Town’s municipal solid waste stream and increased recycling. Reduced solid waste and increased recycling may result in local environmental benefits as residents become more aware of solid waste disposal and environmentally conscious. The Department of Public Works also distributed compost bins for home composting and aired "Home Composting - Turning Your Spoils to Soil" on local TV (a MassDEP DVD).

**Community Pride Day**
The Town of Sandwich continues the annual Community Pride Day where residents participate in the cleanup of the Town. The DPW distributes equipment to assist in the cleanup of trash and identifies locations where residents can focus their efforts, such as at walking trails, roadsides, beaches, marshes and along shorelines. This event helps prevent trash from entering our valuable water bodies.

**Stormwater Inspections and Monitoring**
The Town continues to monitor erosion control at developments and inspect illicit connections throughout town as part of its SMP. The Town’s enforcement of this program has effectively cleaned up many sites, minimizing impacts to the Town’s drainage system and water bodies.

**Stormwater Management Plan on Display**
The Stormwater Management Plan is on display on the Town’s web site for public viewing. Additionally, the Town’s GIS allows the public to pinpoint specific stormwater problems and relay this information via e-mail to the Department of Public Works. The e-mail shows a map and ID number of the drainage facility so the DPW can quickly respond to any drainage issues. This process also allows accurate record keeping by the DPW.

**Water Quality Groups**
The Town of Sandwich is proactive in matters related to water quality in Sandwich and on Cape Cod. The Town has many public officials and volunteers actively involved with water quality committees including but not limited to the Sandwich Water Quality Advisory Board, Mass Estuaries Program, Popponesset Bay State DEP Pilot Intramunicipal Work Group and 3 Bays Initiative.

**Status of Goals for Year 9**
Similar to the original table submitted for the NPDES General Permit, the attached table shows goals proposed for all Six Control Measures. This updated table reflects new goals and the status of Year 1 through 9 goals. The yellow highlighted cells represent goals scheduled and met in each season of respective years. Words highlighted in red represent
goals that have not yet been reached. New goals mentioned earlier have also been included in the table.

The attached appendix shows several of the actions performed by the Town to meet the Year 9 goals listed in the table.

**Overall Status of 9-Year Permit Term**

As can be seen in the attached table, almost all of the goals in the Town’s SMP have been met over the permit period. It’s important to note that several new goals were added to the Six Control Measures as the SMP evolved. Goals that were not achieved are shown below. In all instances, these goals will be accomplished in future years, as identified in the table. Note: Some of the goals overlap in the Six Control Measures.

**Achieved Goals of Six Control Measures – Year 9**

5.1 Public Education & Outreach
1k. Catch Basin Stencils
Through assistance from Americorps Cape Cod, the Town fastened approximately 100 storm drain markers and distributed 500 door hangers in the environmentally sensitive Town Neck area of Sandwich, which borders Mill Creek and Sandwich Harbor.

**Unmet Goals of Six Control Measures**

5.4 Construction Stormwater Runoff Control
4g. Recommended BMP’s – Future Goal
The Town requires developers to design drainage facilities using BMP’s. The Town had anticipated the Cape Cod Commission obtaining a grant to create a list of “Cape Cod BMP’s” to distribute to developers. Since the grant was not awarded, the Town has begun to develop its own brochure and list of BMP’s. This work is underway and is anticipated to be completed in the next permit year.

4i. Erosion Control Guidelines – Future Goal
The Town has begun to update its current Erosion Control Guideline to reflect current BMP practices and design. This guideline will be available for developers and homeowners. The guideline will also complement enforcement letters for non-compliance. This work is underway and is anticipated to be completed in the next permit year.

5.5 Post Construction Stormwater Management
5f. Recommended BMP’s – Future Goal. See Unmet Goal 5.2, 4g above.

5h. Erosion Control Guidelines – Future Goal. See Unmet Goal 5.2, 4.i above.

**Future Stormwater Management Plan & Permit**

As mentioned above, the Town plans to complete the remaining goals of the SMP during the next permit and will continue implementing most of the SMP goals annually.
The Town will add to its SMP goals as necessary to meet compliance requirements of new permits issued by EPA and DEP. Several of the preliminary requirements for the new permit listed in the EPA letter dated August 3, 2007 are goals that the Town of Sandwich has already implemented. The Town anticipates that it will be able to comply with the others as staffing and funding becomes available.

**Conclusion**
The Town of Sandwich’s accomplishments over the permit period meet or exceed nearly all of the scheduled goals. Additionally, new goals have been created to further enhance the Town’s Stormwater Management Plan. We trust that these accomplishments will satisfy the Massachusetts Department of Environmental Protection and the United States Environmental Protection Agency requirements for this permit. Please contact Sam Jensen of the Sandwich Engineering Department if you have any questions or require further information regarding this Annual Update.

