Part II. Self-Assessment

The Town of Danville, NH has continued to meet the NPDES Phase II Small MS4 General Permit requirements during the 2011-2012 reporting period.

The Danville Highway Department has continued its work on the public education and outreach program by creating a dedicated "Stormwater Management" page on the Town's website, which is regularly updated for upcoming events. Several stormwater related flyers were published and distributed throughout the Town during Permit Year 9. The flyers are displayed with posters at Town functions and are included with the Town's tax bills that get mailed on a semiannual basis. Stormwater education materials are made available at the Town Hall and Public Library to advertise the Household Hazardous Waste (HHW) collection days. A stormwater education program for elementary school grades one through four was continued during the school year. The Town participated in the 8th annual roadside cleanup this year as part of the annual Earth Day weekend events.

Danville participated in the HHW collection day with five other local towns (Plaistow, Atkinson, Hampstead, Chester, and Kingston). Two local HHW collection days were held during Permit Year 9, both of which were open to Danville residents. All events were advertised in the newspaper, in flyers, on the Town Hall sign, and on the Town's website.

The Highway Department continued coordination efforts with local committees and Town departments to address Stormwater Management. The Highway Department regularly meets with the Selectmen and Budget Committee to provide an update on the progress of the Town's stormwater management program. A stormwater budget increase of \$2,000 originally obtained during Permit Year 8 was continued into Permit Year 9. The Planning Board approved a construction site stormwater and post-construction stormwater management ordinance in December 2010 to address construction site stormwater runoff. Coordination with the Town Selectmen is ongoing regarding approval of an IDDE ordinance.

The Town prepared a written Illicit Discharge Detection and Elimination Plan, which in part prioritizes IDDE activities and subwatershed areas, documents procedures to identify illicit discharges, and outlines how to remove an illicit discharge if found. The plan also documents illicit discharge activities performed to date.

The storm drain system mapping has been completed for the entire Town during previous permit years. All known catch basins, outlets and culverts were located via GPS and recorded on a GIS base map. 3 newly constructed culverts were added to the map during Permit Year 9. Outfalls were inspected for structural integrity and monitored for possible illicit discharges. Dry weather flows found at three outfalls were previously sampled for water quality parameters. Results were in line with normal background conditions indicating no obvious source of illicit discharge.

The Highway Department continued to follow up on developments (>1 acres) in the Town that are required to file their NOI's and regularly checks the EPA website for confirmation. All driveway permit applications were also reviewed.

The Town has implemented Standard Operating Procedures (SOPs) for catch basin, outfall and BMP maintenance and repair. The SOPs also include inspection and tracking procedures for Highway personnel to document findings. Winter SOPs including snow removal and sand & salt application were also implemented.

Part III. Summary of Minimum Control Measures

1. Public Education and Outreach

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Next Permit Term
1A Revised	Elementary School Education Program	Highway, Other Department Highway, Other Department and Consultant	Conduct annual activities for children.	Utilized the Elementary School classroom education program developed with the Town's consultant (CEI) during Permit Year 7. The program was designed for use during the students' "Water" unit, focusing on water quality and related stormwater impacts. The school used the materials to teach approximately 120 students in grades 1 & 2, and 150 students in grades 3 & 4. The Highway Department contacted the school was to see if new materials were required, however no replacement materials were needed.	Continue to utilize stormwater education curriculum and materials at the Elementary School for grades one through four, anticipated to occur during May 2012. Replace used books, beads, etc. with new materials as needed to continue the program. Incorporate additional stormwater education opportunities through other community service events such as participation in Household Hazardous Waste Collection and Earth Day events.
1B Revised	Attend Meetings	All Departments	Hold and attend town committee meetings.	The Stormwater Program was discussed at an annual Budget Committee meeting. The Highway Department met with Town Selectmen in the fall of 2011 and spring 2012 to discuss the program budget. Further budget discussions will occur. Selectmen meetings incorporated discussion on the ongoing Illicit Discharge ordinance under BMP 3D and good housekeeping measures under Minimum Measure 6.	Continue to meet with the Town Selectmen on the Illicit Discharge ordinance and work towards approval as outlined in BMP 3D. Continue to report the progress at these meetings and discuss the next steps for the program. Coordinate with other departments such as the Planning Board as needed. Retain the Town's consultant to address the Board of Selectmen on the illicit discharge ordinance.

