Date:

29 APRIL 2013

Part II. Self-Assessment

The Department of Correction (DOC) received correspondence from the Environmental Protection Agency (EPA) on May 28, 2004 determining the Notice of Intent (NOI) submission was administratively complete. From the time the NOI's were prepared and before they were submitted the DOC began a prioritization list of areas for investigation including but not limited to:

- Entry Points into the storm drainage system(s) maintained by the DOC.
- Documentation of discharges points on and off the DOC property.
- There are no connections to City of Boston drains
- Illicit connections identification (None were found).
- Investigation of infrastructure and identification of problem drainage areas.

For this location no repairs are necessary as the facility is new as of 2002. Seasonal cleaning of parking lot and street curbs completed as well as picking up trash is completed by inmates.

The DOC has held numerous training sessions with the DOC executive board, the Directors of Engineering and Environmental Health and Safety Staff. At this point training is considered ongoing. Training included an introduction to new staff and the operation of the facility as it relates to the Phase II program, the importance of the program and goals that were set for the first 5 years of the permit program.

Many of the four year milestones and goals have been met - others are still in progress. Progress is affected by funding. This is a new facility and as such only maintenance is necessary.

Part III. Summary of Minimum Control Measures

1. Public Education and Outreach

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 10
1 Revised No	Publicize/Present SW Program to staff	Div. of Res. Management	Publicize and Present Program to	Conduct facility specific training with maintenance staff and other stakeholders in this program.	Continue with additional formal training as funding has been identified.
2 Revised No	Distribute Printed Materials	Div. of Res. Management	Create and Post Material	Provide written updates and progress reports to management staff and	Provide written updates and progress reports to management staff
3 Revised Yes/New	Intranet Posting Preparation of Newsletter	Div. of Res. Management	Post Materials	Completed separate Intranet page. In addition, a newsletter that highlighted the Stormwater Phase II program was completed and distributed.	Intranet page within the DOC was completed. Periodic updates are needed.
4 Revised No	Stenciling	Div. of Res. Management	Complete stenciling	Limited stenciling due to security concerns.	Repaint of stenciling needed

1a. Additions

2. Public Involvement and Participation

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 10
5 Revised No	Form Stormwater Committee	Div. of Res. Management	Form Committee	Formed Stormwater Committee that is part of the DOC's State Sustainability Council.	Goal for committee to meet once per year.
6 Revised No	Staff input	Div. of Res. Management	Solicit Input and Implement Ideas	Input received where investigation is needed or repairs are necessary. Corrective action based available funds. New facility only minor maintenance required.	Developing detailed plans for long term maintenance.

7b. WLA Assessment

Part IV. Summary of Information Collected and Analyzed

The Boston Pre-Release Center is a fairly new facility so the location of the drain lines and outfall are well documented. The primary drainage system discharges into a detention basin on the property is maintained by the DOC. The coming year will continue with catch basin cleaning and other drain inspections/maintenance.

The DOC currently has a recycling program that collects and segregates our wastes for recycling and waste diversion.

Currently inmate labor is used to pick up litter and other road side debris several times per year.

No illicit connections were found.

Part V. Program Outputs & Accomplishments (OPTIONAL)

Programmatic

	YES	Staff by DRM
Stormwater management position created/staffed		
Annual program budget/expenditures	(\$0)	

Education, Involvement, and Training

Estimated number of residents reached by education program(s)	80%	DOC Staff
Stormwater management committee established	Yes	
Stream teams established or supported	No	
Shoreline clean-up participation or quantity of shoreline miles cleaned	NA	
Household Hazardous Waste Collection Days	NA	
▪ days sponsored	NA	
▪ community participation	NA	
▪ material collected	NA	
School curricula implemented	NA	
Recycling	10 tons	

Legal/Regulatory

Regulatory Mechanism Status (indicate with "X")	In Place			Under			Adopted			
	Prior to Phase II	Review	Drafted	Review	Drafted	Adopted	Prior to Phase II	Review	Drafted	Adopted
▪ Illicit Discharge Detection & Elimination	X					X				
▪ Erosion & Sediment Control	X									
▪ Post-Development Stormwater Management										
Accompanying Regulation Status (indicate with "X")										
▪ Illicit Discharge Detection & Elimination				X						
▪ Erosion & Sediment Control				X						X

Mapping and Illicit Discharges

Outfall mapping complete	100%	
Estimated or actual number of outfalls	(One (1))	
System-Wide mapping complete	(100%)	
Mapping method(s)		
▪ Paper/Mylar	100 %	
▪ CADD	0%	
▪ GIS	100 %	
Outfalls inspected/screened	100 %	
Illicit discharges identified	Zero (0)	
Illicit connections removed	NA	
% of population on sewer	(100 %)	
% of population on septic systems	(0%)	

Construction

Number of construction starts (>1-acre)	None
Estimated percentage of construction starts adequately regulated for erosion and sediment control	NA
Site inspections completed	NA
Tickets/Stop work orders issued	NA
Fines collected	NA
Complaints/concerns received from public	None

Post-Development Stormwater Management

Estimated percentage of development/redevelopment projects adequately regulated for post-construction stormwater control	NA - 0%
Site inspections completed	NA
Estimated volume of stormwater recharged	NA

Operations and Maintenance

Average frequency of catch basin cleaning (non-commercial/non-arterial streets)	1 time / year	In permit yr. 9
Average frequency of catch basin cleaning (commercial/arterial or other critical streets)	NA	Not needed
Total number of structures cleaned	0	0
Storm drain cleaned	2	3-5
Qty. of screenings/debris removed from storm sewer infrastructure	200 lbs	TBD
Disposal or use of sweepings (landfill, POTW, compost, recycle for sand, beneficial use, etc.)	Ben. Use	TBD
Cost of screenings disposal and cost of vacuum truck to clean catch basins	(\$)	\$2,000
Storm Damage and debris removal	2 times	Multiple Storms
