Date: 05/01/2018

Part II. Self-Assessment

The Town of Middleton has continued the implementation of Minimum Control Measures during years 15 to manage storm water and to reduce pollutants and contaminants associated with storm water. Highlights of the Town's implementation of Minimum Control Measures through the MS4 program include:

1. Public Education and Outreach

- Partnering with Greenscapes.org Massachusetts.
- Earth Day activities. Middleton held an Earth Day on April 30, 2017 and April 29, 2018.
- The Middleton Stream Team holds meetings monthly and has hosted events including:
 - The Fall Family Hike in November of 2017
 - The Winter Family Ice Hike in February 2018
 - The Spring Family Hike in April 2018. These field walks are designed to be educational and occurred in different parts of Middleton with different subject matter discussed, including various plant and animal life and vernal pool life. (a link to literature is available via a community calendar)
 - Various canoe landing cleanups in April and May of 2018 along the Ipswich River
- Videos and handouts available at the library.
- Stormwater links as well as other related links are provided at the conservation site.

2. Public Involvement and Education

- Household Hazardous Waste Day is held annually in the fall as a Tri-Town event.
- Transfer Station is open to residents for recycling and collection of tires/batteries/mercury/fluorescent bulbs year round.
- Mailings and information available at DPW and Conservation Agent office.

3. Illicit Discharge Detection and Elimination

- The town does not have a municipal sewer collection system. Screening and inspections of outfalls has not identified any illicit discharges.
- Screenings will continue this year.
- The Town has hired a vendor for GIS technology and hopes to be able to capture all drainage infrastructure by coordinates and have an electronic representation of stormwater soon. We have purchased a GPS data collector and have almost completed the process of collecting the data. Through September of 2017 all stormwater basins and manholes coordinates have been recorded.
- At the annual Town meeting in May of 2014, the town voted to approve a stormwater by-law and an illicit discharge by-law.

4. Construction Site Stormwater Runoff Control

- The Town currently implements the state regulations until the Town Bylaw is adopted. The draft Town Bylaw and regulations are based on MassDEP requirements listed in the Stormwater Handbook.
- The Conservation Agent, Building Dept., Health, Planning and DPW are responsible for monitoring runoff controls during

construction.

- Great efforts have been made with the writing of the Town's new Stormwater Bylaw and regulations.
- The Town has approved the Storm Water Bylaw and illicit by-law that was on the warrant for the Annual Town Meeting which was held on May 13, 2014.

5. Post-Construction Stormwater Management in New Development and Redevelopment

- The Conservation Agent, Building Dept., Health, Planning and DPW are responsible for monitoring BMP compliance post construction.
- The Town has prepared Stormwater Management Regulations which were approved at ATM (5/23/14) and includes post construction maintenance requirements.
- The Regulations includes provisions for easement access that permits town officials to inspect and clean stormwater facilities as needed and/or in the event of an emergency.
- A Land Disturbance Permit has been developed to coincide with the Stormwater Management Regulations.
- The Town has adopted a Stormwater Management Bylaw to address illicit discharges to the municipal storm drain system including enforcement protocol which went into effect on September 1, 2014.

6. Pollution Prevention and Good Housekeeping in Municipal Operations

- Catch basin cleaning budget has increased to allow all catch basins to be cleaned annually.
- Street sweeping activities has increased to 106 lane miles annually.
- Mosquito control programs continue.
- Catch basin stenciling continues.

7. The Town has developed a Stormwater Outfall Map

- The map currently has 98% of the outfalls plotted. Newer subdivision information and additional stormwater infrastructure will be added as needed.
- The map has been updated to include outfalls that discharge directly into water bodies.
- The map also has noted those outfalls that discharge into existing BMPs such as wet ponds and infiltration basins.
- The Town hired a vendor to install GIS software which will capture the stormwater infrastructure and formulate an electronic database and mapping system. This continues to be developed and expected to be delivered in 2018.