1a. Additions

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Next Permit Term
1C Revised	General Education: Brochures, Flyers & Posters	Highway	Public distribution, # of brochures taken, # flyers mailed, and # places poster displayed.	The Highway Department provides flyers on proper disposal of hazardous waste, reducing stormwater pollution, pet waste disposal, and procedures for latex paint disposal. Flyers are made available in the Town Hall and public library. A flyer advertising the semi-annual Spring and Fall HHW events was sent home with schoolchildren to be given to parents. An additional 500 flyers were also included in the Spring and Fall 2011 tax bills. Approximately 219 and 136 flyers were distributed at the May and October 2011 HHW events, respectively. Three posters were displayed in the Town Hall and local market to advertise Earth Day event to take place on April 21 and 22. The Highway Department created an Earth Day display at the public library to advertise the 2011 event and provided bookmarks and flyers to residents. 20 tote bags are also provided to participants of the Earth Day clean up events. The Fire Department now receives used oil from residence during business hours for their waste oil burner. The used oil program is advertised on the Fire Department website and in a flyer that was mailed with the tax bill.	Continue as in past years to publish brochures, bookmarks and flyers. Continue to create posters to hang in public places advertising upcoming participation events such as the HHW and Earth Day events. Continue to create informational displays in public places. Track participation in events to determine effectiveness of the flyers.

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Next Permit Term
1D Revised	Post Information on Town Website	Highway, Web Committee	Increase hits to the website.	<p>Maintained and updated a dedicated “Stormwater Management” page on the Town website. The page provides information on upcoming participation programs, including the annual Earth Day roadside cleanup events and Household Hazardous Waste days. The website is periodically updated to include household participation in the previous HHW event and an advertisement regarding the next event. The site provides information on proper fertilizing, composting, and pesticides usage in residential settings. The site also addresses proper disposal of household wastes and pet waste to reduce potential pollution. Finally, the site invites residents to watch for potential illicit discharges and provides the Highway Department telephone number as contact information.</p>	<p>Continue to update the highway website with information on stormwater and other opportunities for community participation such as the HHW and Roadside Cleanup events.</p>

2. Public Involvement and Participation

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Next Permit Term
2A Revised	Develop News Articles	Highway, Other Department	Track number of articles and volunteers. Coordinate with BMPs 2C and 2D. Track number of articles and volunteers. Coordinate with BMPs 2C and 2D. Publish results/information on collection events.	One article was published to advertise the May 13, 2011 HHW event in Plaistow, and an article was published in the Chester newspaper with information on the October 29, 2011 HHW event in Chester. HHW events were also advertised on the sign outside the town hall. An article regarding stormwater, hazardous waste and Earth Day was published in the 2011 Town Report. A follow up article on Earth Day events was published on the Town's website. Finally, a news article regarding the roadside cleanup was published in April 2012.	Continue to publish news articles advertising HHW events and the Earth Day roadside cleanup. Work on developing additional news articles and track public involvement at events.
2B Revised	Meetings	All Departments	Meet within other Town departments. Set up meetings with other towns. Meet with other towns and organizations.	The Town coordinates with Plaistow, Atkinson, Chester, Hampstead and Kingston to plan the bi-annual Household Hazardous Waste events. Danville is currently scheduled to host Fall HHW event in 2014. The Highway Department also met with seniors on April 20, 2012 to discuss the upcoming HHW event and medicine disposal event. The Danville Police Department provided a drop-off location for expired medicine in October 2011 and April 28, 2012 for residents to safely dispose of old pills.	Meet with other towns to coordinate the Household Hazardous Waste days, as necessary. Hold the expired medication drop-off event in October 2012. Meet with senior citizens to educate on stormwater and waste disposal opportunities. Continue to look for opportunities to meet with organizations within the town to provide education opportunities.

