| EPA NPDES Permit Number:    | MAR041030                         |  |  |
| MassDEP Transmittal Number: | W-035750                          |  |  |
| Annual Report Number        | Year 11                           |  |  |
| & Reporting Period:         | April 1, 2013 – March 31, 2014    |  |  |

### NPDES PII SMALL MS4 GENERAL PERMIT ANNUAL REPORT

Part I. General Information

| Contact Person: | Jodie W. Keene | Title: | Assistant Conservation Admin. |
|-----------------|----------------|--------|-------------------------------|
| Telephone #:    | 781-270-1655   | Email: | jkeene@burlington.org         |

Mailing Address: 25 Center Street, Burlington, MA 01803

### Certification:

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

| Date:       | 4/16/14            |  |

### Part II. Self-Assessment

The Town of Burlington has conducted the annual self-assessment of its Stormwater Management Program and finds that it is in compliance with the requirements of the NPDES Small MS4 Permit issued in 2003. Evaluation of each minimum control measure follows, with general comments below and specific recommendations in Part III.

#### Public Education & Outreach

The identified goals for Public Education & Outreach have been reached. However, many of the printed educational materials were developed during the first permitting year and should be updated. Updating printed materials was proposed for 2013 and is currently underway. Coordination with the local cable television channel, BCAT, has proven effective in reaching broader audiences. Burlington has been promoting April as "Stormwater Awareness Month" and is working with several local and regional partners to promote public education. Updated, targeted outreach should employ print (i.e. brochures and news articles), web-based, broadcast, and community-based (i.e. outings, meetings, and lectures) efforts.

### Public Participation & Involvement

Public Participation & Involvement goals have been reached and the Students for Environmental Action remain active partners in our efforts. The Town of Burlington partnered with the Great American Rain Barrel Company to host a municipal rain barrel purchasing program, which was very successful. Efforts to establish a "Stream Team" in Burlington have, thus far, gone unrealized. Coordination with local watershed associations (Ipswich River Watershed Association, Mystic River Watershed Association, and Shawsheen River Watershed Association) is vital to volunteer program success. Wayne Castonguay, Executive Director of the Ipswich River Watershed Association, will be presenting at the April 10, 2014 Conservation Commission meeting with hopes to increase Burlington's participation in watershed activities.

### Illicit Discharge Detection & Elimination Program

Burlington's Illicit Discharges and Detection Bylaw, prohibiting illicit connections and providing authority for enforcement, was adopted in 2006. Burlington has a well-documented stormwater management system. Documentation consists of a GIS map and associated database, which were created in 2004 and have been periodically updated since. Field verification of this data should be implemented and updates to the database made on a more regular basis. This data helps to identify potential problem areas allowing for a targeted approach to visual inspections and future sampling efforts. Dry weather sampling was conducted in 2004 and no illicit connections were detected. The Board of Health and Department of Public Works staff have been trained in identifying and reporting illicit connections.

#### Construction Site Stormwater Runoff Control and Post-Construction Stormwater Management

Any project filing for a Wetlands Permit with the Conservation Commission undergoes extensive review for erosion control and post-construction stormwater management. New wetlands regulations were passed in 2013, which increased jurisdictional protection within 200 feet of many small streams. Additionally, any project requiring Site Plan Review or a Special Permit from the Planning Board is reviewed for erosion control and stormwater management by Conservation Department staff. The Erosion & Sedimentation Control Bylaw, approved and adopted in 2006, authorizes jurisdiction of erosion control and stormwater management for any project disturbing more than 10,000 square feet of land. These permitting regulations ensure that most development projects in town are reviewed for erosion control and stormwater management. However, single-family residential construction frequently does not trigger any formal review for stormwater. Ultimately, officials may wish to consider amending the Erosion & Sedimentation Control Bylaw to include additional jurisdictional triggers, such as construction of a foundation.

### Pollution Prevention & Good Housekeeping

Pollution prevention practices in Burlington are well-established and up-to-date. Pollution prevention training is provided to Department of Public Works, Recreation Maintenance, and Facilities staff. However, training should be better documented and periodically reviewed by the Stormwater Management Committee. Burlington's participation in the Northern Middlesex County of Governments Stormwater Coalition will provide additional training opportunities for municipal staff. The Board of Health holds regular hazardous waste collection days and offers mercury-containing products (thermometers, lamps, batteries, etc.) and cell phone recycling year round. The Students for Environmental Action hosted an electronics recycling day. The Recreation Department has committed to utilizing only organic fertilizers in town. The Department of Public Works has employed a vegetation management plan to reduce the amount of pesticides used along the roadways and to prevent usage of pesticides near wetlands. Street sweeping and catch basin cleaning occurs yearly.

