## Part II. Self-Assessment

The Town of Raynham, MA has completed the required self-assessment and has determined that our municipality is in compliance with all permit conditions except for the following provisions:

Section 1.1 Public Outreach –No classroom presentations made (no conservation agent to conduct them at this time)

Section 2.2 –Illicit Discharge Detection & Elimination By-law has not been accepted as a Town by-law as of this date. Budget cuts have eliminated the Town’s conservation agent position hampering efforts to move it forward. However, the Town has continued to enforce health regulations preventing illegal discharges to the Town’s stormwater system. 85% of the town’s residents are already sewered (and it’s headed toward 90% with the current phase).

## **Part IV. Summary of Information collected and Analyzed**

Town is now approximately 85% sewerred and many illegal connections that may have existed have been eliminated. No illegal connections were detected during this reporting period. Further expansion of the system is underway.

100% of catch basins have been stenciled; some have been re-stenciled.

All streets were swept of sand and salt at least once. Some of the Town's major arteries were swept twice.

Highway Department checked and maintained all (100%) of the detention/retention basins in Town thanks to a fund established in 1988. Developers pay a \$500 per lot fee into a perpetual maintenance account established for the purpose of maintaining stormwater structures in subdivisions.

High priority catch basins were cleaned during reporting period (311). These were checked for dry weather flows at the time of cleaning.

All construction sites were inspected for adequate erosion and sediment control, although the number of construction sites was still below normal levels. Only two large projects (greater than 1 acre) were constructed during time period

Annual Household Hazardous Waste Day was held at the Town's recycling and transfer station as usual. About 90 residents brought household hazardous waste to this event in June of 2014

There were no reports of illegal dumping/disposal into the Town's MS4 system.