Sincerely,

Samuel J.P. Jensen, P.E.
Assistant Town Engineer

Encl.

cc:    G. Dunham, Town Manager
     P. Tilton, DPW Director, Town Engineer
APPENDIX
YEAR 9 UPDATE

- USDA-NRCS GRANT – SANDWICH HARBOR STORMWATER MITIGATION
- STATE 319 GRANT - STORMWATER MITIGATION OF MILL CREEK
- COMPREHENSIVE WATER RESOURCES MANAGEMENT PLAN
- COMMUNITY PRIDE DAY – TRASH CLEANUP
- HOUSEHOLD HAZARDOUS PRODUCTS COLLECTION
- WET & WILD FESTIVAL
Transmittal Number: W0356
Facility ID (if known)

1.1: Public Education & Outreach

1a. Current Educational Brochures
   - Brochures available at Town buildings and distributed at stormwater events. Early Day Events.

1b. Development Review
   - Continue to enforce stormwater and erosion regulations during development review.

1c. Public Display of Stormwater Model Plan
   - Displayed on Town web site and at Public Libraries.

1d. Public Meeting
   - Held Public Meeting. Updated Board of Selectmen on BMP - BSQ endorsed continuation.

1e. Proposed Educational Brochures
   - Continue to distribute brochures and educational information.

1f. Syphyl & Catch Basin ID & Mapping
   - GIS Displaying Layer is complete. Continue change address.

1g. Risk Site Information
   - BMPR displayed on web site. Future Stormwater Information to be displayed on web.

1h. Educational Festival
   - Participated in Water Festivals at Elementary Schools or County and Annexes.

1i. Educator WP Employers
   - Educate WP employers about disposal and containment of hazardous waste.

1j. Educational Video
   - Announce Cape Cod Stormwater video to Sandwich complete.

1k. Catch Basin Stewards
   - Peeling away 100 CB members & 200 door home tours in Town Neck area during summer.

1l. Stormwater Posters
   - Displayed 4 stormwater products at recent Town of Sandwich.

1m. Student Involvement
   - Added Environmental Science Classes at High School.

1n. Stormwater Committee
   - Project Storm team continues to need to discuss stormwater and implement Phase II flags.

1o. Environmental Expo Review Team
   - Member of Environmental Expo Review Team for Sandwich High School.

1.2: Public Involvement & Participation

2a. Development Review
   - Continue to enforce stormwater and erosion regulations during development review.

2b. Public Display of Stormwater Model Plan
   - Displayed on Town web site and at Public Library.

2c. Proposed Educational Brochures
   - Continue to distribute brochures and educational information.

2d. Risk Site Inspection
   - Continue inspection of potential BSQ connections.

2e. Syphyl & Catch Basin ID & Mapping
   - BMPQ identified over 2,000 CBs and outlets vs GPS. Report is available.

2f. Monitor Program
   - Site Stormwater and monitored sediment levels and installed monitoring equipment for MWPA.

2g. Educational Video
   - Announce Cape Cod Stormwater video to Sandwich complete.

2h. Educational Festival
   - Participated in Water Festivals at Elementary Schools or County and Annexes.

2i. Student Involvement
   - Taught at 3 schools, involved at student projects and involved with data collection.

2j. Stormwater Committee
   - Formed Cape-wide group in DCC to develop & distribute educational info related to stormwater.

1.3: Wet Discharge Detection & Elimination

3a. Assisted Nonpoint Source Program
   - Continue to distribute and schedule nonpoint source stormwater education classes at Sandwich.

3b. Sandwich Village Stormwater Assessment
   - Continue Town buildings to complete stormwater. Completed construction of 4T4 grant.

3c. Wet Discharge & Stormwater Identification
   - Continued inspection of BSQ discharges. Inspected and issued notices to four pump owners.

3d. Catch Basin Cleaning
   - Continue to clean and repair site conditions. GIS drainage layer complete.

3e. Syphyl & Catch Basin ID & Mapping
   - BMPR identified over 2,000 CBs and outlets vs GPS. Report is available.

3f. Educational Information
   - Displayed posters & distributed brochures to public & developers. Earth Day Activities.

3g. Mobile Free Stormwater Discharges
   - Continue to search for non-stormwater discharges that may be significant pollution.

3h. Tewon Bay Area - Small Discharges
   - Tewon Bay includes illegal disposal of waste and fines. Will continue to update maps as necessary.

