

NOTICE OF INTENT

For Coverage Under the NPDES General Permit for Storm Water Discharges from Small Municipal Separate Storm Sewer Systems (MS4s)

A. Instructions

Important:
When filling out forms on the computer, use only the tab key to move your cursor - do not use the return key.

Submission of this Notice of Intent constitutes notice that the entity named at item B1. of this form intends to be authorized by the NPDES General Permit issued by EPA for storm water discharges from the small municipal separate storm sewer system (MS4), in the location identified at item B2. of this form. Submission of the Notice of Intent also constitutes notice that the party identified at item B1. has read, understands and meets the eligibility conditions of Part I.B. of the NPDES Small MS4 General Permit, agrees to comply with all applicable terms and conditions of the NPDES Small MS4 General Permit, and understands that continued authorization to discharge is contingent on maintaining eligibility for coverage. **In order to be granted coverage, all of the information required on this Notice of Intent form and the separate Storm Water Management Program (SWMP) Implementation Schedule form (Excel Spreadsheet), must be completed. Please read the permit and make sure you comply with all requirements, including the requirement to develop and implement a storm water management program.**

B. Applicant Information

1. Small MS4 Operator/Owner Information:

Carol A. Murray, Commissioner
NH Department of Transportation

1 Hazen Drive, PO Box 483

Mailing Address

Concord

City/Town

(603) 271-3734

Telephone Number

NH 03302-0483

State

State

County

Private

Other public entity:

Specify Public Entity

4. Other regulated MS4(s) within municipal boundaries:

Regulated MS4 Communities:

N/A

5. Based on the instructions provided in Part I of the NPDES Small MS4 General Permit, have the eligibility criteria for "listed species" and critical habitat been met?

yes

pending (See page 2)

no

JUL 30 2003

NOTICE OF INTENT

For Coverage Under the NPDES General Permit for Storm Water Discharges from Small Municipal Separate Storm Sewer Systems (MS4s)

The NH Department of Transportation will review discharges as they are identified during the illicit discharge and detection program, the storm water drainage inventory, and also during the design phase of project development as part of the environmental (NEPA) review. The annual report will include a summary of the discharges identified and the outcome of the Federally-listed species review. The State of NH currently has no Federally-listed critical habitat based on consultation with the US Fish and Wildlife Service, (New England Field Office). The US Fish and Wildlife Service and the National Marine Fisheries Service have noted the short nosed sturgeon and the dwarf wedge mussel as two species of concern. These species have not been identified in any of the NH regulated Small MS4 communities. As noted in the "Response to Comments", page 4, no further consultation is necessary relative to EFH, unless duly noted.

B. Applicant Information (cont.)

6. Based on the instructions provided in Part I of the NPDES Small MS4 General Permit, have the eligibility criteria for protection of historic properties been met?

yes pending (See below) no

The NH Department of Transportation will review discharges as they are identified during the illicit discharge and detection program, the storm water drainage inventory and also during the design phase of project development as part of the environmental (NEPA) review. The annual report will include a summary of the discharges identified and the outcome of the historic property review.

Note:
Section C may be duplicated to accommodate a larger list of receiving waters

C. Names of (Presently Known) Receiving Waters

| Receiving Water: | No. of Outfalls | Listed as Impaired? | Impairment |
|--------------------------|---------------------------------------|--|--|
| <u>See Below</u> Name | <u> </u> Number | <input type="checkbox"/> Yes <input type="checkbox"/> No | <u> </u> Specify |

The NH Department of Transportation cannot list the waterbodies that receive storm water discharges from NHDOT roadways within the regulated Small MS4 boundaries since the discharge locations have not been identified. The Department does not anticipate having a complete list until the end of this first permitting term, and possibly into the second permitting term, due to the vast amount of outfalls associated with all NHDOT-owned roadways within the 45 regulated Small MS4 communities. The annual report will include an up-to-date listing of waterbodies that receive storm water discharges, as the discharge locations are identified. As discharges are identified, they will be reviewed to determine if they discharge to a waterbody listed as impaired and/or with a TMDL. Evaluation of the receiving waters will reference the most current available data from the State TMDLs and 303(d) list.

NOTICE OF INTENT

For Coverage Under the NPDES General Permit for Storm Water Discharges from Small Municipal Separate Storm Sewer Systems (MS4s)

D. Storm Water Management Program Summary

1. Public Education: See attached "NPDES Phase II – Small MS4 Storm Water Management Plan Summary".
2. Public Participation: See attached "NPDES Phase II – Small MS4 Storm Water Management Plan Summary".
3. Illicit Discharge Detection and Elimination: See attached "NPDES Phase II – Small MS4 Storm Water Management Plan Summary".
4. Construction Site Runoff Control: See attached "NPDES Phase II – Small MS4 Storm Water Management Plan Summary".
5. Post Construction Runoff Control: See attached "NPDES Phase II – Small MS4 Storm Water Management Plan Summary".
6. Municipal Good House Keeping: See attached "NPDES Phase II – Small MS4 Storm Water Management Plan Summary".
7. BMPs for meeting requirements of Part I.C. (Discharges to Water Quality Impaired Waters) and Part I.D. (Total Maximum Daily Load Allocations):

NHDOT will include a review of discharges identified during new construction and redevelopment projects for discharges to water quality impaired waterways. A summary of discharges identified during each permit year will be included in the annual report.

