Date: **4-23-13**

Part II. Self-Assessment

In general, the Town of Norwell's stormwater management activities for the five years of the General Permit (March 2003 through March 2008) focused on obtaining necessary funding to implement the activities outlined in the Notice of Intent (Massachusetts DEP form BRP WM 08A) submitted in July 2003. The Town has developed a Stormwater Management Plan with program priorities for 2003-2013 including:

1. Achieving regulatory compliance, particularly EPA and DEP Phase II NPDES permit requirements;
2. Incorporating storm water protection measures into municipal activities;
3. Focusing activities on target pollution reduction (e.g. Section 303.d. waters and protecting the Town's water supply);
4. Ensuring that the Program is current and innovative; and
5. Providing Program administration.

The Water Quality Stewardship element of the program focused on the protection of the local water supply and addressing the State's Section 303.d waters located within the Town. To this end, staff continued to develop and improve the Program activities to reduce storm water pollution to the maximum extent practicable and eliminate prohibited non-storm water discharges, while facilitating understanding and involvement in storm water management by various Town departments. Program priorities also focused on increased efforts to reduce target pollutants and restore local water bodies.

The Town is committed to working with local watershed associations to advance their goals and objectives. Another high priority of staff was to keep abreast of the latest technology and approaches to achieve storm water management. Program activities also strove to encourage environmental stewardship and continued to build on partnerships with other agencies, neighboring towns, and the community for active participation in accomplishing the Program mission.

The activities performed during Permit Year Ten focused on construction of 8 BMP's within two major roadways in the Town, updating their MS4 map to show connectivity, updating their Stormwater bylaws, drafting an IDDE Plan and O&M Plan for Stormwater infrastructure, finalizing an SPCC Plan for the storage of oil at their Highway Garage, as well as distributing an informational stormwater flyer.

Part III. Summary of Minimum Control Measures

1. Public Education and Outreach

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 10 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 11
1	Partnership with local Watershed Associations	Con. Comm., Highway, BOH	Regular Meeting Attendance	Continued partnership with North and South Coastal Watershed Association.	Continue partnership with North and South Coastal Watershed Association.
2	Develop Brochures	Highway	Mailings	Informational stormwater flyer issued to residents within water bill mailings.	Continue issuing stormwater informational flyers
3	Web Site Public Service Postings	Highway	Web Site Publication & Maintenance	No updates to website since previous permit year.	NSRWA information transfer and data publication of data, local Website updates. Post stormwater flyer on Town's website.

2. Public Involvement and Participation

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 10 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 11
4	Water Quality Testing	Highway	2 Rounds of Water Quality Sampling of Priority Water Bodies	Delaying further outfall sampling until receipt of new EPA Permit to ensure thoroughness of sampling program.	Continue water quality testing in accordance with new EPA General Permit.
5	Community Cleanup Days	Highway	Annually	“Trash Bash” completed in Spring, 2013	“Trash Bash” planned for Spring 2014

3. Illicit Discharge Detection and Elimination

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 10 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 11
6	Catch Basin/Outfall and Receiving Water Mapping	Highway	GIS Mapping	Continued connectivity, outfall and catch basin mapping and completion of GIS mapping as part of IDDE Plan (catchment ranking)	Continue connectivity, outfall and catch basin mapping and completion of GIS mapping
4	Water Quality Testing	Highway	Testing of Priority Water Bodies	Delaying further outfall sampling until receipt of new EPA General Permit to ensure thoroughness of sampling program.	Commence sampling in accordance with re-issued General EPA permit
7	Regulatory Review	Highway, Planning Board, BOH, Con. Comm.	Regulatory Revisions and Action	Finalized BOH regulation to conform with requirements for preventing Illicit Discharge.	Ongoing to comply with local bylaws, state and federal requirements.
8	Permit Enforcement	Highway, Planning Board, BOH, Con. Comm.	Local Construction Site Oversight and Enforcement	Ongoing to comply with local bylaws, state and federal requirements.	Ongoing to comply with local bylaws, state and federal requirements.
9	Misconnection/Illegal Dumping and Correction	Highway, BOH	Connectivity Mapping, Bylaw Enforcement and Fines	Finalized IDDE Plan to comply with draft EPA General Permit requirements.	Implement IDDE Plan.

4. Construction Site Stormwater Runoff Control

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 10 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 11
7	Regulatory Review	Highway, Planning Board, BOH, Con. Comm.	Regulatory Revisions to Bylaws as Necessary	Approved bylaw at Town Meeting in May, 2012.	BMP Complete.
8	Permit Enforcement	Highway, Planning Board, BOH, Con. Comm.	Local Construction Site Oversight and Enforcement	Ongoing to comply with local bylaws, state and federal requirements.	Ongoing to comply with local bylaws, state and federal requirements.
10	Improved As-Built Review	Highway, Planning Board	Electronic As-Built Submittals on Town GIS System	Bylaw approved by Town Meeting in May 2012 included requirement for submittal of as-built drawings.	Develop protocol for submitting as-built drawings electronically.