Activities planned for the Stormwater Management Program developed by the Town include:

- Stormwater Bylaws and Regulations will be presented to the Town at the Annual Town Meeting to be held on May 13, 2014. Public meetings, board presentations, and outreaches to gain support at Town Meeting have been held during the last year. The Bylaw has been approved at Town Meeting in May of 2014. We have been actively issuing stormwater permits with the required construction requests.
- Modifications to the stormwater map include the total number of outfalls leading to existing BMP's such as detention ponds and dry basins vs. older piped outfalls that discharge directly into waters.
- Use the stormwater map to coordinate documentation of the wet testing, dry screening and dry inspection results from outfall testing.
- Develop an outfall BMP self-assessment of the existing outfalls to discuss strategies for future BMP construction at untreated outfalls to coincide with capital improvement projects and repaving projects.
- Continue to test outfalls that flow directly to water bodies.
- Summer interns will be used to identify infrastructure electronically during the summer of 2015. Infrastructure has been identified and captured and we are now working on downloading the information into a user friendly application.
- Review the existing testing of untreated outfalls in Town that are owned and controlled by others as needed. The (MassDOT Route 114) outfalls that discharge into the Emerson Pond Reservoir, the Town assumes that the State is responsible for testing these outfalls.
- Prepare a strategy for local funding program to pay for the additional cost of improving, monitoring and maintaining the stormwater system to meet the MS-4 Final Permit Requirements.
- In the summer of 2015, review the final permit for the NCW and discuss strategy for meeting the final permit goals.
- Identify potential sources of fees to assist funding the stormwater program.
- Continued involvement with Stream Team; local contact Sandy Rubchinuk.
- Catch basin stenciling program.
- Catch basin, culvert and outfall screenings and inspections.
- Street sweeping and catch basin cleaning.
- Community Partnership with Greenscapes.org; local contact Pike Messenger.
- Participation in Earth Day activities; local contact Sandra Rubchinuck.
- Continue Mosquito Control Program.
- Continue Household Hazardous Waste Day.
- Transfer Station acceptance of oil, tires, batteries, fluorescent bulbs, and mercury products.

Part III. Summary of Minimum Control Measures

1. Public Education and Outreach

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 5-14 (Reliance on non-municipal partners indicated, if any)	Planned Activities year 15
1.1	Develop informational brochure on storm water program.	Conservation Agent/Town Planner	Provide and maintain copies at the library	EPA supplied brochures were distributed in the Town library including: - <i>After the Storm</i> - <i>Make Your Home the Solution to Stormwater Pollution</i> - <i>Water Efficient Landscaping</i> - <i>Door hanger: “Stormwater Pollution Found in Your Area”</i>	Maintain copies of the brochure(s) in the library at the new media center.
1.2	Add stormwater information and links to the Town’s website.	Webmaster	Complete by end of Year 1	Stormwater information is available on the Town’s website via the Conservation Commission. This includes a map showing Middleton’s MS4 area, links to EPA references for BMPs, and public education outreach materials.	Stormwater information on the Town’s website will be updated periodically. The DPW link will be updated to include a Stormwater information link.
1.3	Distribute informational brochure with annual recycling program mailing.	Conservation Agent/Town Planner	One mailing per year over the 5-year permit term	Town distributed copies of EPA supplied stormwater brochure with the water department Consumer Confidence Report (CCR) annual mailing by July 1 of each year. The Town is a community partner of Greenscapes.org which is handling inserts/flyers for CCRs and informational mailings for the Town. Greenscapes also uses email to contact residents.	Practice of distributing information will continue.
1.4	Broadcast Stormwater related information on local public access TV.	DPW/Public Health Director	Broadcasts on multiple days throughout the year.	EPA video “After the Storm-A Citizens Guide to Understanding Stormwater” was shown several times on Public Access TV.	Continue to show this, or related stormwater program(s) at the new media center in the library.

1a. Additions

15	Family Hikes sponsored by volunteer groups	Stream Team	Organize walks to educate the public on a variety of environmentally related topics	Stream Team sponsored events included family walks throughout the year.	Planned walks will continue next year.
1.6	Stormwater by-law / Illicit discharge by-law Program awareness	Conservation Agent/Town Planner/ DPW/Public Health Director/ Bldg. Inspector	Make developers, contractors, homeowners aware of the new by-laws		Public outreach through the website, community access tv, brochures, boards and committees..