E. Certification

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, I certify that the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

**NPDES Phase II - Small MS4
Storm Water Management Plan Summary**

| Responsible Bureau | Year 1 (2003) | Year 2 (2004) | Year 3 (2005) | Year 4 (2006) | Year 5 (2007) |
|--|------------------|------------------|------------------|------------------|------------------|
| MINIMUM CONTROL MEASURES #5: POST CONSTRUCTION RUNOFF CONTROL | | | | | |
| CURRENT PROGRAMS | | | | | |
| BMP #5A Routine Maintenance | | | | | |
| <ul style="list-style-type: none"> Continue current maintenance procedures (ex. culvert cleaning, street sweeping, etc) <p>Measurable Goal = Input data into the MATS system and provide a summary on quantity maintained.</p> | X | X | X | X | X |
| PROPOSED PROGRAMS | | | | | |
| BMP #5B Routine Maintenance | | | | | |
| <ul style="list-style-type: none"> Development and implementation of a BMP field manual to be utilized as a guide for maintenance and construction personnel. <p>Measurable Goal = Review existing NHDOT manuals, as well as other State Department's of Transportation manuals, and research the need to develop a durable pocket-sized field manual. Note research, findings and possible implementation of a new manual.</p> | | | X | X | X |

**NPDES Phase II - Small MS4
Storm Water Management Plan Summary**

| | Responsible Bureau | Year 1 (2003) | Year 2 (2004) | Year 3 (2005) | Year 4 (2006) | Year 5 (2007) |
|--|--|------------------|------------------|------------------|------------------|------------------|
| <p>BMP #5C Review Process</p> <ul style="list-style-type: none"> Develop an internal review process to evaluate the effectiveness of water quality BMPs once construction has been completed. <p>Measurable Goal = Establish an annual meeting to evaluate BMPs implemented on completed projects, evaluate their effectiveness and implement procedural changes as necessary. Document and follow-up as required.</p> | Bureaus of Highway Maintenance, Construction and Environment | | | X | X | X |
| <p>BMP #4E Project Design</p> <ul style="list-style-type: none"> Appropriate drainage will continue to be part of the transportation design phase. Review all projects currently in the design phase. Water quality improvements will be given great consideration. Measurable Goal = Meet at least annually with the Environmental Managers and Project Managers to discuss and document proposed projects as well as completed projects relative to water quality BMPs that will be or have been employed. Measurable Goal = Inventory installed BMPs. | Bureaus of Environment and Highway Design | X | X | X | X | X |

**NPDES Phase II - Small MS4
Storm Water Management Plan Summary**

| Responsible Bureau | Year 1 | Year 2 | Year 3 | Year 4 | Year 5 |
|--|--------|--------|--------|--------|--------|
| | (2003) | (2004) | (2005) | (2006) | (2007) |
| MINIMUM CONTROL MEASURES #6: POLLUTION PREVENTION/GOOD HOUSEKEEPING | | | | | |
| CURRENT PROGRAMS | | | | | |
| BMP #6A Environmental Management System (EMS - ISO 14001) | | | | | |
| <ul style="list-style-type: none"> Implement EMS Department wide. <p>Measurable Goal = Note the Bureaus that have implemented the program in addition to upcoming ones.</p> | | | | X | X |
| BMP #6B Maintenance Activities Tracking System (MATS) | | | | | |
| <ul style="list-style-type: none"> Implement MATS. <p>Measurable Goal = Identify storm water management components and note implementation date.</p> | X | X | | | |
| BMP #6C Roadside Litter Removal Program | | | | | |
| <ul style="list-style-type: none"> Removal of roadside litter by all NH Maintenance Districts and Turnpikes. <p>Measurable Goal = Summarize quantity of material removed by Department personnel.</p> | X | X | X | X | X |
| BMP #1D Sponsor A Highway | | | | | |
| <ul style="list-style-type: none"> Continue to support Sponsor A Highway program. <p>Measurable Goal = Quantity of roadside litter collected.</p> | X | X | X | X | X |

**NPDES Phase II - Small MS4
Storm Water Management Plan Summary**

| | Year 1 (2003) | Year 2 (2004) | Year 3 (2005) | Year 4 (2006) | Year 5 (2007) |
|--|------------------|------------------|------------------|------------------|------------------|
| BMP #6D Coastal Cleanup | | | | | |
| <ul style="list-style-type: none"> Continue to support the annual Coastal Cleanup Program. | X | X | X | X | X |
| Measurable Goal = Document the assistance provided. | | | | | |
| BMP #6E Waterbased Paints | | | | | |
| <ul style="list-style-type: none"> Continue the use of waterbased traffic paint. | X | X | X | X | X |
| Measurable Goal = Document the number of painted miles. | | | | | |
| Measurable Goal = Note disposal method of traffic paint. | | | | | |
| BMP #4E Project Design | | | | | |
| <ul style="list-style-type: none"> Appropriate drainage will continue to be part of the transportation design phase. Review all projects currently in the design phase. Water quality improvements will be given great consideration. | X | X | X | X | X |
| Measurable Goal = Meet at least annually with the Environmental Managers and Project Managers to discuss and document proposed projects as well as completed projects relative to water quality BMPs that will be or have been employed. | | | | | |
| Measurable Goal = Inventory installed BMPs | | | | | |