# Part III. Summary of Minimum Control Measures

### 1. Public Education and Outreach

| BMP<br>ID # | BMP Description  | Measurable Goal  | Progress Toward<br>Achieving Goals  | Activities for next<br>Reporting Cycle   | Comments, Notes, and/or<br>Summary of Results  |
|-------------|--|--|---|--|--|
| 1-1         | Develop brochure<br>and/or fact sheet for<br>homeowners        | Final drafts - 1st yr;<br>review by SWMC;<br>distribute 2nd year | Extensive research was<br>done to identify<br>resource materials.<br>Pamphlet for<br>homeowners has been<br>drafted and reviewed<br>by SWMC. Edits were<br>incorporated and a<br>brochure was mailed to<br>all residents in Town. | This should be<br>amended and re-<br>sent in 2013-2014.  | <i>Completed</i> - Brochure addresses:<br>- auto maintenance<br>- yard work<br>- herbicides and pesticides<br>- landscaping<br>- painting<br><i>Ongoing</i> - The revision of<br>brochures is currently underway<br>and will be coordinated with<br>electronic media updates.  |
|             | Develop brochure<br>and/or fact sheet for<br>businesses        | Draft within 2nd year;<br>review by SWMC;<br>distribute 3rd year | Draft brochure for<br>business sector was<br>reviewed by BOH staff<br>for food service<br>facilities and finalized.<br>Brochure was<br>formatted, printed,<br>addressed and mailed<br>to all businesses in<br>Burlington.         | This should be<br>amended and re-<br>sent in 2013-2014   | <i>Completed</i> - Brochure addresses:<br>- general best practices for all<br>- landscape contractors<br>- food service facilities<br>- automotive repair shops<br><i>Ongoing</i> – The revision of<br>brochures is currently underway<br>and will be coordinated with<br>electronic media updates.  |
| 1-3         | Collect/assemble<br>educational<br>materials for school<br>use | Discuss with schools<br>and collect materials                    | Additional efforts were made to research  | Efforts should be<br>made to work<br>with all schools to<br>incorporate<br>Project Wet or<br>similar curriculum<br>into existing<br>framework. | <i>Ongoing</i> – Water pollution is<br>discussed as part of the water<br>cycle in grade 2 classes. The high<br>school environmental education<br>teacher covers water quality and<br>pollution with students.<br>Additional efforts should be made<br>to incorporate water pollution<br>curriculum (such as Project Wet)<br>in other grades. |

| 1 - 4 | Place educational<br>materials for BMPs<br>1-3 in library           | If suitable materials are<br>found, discuss with<br>library and place<br>materials in library. | Materials were<br>identified and used for<br>a "Stormwater<br>Display" which was in<br>place for the month of<br>April 2013.   | Set up<br>"Stormwater<br>Display" again in<br>April 2014.   | <i>Ongoing</i> – The Burlington Public<br>Library featured a "Stormwater<br>Display" during the month of<br>April 2013 which will be on<br>display in April 2014 as well. The<br>display features a rain barrel, a<br>catch basin cover, books,<br>periodicals, worksheets, and<br>activities relating to water quality.   |
|-------|---|--|--|---|--|
| 1 - 5 | Add storm water<br>information and<br>links to Town web<br>site     | Convert materials to pdf<br>format in 4th yr; develop<br>web pg 5th yr                         | Web site was created in<br>year 5, with customized<br>materials for various<br>audiences. However,<br>the Town website has<br>since undergone a<br>redevelopment and the<br>Stormwater pages are<br>being revisited at this<br>time. | Continue to create<br>up-to-date web<br>pages for<br>residential,<br>commercial,<br>industrial, and<br>municipal<br>audiences<br>utilizing new<br>CMS based site.<br>Research and link<br>to LID planning<br>tools. | <i>Completed</i> - Researched,<br>developed, and customized<br>extensive materials for public<br>education on the subject of storm<br>water pollution prevention for<br>businesses and homeowners.<br><i>Ongoing</i> - New pages are under<br>construction as the website has<br>been redeveloped. Updated<br>materials are needed.  |
| 1 - 6 | Publicize SWMC<br>meetings for public<br>education<br>opportunities | Conduct at least 4 public<br>meetings in 5 years   | Annual meetings are<br>usually held either in<br>the spring or fall each<br>year. Press releases are<br>issued to local papers.  | Will continue.<br>Meeting will be<br>held when new<br>NPDES permit is<br>issued.  | <b>Ongoing</b><br>Original 5 year permit committed<br>to conducting 4 public meetings<br>over the 5 year term. We have<br>met that commitment.<br><b>Public Meeting March 2011</b><br>Held to discuss the pending new<br>stormwater regulations. Purpose<br>of meeting was to educate Town<br>board members and the public of<br>pending NPDES regulations. This<br>will be repeated when the revised<br>permit is issued. |