2. Public Involvement and Participation

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 5-14 (Reliance on non-municipal partners indicated, if any)	Planned Activities year 15
2.1	Presentation at annual public meeting to describe and provide update on the Town's stormwater program and receive public input.	Board of Selectmen's Office	Three (3) public meetings during the 5-year permit term.	A presentation on stormwater issues was included in Town Meetings as part of the warrant article process. Made presentation at the Annual Town Meeting. Presentation of information led to a vote to pass a stormwater and illicit discharge by-law.	Outreach to inform the public of the new stormwater/illicit discharge by-laws.
2.2	Continue to hold annual household hazardous waste collection.	DPW	Household hazardous waste collection held once/year.	<u>10/28/17</u> 9 Full cars, 26 Half cars, 10 quarter cars. <u>11/12/16</u> 17 Full cars, 17 half cars, 9 quarter cars <u>11/12/15</u> 18 Full cars, 15 Half cars, 16 quarter cars. <u>11/08/14</u> 15 Full cars, 15 Half cars <u>11/13/13</u> 7 Full cars, 34 Half cars <u>11/13/12</u> 14 Full cars, 21 Half cars	Continue program. (Note: full car = truck full of paint per Clean Harbors)
2.3	Continue regular used oil, batteries, and tire collection program.	DPW	Used oil, batteries, and tires are received by the DPW on a year-round basis.(3 times per week)	Transfer station is open to receive materials on Wednesday, Saturday, and Sunday from 8:00 a.m. to 4:00 p.m. Town distributed copies of EPA supplied stormwater brochure with the water dept. CCR annual mailing by 7/1 each yr. Town is a community partner of Greenscapes.org which is handling inserts/flyers for CCR and informational mailing for Town. Greenscapes also emails residents directly.	Practice of distributing information will continue. DPW will continue to receive oil, tires and batteries on a year round basis.

2a. Additions

2.4	Catch basin stenciling	Conservation Agent/DPW	Stencil priority catch basins	Priority basins were stenciled by DPW summer staff in Summer 2006 and refreshed each year.	Continue program using DPW summer help or community service. Evaluate permanent marking options.
2.5	Continue regular lead exchange program, and fluorescent bulb recycling program.	DPW	Products containing lead, and fluorescent bulbs are received by the DPW on a year-round basis. <i>Mercury containing products are also received.</i>	Transfer station is open to receive materials on Wednesday, Saturday, and Sunday from 8:00 a.m. to 4:00 p.m. <u>2017</u> 12 feet fluorescent bulbs 0 thermometers 0 thermostats <u>2016</u> 15 feet fluorescent bulbs 0 thermometers 1 thermostats <u>2015</u> 29 feet fluorescent bulbs 1 thermometers 0 thermostats <u>2014</u> 42 feet fluorescent bulbs 2 thermometers 4 thermostats	Continue program. Products containing lead, mercury, and florescent bulbs are received by the DPW on a year round basis with the help Covanta.
2.6	Stream Team Cleanup	DPW/Stream Team	Partner with Stream Team and assist with coordinating activities.	Continued partnership and assisted with River, Brook, Pond and Canoe Landing cleanups. Continue with Family themed hikes for educational purposes.	Continue program.
Revised					

3. Illicit Discharge Detection and Elimination

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 5-14 (Reliance on non-municipal partners indicated, if any)	Planned Activities year 15
3.1	Continue mapping stormwater outfalls and receiving waters.	DPW	Complete mapping and updating	Mapping was completed in 2009 and this BMP is 99% complete. New subdivisions information from record drawings will be added to the stormwater map.	The Town will continue the process of preparing an electronic map which includes coordinates.
3.2	Visually inspect outfalls for dry weather flow.	DPW	Year 2 through 5: inspect 25% of outfalls per year.	Visual inspection of outfalls was completed. To date, there is no evidence of illicit connections.	Program for continued inspection of outfalls for dry weather flow and during wet weather flow to be developed.
3.3	Develop system for detection and elimination of illicit discharges.	DPW	Implement system by the end of Year 1.	No evidence of illicit connections observed. There is only 1 private sewer system serving 25 homes.	Based on the results of BMP 3.2, a system for detection and elimination of illicit discharges will be developed and implemented, if necessary, based on outfall inspection results. New Illicit by-law was passed in 5/14.
3.4	Update Town Bylaws and Regulations to include stormwater ordinances.	Conservation Agent/Public Health Director	Year 2: Review existing Bylaws & Regulations; Year 3: propose changes; Year 4: Implement changes (if approved)	A bylaw has been prepared by the Town and is being reviewed with the help of MAPC through a grant.	Present Bylaws and Regulations at Annual Town Meeting to be held on May 13, 2014. By-laws were passed and are now in effect.

