## **Addendum # 1**

### **1. Public Education and Outreach**

The Massachusetts Vocational Technical Curriculum Frameworks were reviewed during the summer of 2012. The Natural Resource Management and Environmental Science curriculum frameworks experienced drastic revision and improvement which will resulted in a more appropriate and rigorous frameworks. The Bristol County Agricultural High School Natural Resource Management (NRM) Department faculty has been diligently working to adjust their curriculum in order to achieve alignment with the draft (i.e., new) vocational curriculum frameworks. This curriculum alignment effort demanded considerable faculty time and effort which left less for cooperative projects, such as the Dighton Storm Water Mapping and Monitoring work.
