EXECUTIVE SUMMARY

During the Permit Year Ten (May 1, 2012 through April 30, 2013) the Town of Wakefield complied with the Town's permit application submittal dated July 28, 2003. The overall five-year permit planned permit program is presented on the charts following this page.

During Permit Year Ten, work activities occurred for each of the six planned Best Management Practices, primarily as an extension of the permit year five activities. The details of work activity conducted for each BMP are presented in Section I of this report.

We do not recommend as of this date, that the identified BMP's or measurable goals be changed with the exception of the Adopt-A-Stream Program, which has been changed to a Department of Public Works Annual Stream Cleaning Program.

SECTION I.

SELF-ASSESSMENT OF COMPLIANCE WITH THE PERMIT CONDITIONS.

The purpose of this section is to perform a self-assessment of the work undertaken during Permit Year Ten (May 1, 2012 through April 30, 2013) in terms of compliance with permit conditions.

The chart presented on the following pages presents an identification of each of the activities scheduled under each BMP, the scheduling of work within Permit Year Ten and a Self-Assessment of Compliance with Permit Conditions.

SECTION II.

ASSESSMENT OF THE APPROPRIATENESS OF THE SELECTED BMP'S.

The selected items of work as included in the NPDES permit application for each of the BMP's were derived from an extensive review by the Department of Public Works and the NPDES Phase II Committee during the period prior to the July 30, 2003 permit submittal.

During the Permit Year Ten (May 1, 2012 through April 30, 2013) the Town of Wakefield did identify that all of the pre-planned work items including the Department of Public Works Annual Stream Cleaning Program (implemented in lieu of the Adopt-A-Stream Program) will provide benefit to the Town.

SECTION III.

ASSESSMENT OF PROGRESS TOWARDS ACHIEVING MEASURABLE GOALS.

This section presents an assessment of progress toward achieving the permit related measurable goals from work performed during NPDES Permit Year Ten (May 1, 2012 through April 30, 2013.)

SECTION IV.

SUMMARY INFORMATION COLLECTED AND ANALYZED. (INCLUDING DATA)

This section illustrates how the Town of Wakefield has catalogued all the information and material that was collected during the first ten Permit Years (through April 30, 2013) related to the NPDES Phase II Stormwater Regulations.

Information and material shall be continually gathered and logged into the spreadsheet shown on the following pages, and filed in the NPDES Phase II Stormwater library at Town Hall. An area at the Wakefield Town Hall is reserved for the Municipal Stormwater Management Library consisting of reports, technical data, forms, workbooks, guidelines, fact sheets, instructions, product specifications, pamphlets, posters, articles, lists, manuals, maps, letters, memos, emails, magazines, videos, compact discs, seminar material, miscellaneous notes and information. Each item is categorized under an appropriate BMP for ease of reference throughout the permit process.

SECTION V

ONGOING ACTIVITIES

As there has not yet been, a permit submittal required to define the BMP work items for the future, the Town will be continuing the items listed below which we believe will provide the most benefit to the Town's stormwater management program.

- Public education (Press releases, Articles for Newsletters, Additional Fact Sheets, Public Participation at Community Events, Stormwater Forum, etc.)
- Cleanup activities (FOLQ Lake Quannapowitt Cleanup, DPW Stream Cleaning Program, Hazardous Waste Collection Days)
- Continuation of Sweeping, Catch basin and Stream Cleaning Programs. Also, continuation of the good housekeeping programs adopted in the first 5-year permit.
- Additional training of municipal staff
- Continuation of our stormwater drainage system investigations and mapping program and monitoring for illicit discharges

SECTION VI.

CHANGES IN IDENTIFIED BMP'S OR MEASURABLE GOALS

At the time of preparing this annual report for May 1, 2012 through April 30, 2013 we have identified that all of the pre-planned work items, including one change which is the Department of Public Works Annual Stream Cleaning Program (implemented in lieu of the Adopt-A-Stream Program), have provided implementation of the planned Best Management Practices and achieving Measurable Goals as identified in the Town's permit application submittal dated July 28, 2003.

SECTION VII

RELIANCE ON ANOTHER ENTITY FOR ACHIEVING ANY MEASURABLE GOAL.

The Town's water bodies do receive stormwater flows from the following entities, upon which the Town relies on the quality of their stormwater discharges in achieving any measurable goal:

1. Massachusetts Highway Department:

Route 95/128, which crosses, through the northern end of Town, from Stoneham to Lynnfield. Stormwater discharges from this interstate-highway discharge either to Lake Quannapowitt or the downstream Saugus River, which also receives flows from Lake Quannapowitt.

2. Massachusetts Department of Conservation and Recreation:

Breakheart Reservation located along the eastern boundary of Wakefield, of which a portion drains to the Mill and Saugus Rivers in Wakefield.

3. Regional School:

Northeast Regional Vocation School (code #853) serving 12-communities, is located along the eastern boundary of Wakefield, also abutting the Breakheart Reservation, which drains to the Mill and Saugus Rivers in Wakefield.

4. Commonwealth of Massachusetts:

Camp Curtis Guild, Massachusetts Army National Guard located at the northern boundary of Wakefield, of which a small portion may drain to the Saugus River.

5. United States Government:

United States Military Reservation, Tarrant Lane military housing located in the northwest corner of Wakefield, if which the stormwater from this area drains to Lake Quannapowitt, which in turn drains to the Saugus River.

6. Surrounding Communities:

The Town of Wakefield has a number of abutting municipalities, which share Wakefield's municipal boundary. Along these boundaries, there are some watershed areas that may flow from one community to the other. These municipalities include: Lynnfield, Melrose, Reading, Saugus and Stoneham.