3a. Additions

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 5-14 (Reliance on non-municipal partners indicated, if any)	Planned Activities year 15
3.5	Catalog outfalls discharging into Category 5 impaired waters or discharges in Zone A & B Water Supply Protection areas.				Based on the information mapped the TMDL effected waters are: Ref. MA92-06_2008 Ipswich River (Cat. %) w/12 outfalls. 8 w/BMP's Ref. MA92-06_2008 Unnamed Tributary (Cat. %) w/8 outfalls. 4 w/BMP's <i>Zone A & B</i> <i>Water Supply Protection Areas:</i> MA92021_2008 Emerson Brook Reservoir w/5 outfalls. 3 w/BMP's MA92039_2008 Middleton Pond w/3 outfalls. 2 w/BMP's.
3.6	Test outfalls to Category 5 impaired waters and Zone A & B Water Supply Protection areas				Testing to continue this year.

4. Construction Site Stormwater Runoff Control

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 5-14 (Reliance on non-municipal partners indicated, if any)	Planned Activities year 15
4.1	Develop an ordinance requiring developers to prepare an Erosion & Sedimentation Control Plan for all sites disturbing more than 1-acre. Require that the plan be reviewed and approved by the Planning Board.	Conservation Agent/Public Health Director	Year 2: Develop ordinance for ConCom and Planning Board approval. Years 3-5: Implement ordinance (if approved).	The Conservation Agent has developed draft bylaws, stormwater regulations, and land disturbance application.	Present to the Annual Town Meeting on May 13, 2014 for approval. This was presented and passed by the Town. These regulations are now in effect.
	<i>Refer to 4.2 BMP Description and Additions</i>				
4.2	Periodically check erosion control measures and construction material management with on-site inspections.	Conservation Agent/DPW/Town Planner/Building Inspector/Public Health Director	Monitor and track violations through reports to the ConCom and/or Planning Board.	Construction activity within the Town is monitored by the Conservation Agent on a regular basis. This includes site inspections to insure that erosion and sediment control BMPs are in place and being maintained.	This practice will continue.
d	<i>Use existing regulatory mechanisms (such as the Wetland Protection Act) to ensure stormwater BMPs are implemented during construction.</i>	<i>Conservation Agent/DPW/Town Planner/Building Inspector</i>	<i>Institute policy of Town review of contractor stormwater management plans for all proposed construction projects.</i>		
d					

4a. Additions

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 5-14	Planned Activities-Year 15
4.3	Construction Site Stormwater Runoff Control	Conservation Agent/Public Health Director	Public Outreach for adoption of bylaw	Continued work on the draft version of bylaw. Bylaw is 90% completed and working on final comments.	Present for approval at Annual Town Meeting on May 13, 2014. These regulations are now in effect.
4.4	Draft Conservation Commission Stormwater Management Regulation	Conservation Agent/Public Health Director	Completion of Stormwater Regulations.	Draft has been completed	Present for approval at Annual Town Meeting on May 13, 2014. These regulations are now in effect.
					Draft regulations include a Land Disturbance Permit Application to be filled out for new and redevelopment sites.