### 1a. Public Education and Outreach - Additions

| 1-7 | Public Education<br>Outings                            | Conduct public<br>education outings with a<br>focus on the subjects of<br>water quality,<br>stormwater, and<br>watershed science | The Conservation<br>Department held<br>regular outings,<br>including Vernal Pool<br>ID workshops, Canoe<br>Trip on the Shawsheen,<br>Drinking Water<br>Reservoir Clean Up,<br>and others.   | Will continue | <b>Ongoing</b><br>Periodic nature walks were<br>implemented to increase public<br>awareness of the importance of<br>protecting natural resources.<br>Nature walks for public education<br>are planned to continue<br>indefinitely.  |
|-----|--|--|---|---------------|---|
| 1-8 | Municipal Employee<br>Education                        | Hold regular meetings<br>to discuss stormwater<br>management, conduct<br>trainings, organize<br>educational outings              | Development/<br>Permitting meetings<br>are held periodically<br>during which projects<br>are reviewed for permit<br>compliance, including<br>stormwater issues.<br>Stormwater meetings<br>are held periodically,<br>during which<br>stormwater<br>management is<br>reviewed and LID<br>opportunities<br>discussed.<br>Stormwater workshops<br>and conference<br>announcements are<br>shared with<br>Department Heads. | Will continue | A tour of the Lexington DPW<br>facility was arranged. Another<br>tour will be offered in the future<br>The Wetlands 101 training,<br>offered to DPW staff, should<br>occur yearly prior to the start of<br>construction season and should be<br>offered to both DPW and<br>Recreation Maintenance staff.<br>Stormwater specific meetings<br>should commence with the re-<br>issuance of the NPDES permit. |
| 1-9 | Create Water<br>Quality Activity Kit<br>at the Library | Kit available to children  | A water kit is available<br>to children to use while<br>at the Library  | Will continue | <i>Completed</i> – There is a water<br>activity kit available to visitors,<br>which will remain a permanent<br>part of the Library's offerings.   |

| 1-10 | PSA run on BCAT,<br>lobby video | and one details creating                                    | HS group produce<br>a "Stormwater<br>101" PSA to be | <i>Completed –</i> Porous pavement<br>and rain garden videos are on<br>rotation in the Town Hall Annex<br>lobby. BCAT periodically<br>broadcasts "After the Storm." |
|------|---------------------------------|---|---|---|
|      |                                 | BCAT is running EPA's<br>"After the Storm"<br>periodically. |   |   |

# 2. Public Involvement and Participation

| BMP<br>ID # | BMP Description  | Measurable Goal  | Progress Toward<br>Achieving Goals   | Activities for<br>Next Reporting<br>Cycle   | Comments, Notes, and/or<br>Summary of Results   |
|-------------|--|--|--|---|---|
| 2 - 1       | Document existing<br>public involvement<br>opportunities   | Summarize in 1st<br>annual report  | No activity  | None  | <i>Not continued</i> - Summary of<br>existing public involvement<br>opportunities (BMP 2-1) is not<br>useful, since these opportunities<br>are now being created under the<br>EPA permit (i.e., Annual SWMC<br>meeting, hearings on new<br>bylaws, etc). This BMP will not<br>be continued. |
| 2 - 2       | Publicize<br>participation<br>opportunities with<br>Shawsheen, Mystic<br>River, and Ipswich<br>Watershed<br>Associations | Monitor publicity<br>generated in local<br>newspapers<br>during permit<br>term. Provide<br>assistance to<br>ensure publicity<br>if needed. | Communication and<br>collaboration has been<br>established with SRWA,<br>MyRWA, and IRWA. Events<br>and outings are cross<br>publicized. |   | <i>Ongoing</i> - Activities of the<br>Shawsheen, Mystic River, and<br>Ipswich Watershed Associations<br>are shared with the Burlington<br>Conservation Stewards.  |
| 2 - 3       | Plan and implement<br>projects with High<br>School<br>environmental<br>group   | Develop plan and<br>implement<br>projects during<br>4th and 5th years<br>of permit   | Students continue to<br>participate in the drain<br>marking efforts, but little else<br>has resulted from this<br>collaboration.         | Additional streets<br>shall be targeted<br>for stormwater<br>catch basin<br>marking during<br>subsequent permit<br>years.<br>Additional project<br>should be<br>discussed with the<br>students. | <i>Ongoing-</i> New aluminum storm<br>drain markers have been<br>installed in two neighborhoods<br>and will remain in place longer<br>than spray paint stencils.  |
| 2 - 4       | Publicize SWMC<br>meetings for<br>opportunities for<br>public involvement  | Maintain copies<br>of publicity in file<br>over 5 year<br>permit term  | Press releases were issued to local newspapers.  | Press releases will<br>continue to be<br>issued.  | <i>Ongoing –</i> will publicize meetings when held.   |

| 2 - 5 | Issue press releases<br>when storm water | of publicity in file<br>over 5 yr permit | Press releases have been<br>issued for "Stormwater<br>Awareness Month" and | be sent for<br>"Stormwater | <i>Ongoing –</i> Press releases are<br>drafted announcing the<br>stormwater display for the<br>month of April in the Burlington<br>Public Library. |
|-------|--|--|--|----------------------------|--|
|-------|--|--|--|----------------------------|--|