2a. Additions

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Next Permit Term
2C Revised	Roadside Cleanups	Highway, Other Department	Annual cleanup held and amount of trash collected. Annual cleanup held. Record of amount of trash collected.	Roadside cleanups and cleanups of town properties were held on April 21 and 22, 2012 in coordination with Earth Day the following week. Prior to the event, 145 trash bags were distributed to residents for cleanup purposes at different places in town. Highway personnel met with 50 resident volunteers for trash bag pickup at the Town Hall parking lot on April 21. These residents collected 92 bags of trash, 3 tires, and 3 miscellaneous plastic and tin items. 20 volunteers were also given tote bags for help with trash pickup, as well as stormwater informational brochures as outlined in BMP 1C. Posters and a display were also created to advertise the events as outlined in BMP 1C. Also starting during Permit Year 9, residents may pick up a trash bag at any time at the Town Hall to fill with roadside trash. When the bag is full, the resident will call the Highway Department to collect it.	Continue roadside cleanups for Earth Day weekend. Distribute more information on Earth Day weekend at the Town Hall parking lot. Track resident participation.

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Next Permit Term
2D Revised	Household Hazardous Waste Collection Event	Highway, Other Department	Participate with other communities on semiannual collection and track resident participation. Participate with other communities on semiannual collection and track resident participation. Host HHW events.	Participated with the Towns of Plaistow, Atkinson, Hampstead, Chester, and Kingston in the semiannual Household Hazardous Waste events. Plaistow hosted the May 13, 2011 event while Chester hosted the October 29, 2011 event. Approximately 219 people attended the Spring 2011 event, 20 of which were Danville households resulting in a 9% participation rate. Approximately 136 people attended the Fall 2010 event, 16 of which were Danville households resulting in a 12% participation rate. Plaistow is hosting the upcoming May 2012 event and Kingston is hosting the October 2012 event. The Highway Department assisted at pickup events and collected survey forms to document participation. The Danville Highway Department also distributed flyers to all participants at both the May and October 2011 events as outlined in BMP 1C.	Continue to participate in both events, currently scheduled to be hosted by Plaistow and Kingston in May 2011 and October 2011, respectively. Track town resident participation and waste disposal quantities. Explore ways to increase participation such as additional advertising.
2E Revised	Catch Basin and Culvert Marking Program	Highway, Other Department	# volunteers, 25% marked each year. Number of catch basins marked by Town	The Highway Department has decided not to use volunteers and instead perform this task internally. All catch basins (26 total) and culverts have been stenciled with arrow pointing to them to easily locate structures when covered with water, snow, or debris.	Explore expanding stencils, such as labeling catch basins draining to surface waters as “No Dumping – Drains to Wetland”. Maintain and repaint faded stencils and mark new structures as constructed in the Town.

3. Illicit Discharge Detection and Elimination

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Next Permit Term
3A Revised	Map Culverts Map Culverts and Catch Basins	Highway and Consultant	Locate all culverts and drainage systems within the Urbanized Area (UA). Generate system base map. Locate all culverts and drainage systems. Generate system base map.	The Town hired an engineering firm (CEI) to GPS locate and map stormwater structures within Town boundaries. A base map detailing both Urbanized Areas and non-urban areas was created, showing the locations of all known culverts, catch basins and outfalls. A total of 76 outfalls have been located to date. CEI returned during Permit Year 9 and used GPS equipment on stormwater structures installed along 3 new roads. Three new culverts were added to the drainage map.	Continue to add additional drainage structures/outfalls as constructed in the Town.
3B Revised	Driveway Permits	Highway and Consultant	Update driveway permits. Update driveway permits and track number of permits.	Permits are required for the construction of a driveway onto a town right-of-way, particularly when a culvert must be constructed to accommodate street drainage. The Town received approximately 22 permit applications during the Year 9 reporting cycle. The Town reviewed all applications and performed inspections as needed.	Continue to update driveway permits to include additional stormwater information as necessary and outline maintenance needs.
3C Revised	Outfall Screening for Illicit Discharges	Highway	Locate and determine illicit discharges. # of outfalls screened, samples collected.	The Town hired an engineering firm (CEI) to evaluate stormwater outfalls during dry weather. 100% of the Town's drainage system was inspected as of the end of Permit Year 6. 4 dry weather flows were sampled and no illicit discharges were identified.	Continue to monitor and inspect outfalls and catch basins during routine inspections. If present, analyze dry weather flows from outfalls not previously sampled.