3i. Water Sampling
   - Tewon Bay continues to monitor water quality improvements and to use for stormwater grants.

Notes:
- Many of the BMP's above will continue beyond the total 5 year permit period.
- Goals completed in the season & year shown above. Words in Red = goals not accomplished under the five year permit.

#### Goals
- Town Rules - Discharge Regulation: Continue to enforce discharge regulations to minimize stormwater impacts.
- Cost Sharing/Discretionary Regulations: Continue to enforce stormwater and erosion regulations and will evaluate need for updates.
- Educational/Info & Public Participation: Distribute & display educational information, Earth Day Activities, Water & Sewer articles.
- Development Review: Continue to enforce stormwater and erosion regulations during development reviews.
- Considerations of Public Information: Public releases DPH of drainage issues via GIS. Town will submit input on BMP and from web site.
- Site Inspections: Town officials continue to inspect & enforce regulations related to stormwater & erosion control.
- Recommended BMP’s: Required BMP’s thru development reviews. Town will complete BMP List for developers.
- Storm Water: Elevate control: Elevate control law status and being enforced by site visits. Update as necessary.
- BMP’s Thru Development Review: BMP’s thru development reviews. City compliant w/ recommended BMP List for developers. City compliant w/ recommended BMP's.
- Water Sampling: Health Department/County samples water quality annually. DPH sampled Mill Creek for 319 Grants.
- Stormwater Stormwaters: Displayed 4 Stormwater posters in Town buildings.

#### 5.6. Post-Construction Stormwater Management
- Developmental Zones - Stormwater Plans: Working with CCC on Growth Centers and Local Comprehensive Plans to address these issues.
- Existing Laws & Regulations: Continue to enforce stormwater and erosion regulations and will evaluate need for updates.
- Educational Info & Public Participation: Distribute & display educational information, Earth Day Activities, Water & Sewer articles.
- Development Review: Continue to enforce stormwater and erosion regulations during development reviews.
- Embankment Cleaning: Complete to clean & remove OB Conditions. Will include Maintenance Plan for GIS.
- Recommended BMP’s: Required BMP’s thru development reviews. Town will complete BMP List for developers.
- Elevate Control: Elevate control law status and being enforced by site visits. Will update as BMP List.
- BMP’s Thru Development Review: BMP List includes recommended BMP List for developers. Old version is being updated.
- Subdivision Rules & Regulations: Modify changes to stormwater regs in the Subdivision Rules & Regulations. Update as necessary.
- Water Sampling: Health Department/County continues to sample water quality and report to DPH.
- Stormwater Posters: Displayed 4 Stormwater posters in Town buildings.

#### 5.6. Pollution Prevention & Good Housekeeping in Municipal Operations
- Stormwater Mitigation or BMP’s: Continue using Town funds/property to mitigate stormwater. Completed construction of Y90 Grant.
- Pollution Control & Mitigation Measures: Installed best available water HRPP consistent pollution control of DPH and Town buildings.
- BMP Property on Town-Owned Land: Will continue to implement BMP’s at ketwade properties.
- DPH: On-Site Stormwater Compliance: DPH impacts Transfer Station drainage facilities quarterly and entirely site annually.
- DPH Environmental Audit - EPA Program: Constructed Salt Shed and interrister water area is DPH george.
- DPH Maintenance Program: DPH uses GIS to assist with landfill base maintenance records.
- DPH Training: Employees are trained about stormwater impacts. DPH accepts stormwater seminars.
- Tree Planting Program: Trees for complete Tree Inventory and Management Plan for Sandwich Village.
- DPH Outreach: CDP and other agency brochures/Flyers are made available to employees/public. On web.

---

**Note:** Many of the BMP’s above will continue beyond the initial 5-year permit period.

- Goals completed in the season/year shown above. Words in Red = goals not accomplished under the five year permit.

Community Pride Clean-Up Info

Community Pride Day is the 2nd Saturday prior to Memorial Day each year. But, you can contact the Department of Public Works at other times of the year at (508) 833-8002 to pick up your free clean-up supplies -- gloves, bags and safety vests -- to help keep our town clean anytime!
COLLECTION SCHEDULE
Saturday 9 am – 1 pm

April 21
Sandwich High School
365 Quaker Meetinghouse Road
East Sandwich, MA 02537

June 16
Falmouth High School
874 Gifford Street (off Brick Kiln Road)
Falmouth, MA 02540

August 18
Mashpee High School
500 Old Barnstable Road (off Route 151)
Mashpee, MA 02649

October 20
Peebles Elementary School
70 Trowbridge Road (off Bourne Rotary)
Bourne, MA 02532

* Residents/Homeowners of Bourne, Sandwich, Falmouth, Mashpee, & Air Station Cape Cod may attend any of the above listed Collection dates.*

Questions?
Contact the Barnstable County Hazardous Materials Program
(508) 375-6699 / (800) 319-2783

Businesses must call to participate at cost.