# 2a. Public Involvement and Participation – Additions

| 2-6 | Collaborate on<br>watershed based<br>stormwater<br>improvement<br>projects | Partner with<br>regional groups<br>on water quality<br>improvement<br>projects.  | MyRWA led regional effort to<br>identify retrofit BMPs in the<br>Aberjona River Watershed.<br>Sites selected in Burlington<br>were analyzed and a final<br>recommendation was made. | Participate in<br>additional<br>opportunities as<br>they become<br>available                        | The intersection of Burlington<br>Mall Road and Stony Brook Road<br>was selected and a retrofit BMP<br>was designed by the<br>Bioengineering Group. Although<br>designed to serve as a model for<br>the Burlington Mall Road median<br>redevelopment / adoption<br>project, this design was not<br>constructed. |
|-----|--|--|---|---|---|
| 2-7 | Establish a "Stream<br>Team"   | Interested<br>residents<br>identified and<br>organized,<br>involved in<br>sampling water,<br>organizing clean<br>up events, and<br>leading outings | IRWA was contacted to assist<br>in forming and training a<br>stream team  | Identify interested<br>residents and host<br>training   | <b>Ongoing -</b> IRWA, MyRWA, or<br>SRWA collaboration is necessary.<br>Previous attempts to establish a<br>Stream Team have not been<br>successful. Clean-up events have<br>occurred occasionally and will<br>continue. However, sampling<br>needs will not be adequately met<br>with volunteer efforts.       |
| 2-8 | Hand Stream<br>Cleaning Program  | Continue<br>summer stream<br>cleaning program  | This program has been in<br>place for 16 years with plans<br>to continue indefinitely.  | Incorporate an<br>element of water<br>quality<br>monitoring into<br>the stream<br>cleaning program. | <b>Ongoing</b> – This well-established<br>program is for hand-cleaning<br>Burlington's streams. Two to<br>three summer workers walk the<br>streams removing trash, debris,<br>and obstructions from the stream<br>channels.   |

# 3. Illicit Discharge Detection and Elimination Program

| BMP<br>ID # | BMP Description   | Measurable Goal   | Progress Toward<br>Achieving Goals                          | Activities Next<br>Reporting Cycle                   | Comments, Notes, and/or<br>Summary of Results   |
|-------------|---|---|---|--|---|
| 3 - 1       | Map storm water system<br>and outfall locations                                 | Complete map and<br>outfall database by end<br>of 2nd permit year   | The GIS mapping and<br>outfall database is now<br>complete. | None   | <i>Completed</i> 2004- during 2nd<br>permit year. Work left on<br>mapping such as corrections to<br>flow direction and the addition<br>of some outfall locations was<br>finished.<br><i>Completed</i> 2010 – newly<br>identified outfalls were added to |
|             | Finish map database   | Finalize database in 2nd<br>year; submit revised<br>waterbodies list to EPA   | mapping and outfall   |  | map and database.<br><i>Completed</i> - GIS mapping and<br>outfall database is 100 percent<br>complete during 2nd permit  |
| 3 - 2       | and assign names for<br>tributaries that<br>discharge into named<br>waterbodies | / DEP as permit<br>modification if needed;<br>and update mapping<br>database in 3rd and 5th<br>years from manual<br>checking selected data. |   | Submit<br>information as<br>needed to EPA.           | year.<br>This database should be updated<br>yearly and become part of<br>stormwater planning and<br>maintenance efforts.  |
| 3 - 3       | Develop sampling and<br>analysis plan for dry<br>weather flows                  | Plan completed in year 1  | Completed   | None   | <i>Completed</i> - A plan was<br>developed during 1st permit year<br>to sample 5 locations of dry<br>weather flows detected during<br>the mapping field verification.<br>Two samples were collected from<br>each location.                              |
| 3 - 4       | Visually inspect outfalls<br>for dry weather flows                              | Selective inspection 1st<br>& 2nd year; spot<br>inspection yrs 3-5,<br>inspection records in<br>program file                                | Town-wide inspection<br>for first year was<br>completed.    | Selected<br>inspections will<br>be done if<br>needed | <i>Completed</i> - A field check of the<br>entire town was completed as<br>part of field verification to<br>support the mapping activity.<br>Five (5) outfalls were identified<br>as having dry weather flows.  |