3a. Additions

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Next Permit Term
3D Revised	Develop an Illicit Discharge Prohibition Ordinance	All Town Departments and Consultant Town Selectmen, Highway Department, and Consultant	Ways to effectively prohibit discharges. Present ordinance at public meeting in 2009. Ordinance to effectively prohibit discharges.	The Highway Department and Town's consultant (CEI) prepared a draft IDDE ordinance during Permit Year 8. CEI and the Highway Department also met with the planning board twice and with the Town Selectmen once during Permit Year 8 to discuss the ordinance. Contact between the Highway Department, Selectmen, and CEI continued during Permit Year 9.	Contact between the Highway Department, Selectmen, and CEI is currently ongoing. Continue to meet with the Selectmen and seek final approval of the IDDE ordinance.
3E Revised	Develop an IDDE Plan Develop an IDDE Plan and inspection SOPs	Highway and Consultant	SOP in place by end of Permit Year 5.	The Town's consultant prepared a written IDDE plan during Permit Year 9. In part, the plan prioritizes IDDE activities and watershed areas, documents procedures to identify illicit discharges, and outlines how to remove an illicit discharge if found. The plan also documents illicit discharge activities performed to date. Highway staff was made aware of previously developed SOPs for catch basin and outfall inspection. SOPs were utilized during routine stormwater system inspection and maintenance activities.	Continue to monitor and inspect outfalls and catch basins. Utilize SOPs during all applicable Highway operations and record inspection events on log sheets. Update the IDDE plan as needed once the new Phase II permit is released.
3F Revised	Incorporate Illicit Discharge Information into Public Education BMPs	Highway	IDDE information in public education BMPs annually.	The Town reviewed results of past IDDE activities and reviewed ways to make this information available to the public. A map of the stormwater structures prepared under BMP 3A was left at the Town Hall for interested residents to review.	Evaluate additional options for incorporating IDDE results on the website or other public areas.

4. Construction Site Stormwater Runoff Control

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Next Permit Term
4A Revised	Ordinances	Planning, Town Engineer, and Consultant Planning Department, Highway Department, and Consultant	Ordinances to address construction issues. Ordinances to address construction site stormwater runoff.	The Planning Board enacted a construction site stormwater runoff control ordinance in December 2010 requiring construction projects to address construction site stormwater runoff. The ordinance is in effect and being enforced.	Continue to enforce the construction site stormwater runoff control ordinance approved during Permit Year 8.

4a. Additions

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Next Permit Term
4B Revised	Review of Construction Sites Review of Construction Sites and Driveway Permits	Highway, Building Inspector and Town Engineer	Enforce NOI's and need for NOI's.	Inspected previous construction sites and advised developers on what was needed to maintain erosion and sediment controls. Reviewed and inspected driveway permits in conjunction with BMP 3B. The Highway Department conducted inspections of individual house lot construction during routine operations. There were no new commercial or residential subdivision construction project starts during Permit Year 9.	Continue to be proactive in the inspection of developments that are required to file a NOI and enforce construction site runoff controls. As of April 2012, there are no large construction projects ongoing. A large commercial project is currently in the planning stages.

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Next Permit Term
4C Revised	Establish a Procedure for the Receipt of Information Submitted by the Public.	Highway and Planning	# calls received and record of follow-up actions.	Included contact information in select flyers, in the 2011 Town Report, and on the website in coordination with BMP 1D. Construction site issues are reported to the Highway Department and handled as needed. No calls or reports were received during Permit Year 9.	Continue to document any calls or complaints received.
4D Revised	Develop and Implement a Construction Site Inspection Program	Highway and Planning	Standardized form & record of inspections/follow-up actions.	As outlined under BMP 4B, there are no large ongoing construction projects. Due to the historic lack of large construction projects in town, the Highway Department will not develop a standardized inspection program. The department will continue to document all findings and address any deficiencies.	Document all construction findings.

