## ADDENDUM

### To the Town of Danvers' submission of the NPDES Phase II Small MS4 General Permit Annual Report- May 1, 2014

In an error there was an omission within the Town's submission of its annual report in Section 7. BMPs for Meeting Total Maximum Daily Load (TMDL) Waste Load Allocations (WLA)

Please consider the following replacement of:

"NONE REQUIRE; NO TMDLs in Danvers"

with the following:

"The Town of Danvers' MS4 discharges to North Coastal Watershed which has an approved Final TMDL for pathogens. Because pathogens are likely to be found in the stormwater discharges from the Town's MS4 system, the Stormwater Management Program includes BMPs that address pathogen pollution prevention.

The Town of Danvers has implemented numerous efforts towards reducing pathogen WLA as reported in the above annual report.

To address the WLA for Illicit discharges to the storm drain and possible leaking sanitary sewer lines, the Town has implemented the following BMPs under the Illicit Discharge Detection and Elimination Minimum Control Measures:

- Update mapping of stormwater outfalls (BMP 3-2)
- Developed and implemented a plan to identify and remove illicit discharges, including sewer spot repairs (BMP 3-3)
- Continue to enforce inspection of sewer connection by-law (BMP 3-4)
- Implement employee educational program, which included training on detecting illicit discharges (BMP 3-5)
- Develop bylaw to apply MA SW Policy to entire Town, including illicit discharge bylaw (BMP 5-1)

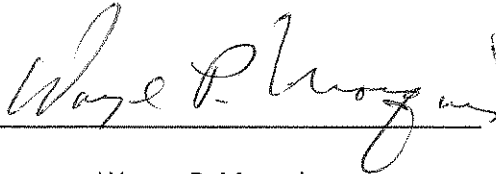

To address the WLA for stormwater runoff subject to Danvers' NPDES Phase II permit, the Town has implemented the following BMPs in the Stormwater Management Program:

- Continue to educate dog owners about picking up waste, including providing dog waste stations at 4 of the Town's parks (BMP 1-2)
- Distribute educational materials (BMP 1-5)
- Pet Waste News Splash (BMP 1-9)
- Carry In/ Carry Out Policy (BMP 1-10)
- Require waste management plan for each construction site (BMP 4-2)

- Street sweeping and Storm drain maintenance to prevent debris from entering waterbodies (BMPs 6-2 and 6-6)
- Good Housekeeping and Pollution Prevention Program draft was written for clarity of responsibilities and goals regarding. Numerous activities included to prevent pathogen pollution (BMP 6-9) “