| 3 - 5 | Conduct sampling at<br>outfalls with dry<br>weather flows  | Conduct sampling -<br>selected outfalls in 1st<br>yr; selected additional<br>sampling in years 3 & 5<br>if needed; results in<br>program file | Sampling and analysis<br>activities were<br>completed at 5 outfall<br>locations during 1st<br>permit year.                        | Additional<br>sampling will be<br>done if needed    | <i>Completed</i> - Each outfall location<br>was sampled for bacteria,<br>ammonia, surfactants,<br>conductivity, and fluorides.<br>Since no flowing water was<br>occurring at 4 of 5 sites, samples<br>of standing water at the mouth of<br>pipe were taken. Based on these<br>results, no illicit connections are<br>believed to exist at these<br>locations. |
|-------|--|---|---|---|---|
| 3 - 6 | Develop training<br>materials for DPW /<br>others for illicit<br>discharge                                 | Develop training<br>materials in subsequent<br>year   | Coordination with the<br>Town environmental<br>engineer has been<br>established and<br>training materials are to<br>be developed. | Develop training<br>materials in<br>subsequent year | <ul> <li>Ongoing – DPW employees are trained to recognize and report illicit discharges. This training needs to be formalized and documented.</li> <li>Ongoing – Training will be offered through the Northern Middlesex Stormwater Collaborative.</li> </ul>   |
| 3 - 7 | Review current bylaws<br>/ regulations relevant to<br>illicit discharge -<br>Burlington and other<br>towns | Review was completed<br>in 1st year   | Complete  | None  | <i>Completed</i> - Extensive effort was<br>made during the 1sr permit year<br>to identify bylaws in use by<br>others districts (nationwide).<br>Bylaws have been obtained that<br>will serve as a model for<br>Burlington's adoption and<br>implementation of an illicit<br>discharge bylaw. A review of<br>these bylaws has been<br>completed.               |

| 3 - 8  | Develop bylaw to<br>prohibit illicit discharge            | Develop draft bylaw in<br>3rd year and brought to<br>Town Meeting in 4th<br>year for approval | Illicit discharge bylaw<br>was adopted in 2006  | None  | <i>Completed</i> - Comments by Town<br>Boards and Committees have<br>been incorporated. Meetings<br>and public hearings were held<br>with various Town Departments<br>to arrive at a consensus on<br>implementation logistics for a<br>new bylaw. Review by Town<br>Counsel was completed. Town<br>meeting approved bylaw in 4th<br>permit year at the September<br>2006 Town Meeting. Approval of<br>this bylaw was subsequently<br>obtained by the State Attorney<br>General. |
|--------|---|---|---|---|---|
| 3 - 9  | Develop illicit discharge<br>and detection plan           | Plan is currently being<br>drafted.   | Coordination with the<br>Department of Public<br>Works, the Health<br>Department, and the<br>Conservation<br>Department is ongoing. | Final plan to be<br>completed<br>during the<br>coming year.     | Ongoing – Illicit Discharge<br>Detection & Elimination Plan is<br>being drafted.<br>The implementation of the<br>Vegetation Management Plan<br>will minimize pesticide<br>application to only approved<br>areas, limits pesticide application<br>in sensitive areas, and requires<br>that precautions be taken to limit<br>excess pesticide runoff and<br>discharge into our stormwater<br>system.  |
| 3 - 10 | Train DPW personnel to<br>recognize illicit<br>discharges | Train DPW / others in<br>next year (which is after<br>BMP 3-9 completed).                     | No activity scheduled<br>for this reporting<br>period.  | Hold training<br>sessions when<br>IDDE program<br>is completed. | <i>Ongoing</i> - training was<br>implemented for outfall<br>inspectors.<br>Additional training though<br>NMSC will be offered as an illicit<br>discharge and detection plan is<br>completed.  |

| 3 - 11 | Implement illicit<br>discharge detection plan | Plan will be<br>implemented once<br>completed. | 2012 - The online form<br>for reporting illicit<br>discharges was taken<br>down when the Town | 2013 NPDES<br>permit | <i>Ongoing -</i> Outfalls are visually<br>inspected yearly for<br>contaminated water flows and<br>sediment buildup. |
|--------|---|--|---|----------------------|---|
|--------|---|--|---|----------------------|---|

3a. Illicit Discharge Detection and Elimination Plan - additions

# 4. Construction Site Stormwater Runoff Control

| BMP<br>ID # | BMP Description  | Measurable<br>Goal   | Progress Toward<br>Achieving Goals  | Activities for<br>Next Reporting<br>Cycle | Comments, Notes, and/or<br>Summary of Results  |  |
|-------------|--|--|---|---|--|--|
| 4 - 1       | Collect and<br>summarize other<br>towns' sedimentation<br>and erosion control<br>bylaws                                  | Sample bylaws<br>collected, will be<br>put in file for<br>review.  | Other districts' bylaws were found and reviewed.  | None                                      | <i>Completed -</i> Extensive effort was<br>made to identify other districts'<br>bylaws as a model has been<br>completed. Review of these<br>bylaws has been completed.   |  |
| 4 - 2       | Summarize existing<br>bylaws and regs<br>within Burlington for<br>evaluating stormwater<br>impacts                       | Summary memo<br>to file<br>(completed in<br>1st year)  | Not completed   | None scheduled                            | Not continued - The MA State<br>Wetlands Protection Act and<br>Burlington's Bylaw Articles XIV<br>(Wetlands Protection) are the<br>main regulations that offer<br>evaluation of storm water<br>impacts. These regulations are<br>well known to Town residents.<br>An additional summary memo<br>would not provide any<br>significant additional value. |  |
| 4 - 3       | Conduct meetings<br>with various<br>stakeholders in Town<br>to obtain input<br>regarding erosion<br>bylaw implementation | Notes<br>summarizing<br>the results of<br>these meetings<br>(completed in<br>1st or 2nd year)<br>in the form of<br>minutes of<br>meeting taken<br>during Annual<br>SWMC meeting. | Discussions were held with<br>various stakeholders in<br>Town. Numerous public<br>meetings were held. | None                                      | Completed  |  |