5. Post-Construction Stormwater Management in New Development and Redevelopment

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 10 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 11
7	Regulatory Review	Highway, Planning Board, BOH, Con. Comm.	Regulatory Revisions to Bylaws as Necessary	Approval of bylaw at Town Meeting in May 2012.	BMP Complete.
8	Permit Enforcement	Highway, Planning Board, BOH, Con. Comm.	Local Construction Site Oversight and Enforcement	Ongoing to comply with local bylaws, state and federal requirements.	Ongoing to comply with local bylaws, state and federal requirements.

6. Pollution Prevention and Good Housekeeping in Municipal Operations

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 10 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 11
11	Improved Street Sweepings	Highway	# Streets Swept	Conducted street sweeping of the Urbanized Area during the Spring 2013	To be conducted during the Spring 2014
12	Improved Catch Basin Cleanings	Highway	# Catch Basins cleaned	Approximately 225 Catch Basins (~20%) cleaned during Permit Year 10, within the Urbanized Areas.	Continue cleaning catch basins in the Urbanized Area. Commence implementation of Catch Basin cleanings in accordance with newly drafted MS4 infrastructure O&M Plan.
13	Household Hazardous Waste Days	Highway	Hazardous Waste Collection Days	Waste Oil/Paint collected manifested off-site at the Town-run recycling area.	Continued collection of waste oil/paint at recycling area.
14	Drain Stenciling	Highway	Aquifer Protection Area	No stenciling conducted during this permit year.	Stenciling program scheduled to commence during the summer of 2013 in Aquifer Protection District.
15	Employee Training	Highway	Seminar Attendance	On-site training of Town Highway employees on Hazardous Waste Management at their highway garage.	Will continue to identify and attend appropriate training sessions.

Additional Information:

The Town of Norwell Highway coordinated with the Plymouth County Mosquito Control Program to remove blockages, brush and other obstructions from 400 linear feet of ditches and streams.

In 2012-2013, the Town drafted an Operations and Maintenance Plan for its MS4 Infrastructure. The Town also drafted a Spill Prevention Control and Countermeasures (SPCC) Plan for its Highway Garage.

In 2012-2013, the Town constructed eight BMP's (infiltrations systems) to treat first flush stormwater along heavily trafficked arteries with the Town (Summer and Lincoln Streets). An additional 9 BMP's are planned for Summer, South and Winter Streets in 2013-2014.

Part IV. Summary of Information Collected and Analyzed

The Town has reviewed the local, state and federal bylaws relative to stormwater and aquifer protection, and appears to be adequately regulated and in conformance with the Massachusetts Stormwater Management Policy.

Permit Years 1 through 3 Activities and Information

During Permit Year One, the Town focused on preparing a Stormwater Management Plan (dated June 26, 2003). During Years Two and Three, the Town focused on obtaining local approval to borrow stormwater management funds (\$300,000) from the Massachusetts Water Abatement Trust State Revolving Fund Program; reviewing current regulations; improving local good housekeeping programs; and communicating the Town's Plan to local watershed associations. This required communication among the various departments in town.

Permit Year 4 Activities and Information

During Permit Year 4, the Town obtained funding through the Massachusetts Water Abatement Trust State Revolving Fund for \$300,000. Using this funding, the Town developed a scope of work to initiate the activities outlined in the Storm Water Management Plan and began implementing those activities, including the completion of an aerial flyover of the Town and the development of full planimetric mapping of the Town. This mapping is being used as the basis for the development of town-wide drainage system mapping and the performance of outfall inspections and water quality screening and testing as outlined in the DEP approved scope of work.

Permit Years 5 and 6 Activities and Information

During Permit Years 5 and 6, the Town successfully completed its aerial planimetric mapping program, and mapped and sampled its stormwater outfalls. The water quality screening and testing program was conducted in accordance with a DEP-approved scope of work.

The Town provided updates to the public through water bill mailings and postings on the local Web site, and continued to work with local watershed associations on possible funding sources and ways in which to promote volunteerism. The Town took part in employee training seminars sponsored by the Plymouth County Highway Association and continued to improve its good housekeeping programs.

Permit Years 7 thru 10 Activities and Information

During Permits Years 7 through 10, the Town updated its local bylaws and finalized mapping of its MS4 system within its 2000 Urbanized Area including outfalls, catch basins, manholes and Stormwater BMP's. All MS4 system updates were loaded into the Town's GIS system, with the conditions/photos and previous sampling results of the outfall structures. Additionally during this period, the Town completed drafting a Stormwater Pollution Prevention Plan and an SPCC Plan for its Highway Garage.

In Permit Year 10, the Town drafted an IDDE Plan, which includes ranking of all catchment areas within the urbanized areas of the Town of Norwell. The Town also drafted an O&M MS4 Infrastructure Plan for their compliance with the MS4 General Permit requirements. In 2012-2013, the Town constructed eight BMP's (infiltrations systems) to treat first flush stormwater along heavily trafficked arteries with the Town (Summer and Lincoln Streets).

As it did in 2012, the Town will continue to provide updates to the public through water bill mailings and postings to the local website, and will continue to work with local watershed associations on possible funding sources and ways in which to promote volunteerism. The Town continues to train its employees locally (highway garage hazardous waste training) and will continue to take part in employee training seminars sponsored by the Massachusetts Highway Association and Plymouth County Highway Association (PCHA) to improve its good housekeeping programs.
