Part II. Self-Assessment

On May 6, 2008 Town Meeting voted to approve two major road and drainage projects; \$2,890,671 for Pond Street and \$3,282,492 for East Spring Street, Robbins Street, Glendon Street, and East High Street. On August 26, 2008 these projects were successfully funded via a debt exclusion vote.

An engineering firm was retained and plans completed for the Pond Street. This project is two-phased, one being the reconstruction of and drainage replacement and modifications on Pond Street proper, the second being an off-street draining system which slices through the Brentwood section of town, previously identified in past reports as suffering major drainage and flooding issues. Contracts for both phases of the project were awarded in summer of 2010. The Pond Street drainage work was completed during the last reporting cycle. The remaining work was completed in this reposting cycle.

\$ 3,477,477.91 remains a stabilization fund solely created for water protection projects.

The Town worked with FEMA to update floodplan maps for the area. May 2012 Annual Town Meeting accepted them as a zoning bylaw amendment.

The Town, through the Highway Department Budget has continued proper catch basin cleaning schedules as well as clearing and cleaning of various storm culverts, streams and drainage areas.

The Town continues to adequately budget for street sweeping that allows the town to minimize the impact of sand and salt on the stormwater drainage system.

The Town remains committed to making as much progress with improving our stormwater discharge as is possible, realizing budgetary and manpower constraints.

Part III. Summary of Minimum Control Measures

1. Public Education and Outreach

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 11 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year X
101 Revised	Stormwater Impacts Mailer	Town Administrator	1 Town Wide Mailing	Included in May 2013 Selectmen’s mailing.	To be included in May 2014 Selectmen’s mailing.
102 Revised	School Stormwater Science Project	Town Administrator with School Supt.	1 Class Science Project	Project incomplete	Discuss with Superintendent and develop appropriate plan
103 Revised	Stormwater on Local Cable Access Show	Town Administrator	1 show on environmental/stormwater issues	Showed EPA/DEP stormwater programs on Avon local cable	Continue to show EPA/DEP stormwater programs on Avon local cable
104 Revised	Youth Stream Cleanup	Town Administrator	Annual Stream Clean Up Day	Town-wide cleanup scheduled for May 10, 2014	Cleanup will be annual spring event.