| 4 - 4 | Develop<br>sedimentation and<br>erosion control bylaw<br>and obtain final<br>approval | Developed draft<br>bylaw and<br>brought to<br>Town Meeting<br>for approval | Draft erosion bylaw was<br>presented to Planning Board,<br>Board of Health,<br>Conservation Commission,<br>Board of Selectmen, and<br>Town Bylaw Review<br>Committee in public<br>meetings. Draft bylaw has<br>also been reviewed by Town<br>Counsel. Comments were<br>incorporated.<br>Presentation was made to<br>September 2006 Town<br>Meeting.<br>Procedures, standard<br>conditions and logistics were<br>developed during 2007 / 2008<br>permit year.<br>Bylaw is fully operational at<br>this time. | Development of<br>regulations to<br>support bylaw.<br>The<br>Sedimentation<br>and Erosion<br>Control Bylaw<br>should be<br>reviewed and<br>updated as<br>needed to<br>support the 2013<br>NPDES permit<br>requirements. | Completed - Comments by Town<br>Boards and Committees have<br>been incorporated. Meetings<br>and public hearings were held<br>with various Town Departments<br>to arrive at a consensus on<br>implementation logistics for a<br>new bylaw. Review by Town<br>Counsel was completed. Town<br>meeting approved bylaw in 4th<br>permit year at the September<br>2006 Town Meeting. Approval of<br>this bylaw was subsequently<br>obtained by the State Attorney<br>General.<br>Procedures, standard bmp<br>permit conditions and logistics<br>were developed during 2007 /<br>2008 permit year. Bylaw is fully<br>operational at this time.<br>Bylaw developed is relatively<br>unique in Commonwealth. It<br>features joint authority by<br>Planning Board and<br>Conservation Commission, and<br>levels of permit / enforcement<br>applicability based on size of<br>land disturbance area proposed. |
|-------|---|--|---|---|---|
| 4 - 5 | Develop site<br>inspection checklists to<br>support bylaw<br>implementation           | Draft checklists<br>completed in 5th<br>year                               | Checklist completed in this reporting period  | A database of site<br>inspections is<br>under<br>development.   | <i>Completed</i> – a site inspection<br>checklist is available to support<br>the implementation and<br>enforcement of sedimentation<br>and erosion control permits.   |

# 5. Post Construction Stormwater Management

| BMP<br>ID # | BMP Description   | Measurable Goal   | Progress Toward<br>Achieving Goals   | Activities for<br>Next Reporting<br>Cycle | Comments, Notes, and/or<br>Summary of Results   |
|-------------|---|---|--|---|---|
| 5 - 1       | Collect and summarize<br>other towns'<br>sedimentation and erosion<br>control bylaws for post<br>construction control                         | Sample bylaws<br>collected, will be put<br>in file for review.  | Other districts'<br>bylaws were found<br>and reviewed.   | None                                      | <i>Completed</i> - Extensive effort was<br>made to identify other districts'<br>bylaws as a model has been<br>completed. Review of these<br>bylaws has been completed.  |
| 5 - 2       | Summarize existing<br>bylaws and regulations<br>within Burlington for<br>evaluation of stormwater<br>impacts for post<br>construction control | Summary memo to<br>file (completed in 1st<br>year to be done with<br>BMP 4-2)   | Not completed  | None scheduled                            | <i>Not continued</i> - The MA State<br>Wetlands Protection Act and<br>Burlington's Bylaw Articles XIV<br>(Wetlands Protection) are the<br>main regulations that offer<br>evaluation of storm water<br>impacts. These regulations are<br>well known to Town residents.<br>An additional summary memo<br>would not provide any<br>significant additional value. |
| 5 - 3       | Conduct meetings with<br>various stakeholders in<br>Town to solicit input on<br>implementing bylaw for<br>post construction control           | Notes summarizing<br>the results of these<br>meetings (completed<br>in 1st or 2nd year) in<br>the form of minutes<br>of meeting taken<br>during Annual<br>SWMC meeting. | Discussions were<br>held with various<br>stakeholders in Town.<br>Numerous public<br>meetings were held. | None                                      | Completed   |