5. Post-Construction Stormwater Management in New Development and Redevelopment

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Next Permit Term
5A Revised	Ordinances	Highway, Planning and Town Engineer Planning Department, Highway Department, and Consultant	Set up and create ordinances. Ordinance at Public Meeting in 2009. Ordinances to address post-construction stormwater management.	The Planning Board enacted a post-construction stormwater management ordinance in December 2010 requiring construction projects to address construction site stormwater runoff. The ordinance is in effect and being enforced.	Continue to enforce the -construction stormwater management ordinance approved during Permit Year 8.
5B Revised	Routine Maintenance	Highway	Maintain culverts and general maintenances. Records of inspections and maintenance.	Monitored culverts and catch basins for blockages, especially before and during heavy storm events. Inspections were performed to check for excess sediment accumulation and ensure proper function. Removed blockages and repaired washouts as needed.	Continue to check all catch basins and culverts, and maintain as needed. Follow SOPs for maintenance/repair of outfalls. Record activities and incorporate into Control Measure 6.

5a. Additions

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Next Permit Term
5C Revised	Subdivision Review	Highway, Town Engineer, Building Inspector	Developer's compliance, record of plan review.	No new subdivision construction starts were initiated during Permit Year 9.	Inspect developments to ensure all stormwater control measures are in place after construction. Encourage construction of BMPs that meet water quality criteria.

6. Pollution Prevention and Good Housekeeping in Municipal Operations

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Next Permit Term
6A Revised	Employee Training	Highway, Town Engineer and Consultant	Meet with all departments to establish what needs to be done. Record # of staff trained, types of training.	Reviewed existing training efforts for good housekeeping. Conducted a stormwater training session with Highway employees in October 2011 and during ongoing operations. Training also includes review of SOPs for catch basin, outfall and BMP maintenance and repair.	Continue to conduct training with Highway Department employees.

6a. Additions

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Next Permit Term
6B Revised	Clean Up Day	Highway, Forestry	Town roadways cleaned up from trash. Town roadways and forests cleaned of trash	The Highway Department held its 8 th Annual Town Wide Roadside Cleanup event on April 20 and 21, 2012 in conjunction with Earth Day the following week. Approximately 92 bags of trash, 3 tires, and 3 miscellaneous plastic and tin items were collected by volunteers.	Continue holding the annual Earth Day roadside cleanup. Publish newspaper articles advertising the event and discussing cleanup success.
6C Revised	Water Testing	Highway and Consultant	Water testing of drainage outfalls. Record # of samples collected and results.	Dry weather sampling was performed on three outfalls (four flows) and results were documented and recorded in a report prepared by the Town's consultant during Permit Year 6. None of the results violated water quality standards or indicated that an illicit discharge might be present.	Continue to monitor outfalls and perform testing if a suspect discharge is found. Respond to any illicit discharge complaints received by the Highway Department.

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Next Permit Term
6D Revised	Household Hazardous Waste Cleanup Days	Highway	Assist with bi-annual household hazardous waste drop-off days.	Participated with the Towns of Plaistow, Atkinson, Hampstead, Chester, and Kingston in the semiannual Household Hazardous Waste events. Plaistow hosted the May 13, 2011 event while Chester hosted the October 29, 2011 event. Approximately 219 people attended the Spring 2011 event, 20 of which were Danville households resulting in a 9% participation rate. Approximately 136 people attended the Fall 2010 event, 16 of which were Danville households resulting in a 12% participation rate. Plaistow is hosting the upcoming May 2012 event and Kingston is hosting the October 2012 event. The Highway Department assisted at pickup events and collected survey forms to document participation.	Continue to participate in both events, currently scheduled to be hosted by Plaistow and Kingston in May 2011 and October 2011, respectively. Track town resident participation and waste disposal quantities.
6E Revised	Evaluate Municipal Facilities and Develop Operations & Develop BMPs	Highway and Consultant	Inspection results and BMPs.	The Highway Department is in the process of adding funds to a capital reserve fund for construction of a new salt shed within indoor loading capabilities. A total of \$90,630 has been deposited towards a revised goal of \$180,000. The Town Hall, Police Department and Highway Garage parking areas were observed during rain events during Permit Year 7. An existing floor drain at the Fire Department garage was disconnected from the MS4 and connected to a 2,000-gallon tight tank.	Continue to add funds towards the construction of a new salt storage shed. Continue to inspect municipal facilities, particularly the highway garage, and address ways to reduce stormwater runoff. Evaluate improvements to the existing salt and sand storage areas in the highway yard. Develop BMPs to minimize existing or potential impacts to stormwater.