Upper Cape Household Hazardous Products collections are funded by the towns of Bourne, Sandwich, Falmouth, and Mashpee, Covanta SEMASS, Cape Cod Cooperative Extension, and Barnstable County. Supported in part by AmeriCorps Cape Cod and Senior Environment Corps.

Household Hazardous Products Collections

Residents/Homeowners of Bourne, Sandwich, Falmouth, Mashpee, & Air Station Cape Cod may attend any of the above listed Collection dates.*

Questions?
Contact the Barnstable County Hazardous Materials Program

2012 Schedule
Bourne • Sandwich
Falmouth • Mashpee
Air Station Cape Cod
What Are Household Hazardous Products?

A wide range of materials used in homes are considered hazardous. Generally, these products are oil or solvent based, contain heavy metals such as mercury, or are caustic materials like drain cleaners.

Why should I be concerned?

Thousands of adults will visit a poison control center or emergency room this year with burns, poisonings, or eyesight damage caused by hazardous household products. Almost 1 million children under the age of six will be poisoned or injured in the home by household products, as will thousands of pets.

How can they be identified?

Read the label. If the label says Danger, Poison, Warning, or Caution, the product may be hazardous to your health or may pollute our ground and surface water.

Should I throw them away?

No! Some household products release toxic fumes or explode if they are mixed together in the trash, causing fires or injuring workers. Dumping them in landfills or sewers could contaminate our water supply or kill fish and other wildlife.

Collection Checklist

Cleaners & Chemicals
- Oven Cleaner
- Spot Remover
- Disinfectant
- Drain Opener
- Pool Cleaners & Chemicals
- Solvents & Degreasers
- Photo & Hobby Chemicals
- Acids

Paints, Polishes, & Stains
- PLEASE DO NOT BRING LATEX PAINT! See right panel for disposal details!
- Oil & Alkyd-Based Paint/Stain
- Paint Thinner & Remover
- Solvent-Based Wood Finish
- Auto Paint
- Marine Paints & Sealers
- Metal & Furniture Polish
- Wood Preservatives

Yard Chemicals
- Driveway Sealer with Solvent
- Insecticides, Pesticides, & Rodent Poison
- Weed Killer
- Fertilizers with Weed Killer

Auto Fluids
- Brake & Power Steering Fluid
- Bug & Tar Remover
- Car Polish & Cleaner with Solvent
- Gasoline
- Radiator Flush
- Camp Fuel

Mercury Products
- Blood Pressure Gauges
- Thermometers & Thermostats*
- Switches
- Mercury in Bottles

*Mercury thermometers and thermostats can be exchanged for their digital counterparts while supplies last. Compliments of Canyon SEMASS

How to Recycle Other Items

Recycle at your Transfer Station:
- Used Oil, Oil Filters, & Antifreeze
- Auto & Rechargeable Batteries
- Fluorescent Tubes & Compact Light Bulbs
- Empty Fire Extinguishers
- Propane Tanks
- Empty Cans
- Dry Paint Cans

Dispose of these items as noted:
- Latex & Acrylic paints, Water-Based Stains & Wood Finishes – Pour over cat litter to absorb liquid and throw away
- Alkaline Batteries – Throw away
- Ammunition, Firearms, Fireworks, & Explosives – Take to Police Department
- Sharps/Syringes – Bourne & Sandwich take to Fire Department, Mashpee take to Department of Public Works Building, Falmouth does not participate
- Safety Flares – Bourne, Sandwich, & Falmouth take to Fire Department, Mashpee take to Department of Public Works Building

Use up, Give away, or Dry out:
- Abrasive Cleaners
- Air Fresheners
- Ammonia
- Borax & Boric Acid
- Car Washes & Finishes
- Detergents
- Compounds
- Latex Glues & Caulks
- Cosmetics & Nail Polish
- Personal Care Products
- Lime & Plant Food
- Chlorine Bleach

---

Disposal Sites:
- Bourne: RM Recycle, Bourne West, RM Recycling, Bourne Street, West Sandwich
- Mashpee: Chatham, Mashpee DPW, Mashpee Animal Control, Mashpee DPW Public Works Building, Mashpee DPW Public Works Building, Mashpee DPW Public Works Building