| 5 - 4 | control bylaw and obtain<br>final approval for post<br>construction control                               | Developed draft<br>bylaw and brought<br>to Town Meeting in<br>4th year for approval | Draft erosion bylaw<br>was presented to<br>Planning Board,<br>Board of Health,<br>Conservation<br>Commission, Board<br>of Selectmen, and<br>Town Bylaw Review<br>Committee in public<br>meetings. Draft<br>bylaw has also been<br>reviewed by Town<br>Counsel. Comments<br>were incorporated.<br>Presentation was<br>made to September<br>2006 Town Meeting.<br>Procedures, standard<br>conditions and<br>logistics were<br>developed during<br>2007 / 2008 permit<br>year.<br>Bylaw is fully<br>operational at this<br>time. | Development of<br>regulations to<br>support bylaw.            | Completed - Comments by Town<br>Boards and Committees have<br>been incorporated. Meetings<br>and public hearings were held<br>with various Town Departments<br>to arrive at a consensus on<br>implementation logistics for a<br>new bylaw. Review by Town<br>Counsel was completed. Town<br>meeting approved bylaw in 4th<br>permit year at the September<br>2006 Town Meeting. Approval of<br>this bylaw was subsequently<br>obtained by the State Attorney<br>General.<br>Procedures, standard bmp<br>permit conditions and logistics<br>were developed during 2007 /<br>2008 permit year. Bylaw is fully<br>operational at this time.<br>Bylaw developed is relatively<br>unique in Commonwealth. It<br>features joint authority by<br>Planning Board and<br>Conservation Commission, and<br>levels of permit / enforcement<br>applicability based on size of<br>land disturbance area proposed. |
|-------|---|---|---|---|---|
| 5 - 5 | Develop site inspection<br>checklists to support<br>bylaw implementation for<br>post construction control | Draft checklists<br>completed in 5th<br>year  | Checklist completed<br>in this reporting<br>period  | A database of site<br>inspections is<br>under<br>development. | <i>Completed</i> – a site inspection<br>checklist is available to support<br>the implementation and<br>enforcement of sedimentation<br>and erosion control permits.   |

# 6. Pollution Prevention and Good Housekeeping

| BMP<br>ID # | BMP Description  | Measurable<br>Goal  | Progress Toward<br>Achieving Goals                                | Activities for<br>Next Reporting<br>Cycle  | Comments, Notes, and/or<br>Summary of Results   |
|-------------|--|---|---|--|---|
| 6 - 1       | Summarize existing<br>procedures within Burlington<br>for preventing pollution from<br>parks/open space, fleet,<br>storage yards, roads/parking<br>lots, and storm sewer<br>maintenance activities   | Summary memo<br>to file to be<br>completed.   | Work has begun to<br>identify and collect<br>existing procedures. | This information<br>needs to be<br>collected and<br>summarized. The<br>website was not<br>converted to the<br>new Town<br>website. | <i>Completed –</i> after interviewing<br>various town personnel, existing<br>written procedures were found<br>to be non-existent. However,<br>best practices were being<br>followed in many instances.  |
| 6 - 2       | Summarize existing Town of<br>Burlington programs for<br>preventing pollution<br>(including Recycling,<br>Hazardous Waste Collection,<br>mercury recycling, activities<br>of stream cleaning committee,<br>and stream cleaning<br>program) | Summary memo<br>to file.  | Work has begun to<br>assemble materials for<br>this activity.     | This information<br>needs to be<br>collected and<br>summarized. The<br>website was not<br>converted to the<br>new Town<br>website. | <i>Completed</i> - existing programs<br>were identified and found to be<br>documented in Annual Report<br>and reported to the public in<br>various public meeting forums of<br>the Conservation Commission<br>and Board of Health. No further<br>documentation is needed. |
| 6 - 3       | Develop and promulgate<br>procedures (as needed) for<br>controlling pollutant<br>discharges from the<br>maintenance of parks and<br>open space   | Procedures to be<br>developed in 5th<br>permit year<br>followed by<br>implementation            | Procedures were<br>developed                                      | This information<br>needs to be<br>collected and<br>summarized. The<br>website was not<br>converted to the<br>new Town<br>website. | <i>Completed –</i> Procedures were<br>drafted, reviewed, and finalized<br>based on input from all relevant<br>town departments. Procedures<br>were then published on<br>Burlington Storm Water web<br>page.   |
| 6 - 4       | Develop and promulgate<br>procedures (as needed) for<br>controlling pollutant<br>discharges from the<br>maintenance of vehicle fleet   | Procedures to be<br>developed in 5th<br>permit year<br>followed by<br>initial<br>implementation | Procedures were<br>developed                                      | This information<br>needs to be<br>collected and<br>summarized. The<br>website was not<br>converted to the<br>new Town<br>website. | <i>Completed –</i> Procedures were<br>drafted, reviewed, and finalized<br>based on input from all relevant<br>town departments. Procedures<br>were then published on<br>Burlington Storm Water web<br>page.   |