5. Post-Construction Stormwater Management in New Development and Redevelopment

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 5-14 (Reliance on non-municipal partners indicated, if any)	Planned Activities year 15
5.1	Develop an ordinance requiring stormwater controls for all new and redeveloped projects disturbing more than 1-acre.	Conservation Agent/Public Health Director	Develop ordinance for ConCom and Planning Board review and approval.	Adoption of new Bylaws is no longer required by MA DEP (ref: letter from DEP Bureau of Resource Protection dated 4/12/2004). The Conservation Agent has developed draft bylaws, stormwater regulations, and land disturbance application.	Present for approval at Annual Town Meeting on May 13, 2014. This was presented and subsequently passed by the Town. The process for permitting has been enacted.
Revised	<i>Use existing regulatory mechanisms (such as the Wetland Protection Act, and MA DEP Stormwater Policy) to ensure post-construction stormwater BMPs are implemented.</i>	<i>Conservation Agent/DPW/Public Health Director/Building Inspector</i>	<i>Institute policy of Town review of contractor stormwater management plans for all proposed construction projects. Stormwater Management Plan to include post-construction monitoring, inspection and maintenance.</i>		
5.2	Inspect and maintain the stormwater controls required under BMP 5.1.	DPW/Commercial Property Owners	Inspect and maintain stormwater controls annually.	Construction activity within the Town is monitored by the Conservation Agent on a regular basis. This includes site inspections to insure that post-construction stormwater management BMPs have been adequately installed and a BMP maintenance program is in place.	This practice will continue.
Revised					

6. Pollution Prevention and Good Housekeeping in Municipal Operations

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 5-14 (Reliance on non-municipal partners indicated, if any)	Planned Activities year 15
6.1	Street Sweeping	DPW	Sweep all streets annually and track volumes.	106 lane miles completed. 152 CY collected in 2017 168 CY collected in 2016 175 CY collected in 2015 210 CY collected in 2014 170 CY collected in 2013	Continue program.
Revised					
6.2	Catch basin cleaning	DPW	Clean all catch basins annually and track volumes.	Approximately 985 catch basins. Approx. 94 CY collected in 2017 Approx. 109 CY collected in 2016 Approx. 115 CY collected in 2015 Approx. 135 CY collected in 2014 Approx. 120 CY collected in 2013	Continue program.
Revised					
Revised				DPW cleaned all catch basins in from 2011- and 2017.	DPW budgeted to clean all catch basins in 2018.

7. BMPs for Meeting Total Maximum Daily Load (TMDL) Waste Load Allocations (WLA) <<if applicable>>

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 5-12 (Reliance on non-municipal partners indicated, if any)	Planned Activities year 13
	Refer to Sections 3.5 and 3.6	DPW			Test all discharges in Category 5 Impaired waters and Water Supply Protection Zones A and B.

7a. Additions

Part IV. Summary of Information Collected and Analyzed

Municipal storm drain system contains approximately 140 outfalls and 985 catch basins.

94 cubic yards (CY) removed from 985 catch basins in 2016.

109 cubic yards (CY) removed from 860 catch basins in 2016.

152 CY of street sweepings from 106 lane miles collected in 2017.

168 CY of street sweepings from 105 lane miles collected in 2016.

Hazardous Waste Collection day held annually.

Transfer Station accepts lead, fluorescent bulbs, oil, batteries, and mercury containing products year round. Three days a week.

Part V. Program Outputs & Accomplishments (OPTIONAL)

(Since beginning of permit coverage unless specified otherwise by a **, which indicates response is for period covering April 1, 2012 through March 31, 2013)

Programmatic

	(Preferred Units)	Response
Stormwater management position created/staffed (DPW Director)	(y/n)	Y
Annual program budget/expenditures **	(\$)	\$35,000
Total program expenditures since beginning of permit coverage	(\$)	
Funding mechanism(s) (General Fund, Enterprise, Utility, etc) (Operating Budget)		DPW

Education, Involvement, and Training

Estimated number of property owners reached by education program(s)	(# or %)	80%
Stormwater management committee established	(y/n)	Y
Stream teams established or supported	(# or y/n)	Y
Shoreline clean-up participation or quantity of shoreline miles cleaned **	(y/n or mi.)	Y
Shoreline cleaned since beginning of permit coverage	(mi.)	
Household Hazardous Waste Collection Days		
▪ days sponsored **	(#)	1 per year
▪ community participation **	(# or %)	45 cars
▪ material collected **	(tons or gal)	
School curricula implemented	(y/n)	Y

--	--	--