| 6 - 5 | Develop and promulgate<br>implement procedures (as<br>needed) for controlling<br>pollutant discharges from the<br>maintenance of storage yards     | Procedures to be<br>developed in 5th<br>permit year<br>followed by<br>initial<br>implementation | Procedures were<br>developed                                | This information<br>needs to be<br>collected and<br>summarized. The<br>website was not<br>converted to the<br>new Town<br>website. | <i>Completed –</i> Procedures were<br>drafted, reviewed, and finalized<br>based on input from all relevant<br>town departments. Procedures<br>were then published on<br>Burlington Storm Water web<br>page. |
|-------|--|---|---|--|---|
| 6 - 6 | Develop and promulgate<br>procedures (as needed) for<br>controlling pollutant<br>discharges from the<br>maintenance of streets and<br>parking lots | Procedures to be<br>developed in 5th<br>permit year<br>followed by<br>initial<br>implementation | Procedures were<br>developed                                | This information<br>needs to be<br>collected and<br>summarized. The<br>website was not<br>converted to the<br>new Town<br>website. | <i>Completed –</i> Procedures were<br>drafted, reviewed, and finalized<br>based on input from all relevant<br>town departments. Procedures<br>were then published on<br>Burlington Storm Water web<br>page. |
| 6 - 7 | Develop and promulgate<br>procedures (as needed) for<br>controlling pollutant<br>discharges from the<br>maintenance of storm sewer<br>system       | Procedures to be<br>developed in 5th<br>permit year<br>followed by<br>initial<br>implementation | Procedures were<br>developed                                | This information<br>needs to be<br>collected and<br>summarized. The<br>website was not<br>converted to the<br>new Town<br>website. | <i>Completed –</i> Procedures were<br>drafted, reviewed, and finalized<br>based on input from all relevant<br>town departments. Procedures<br>were then published on<br>Burlington Storm Water web<br>page. |
| 6 - 8 | Develop training materials<br>for controlling pollutant<br>discharges from operation<br>and maintenance activities by<br>town personnel            | Training<br>materials to be<br>drafted.   | No activity. Not<br>scheduled for this<br>reporting period. | Draft training<br>materials next<br>year   | <i>Ongoing -</i> Rescheduled for<br>completion next year. This may<br>be provided though our<br>membership in the Northern<br>Middlesex Stormwater<br>Collaborative.  |

| 6 - 9 | Finalize training materials<br>and implement training<br>sessions for controlling<br>pollutant discharges from<br>operation and maintenance<br>activities by town personnel | training sessions | No activity. Not<br>scheduled for this<br>reporting period. | for controlling<br>pollutant<br>discharges from<br>operation and<br>maintenance | <i>Ongoing -</i> Rescheduled for<br>completion in next year<br>This may be provided though<br>our membership in the Northern<br>Middlesex Stormwater<br>Collaborative. |

6a. Pollution Prevention & Good Housekeeping - additions

# 7. BMPs for Meeting TMDL

| BMP<br>ID # | BMP Description  | Measurable Goal   | Progress Toward<br>Achieving Goals   | Activities for<br>Next Reporting<br>Cycle  | Comments, Notes,<br>and/or Summary of<br>Results         |
|-------------|--|---|--|--|--|
| 7 - 1       | Continue street<br>sweeping program  | Priority to be given in both frequency<br>and priority to Butterfield Pond, Vine<br>Brook, Sandy Brook, and Long<br>Meadow Brook to reduce turbidity<br>(implemented in all permit years);<br>budget available for review | Ongoing  | Continue program   | <i>Ongoing</i> – will continue                           |
| 7 - 2       | Implement illicit<br>discharge & detection<br>plan   | Priority given to Long Meadow Brook<br>and Sandy Brook areas which are<br>impaired with pathogens and have<br>TMDLs (to be implemented in 5th<br>year). Records of activity to be placed<br>in program file               | On-line reporting<br>of illegal<br>dumping<br>activities through<br>web installed on<br>Stormwater Web<br>site | Initial activities<br>may include<br>sampling of<br>impaired waters<br>for coliform<br>bacteria.                                       | <i>Ongoing</i> - plan is not<br>finished.                |
| 7 - 3       | Implement Control<br>Measures 6-3 to 6-7 to<br>reduce pathogen load<br>and other pollutants<br>contributed by storm<br>sewers to Vine Brook,<br>Sandy Brook and<br>Long Meadow Brook.<br>(repeat from above) | Procedures drafted and implemented<br>in 5th year   | Procedures<br>drafted and<br>finalized   | None.  | Completed  |
| 7 - 4       | Develop surface<br>water sampling plan<br>(both source and in-<br>stream) for fecal<br>coliform on Vine<br>Brook, Sandy Brook,<br>and Long Meadow<br>Brook (impaired<br>streams)                             | Develop plan in next year to be<br>developed after EPA finalizes<br>regulations for next general permit.  | No activity.   | Plan for surface<br>water sampling of<br>impaired waters<br>for coliform<br>bacteria, will be<br>developed during<br>next permit year. | <i>Ongoing</i> – rescheduled<br>for completion next year |

| 7 - 5 | Implement surface<br>water sampling plan | Conduct sampling in next year | No activity | for conform | <i>Ongoing -</i> rescheduled for completion next year |