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Next Permit Term
6F Revised	Storm Drain System Operation and Maintenance Plan Storm Drain System SOPs and O&M Plan	Highway and Consultant	Storm Drain System O&M Plan. Standard Operating Procedures and O&M Plan.	Previously developed SOPs for catch basin, outfall and BMP maintenance & repair were used during Highway Department operations. Winter SOPs including snow removal and sand & salt application were also implemented and used.	Continue to utilize SOPs during all applicable Highway operations. Record inspection and maintenance activities.
6G Revised	SOP for Flood Projects	Highway and Consultant	Written review process, record of projects.	The Highway Department tracks roadway areas especially prone to flooding for inspection after heavy rainfall events. Roadway and shoulder areas that were impacted by excess stormwater were repaired.	Document any known flooding problems. Work on developing SOPs for fixing flood-prone roadway areas.
6H Revised	Sample Catch Basin Cleanings	Highway	Catch basin sediment sample.	The Town's consultant obtained a confirmatory composite sample of the Spring 2010 catch basin cleaning stockpile on June 18, 2010. The sample was evaluated for disposal and reuse options in compliance with NHDES Risk Characterization and Management Policy (RCMP) soil standards. The stockpile met all S-1 criteria for reuse without restriction. In compliance with NHDES regulations, annual testing of one representative composite sample for an initial period of 2 years has been completed. Sampling may now be performed every 3 years, with the next sample not requiring collection until 2013. The catch basin cleanings were reused along roadways to repair erosion areas in routine Highway Department operations. No work was performed during Permit Year 9.	No additional sampling is anticipated during Permit Year 10. Continue to reuse catch basin cleaning to repair eroded areas.

7. BMPs for Meeting Total Maximum Daily Load (TMDL) Waste Load Allocations (WLA) <<if applicable>>

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 9 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Next Permit Term
Revised	N/A				

7a. Additions

--	--	--	--	--	--

7b. WLA Assessment

The final 2010 303d list (list of impaired waters) outlines several waterbodies in Danville that are impaired due to mercury from atmospheric deposition, consistent with those outlined in the Town’s NOI. Total Maximum Daily Load (TMDL) Reports were issued for Acid Lakes in NH and Mercury in the Northeast Region in September and October 2007, respectively. These TMDLs do not specifically address waters in Danville and, in general, develop regional recommendations for pollutant sources that contribute to atmospheric deposition. However, the Mercury TMDL outlines that state regulatory controls will help to reduce mercury sources such as those contained in household products or wastes. The Town of Danville is currently addressing mercury sources in Town through the annual Household Hazardous Waste Collection events.

The 2010 303d list also lists two additional waterbodies classified as a Category 5, meaning waters in need of a TMDL. Bartlett Brook is listed as impaired for pH and Dissolved Oxygen while Cub Pond is listed as impaired for pH. Both Bartlett Brook and Cub Pond are classified as low priority for TMDL development, with TMDLs scheduled for 2021 and 2023, respectively.

Part IV. Summary of Information Collected and Analyzed

76 stormwater outfalls have been mapped via GPS coordinates. Structure locations were imported into a GIS base map to form a complete map depicting all outfalls, culverts and catch basins within Town limits.

All Town outfalls were also screened for potential illicit discharges. Flow was observed and field tested at three of the inspected outfalls. One outfall was fed by two flowing inlet pipes which were sampled separately. There were no observed unusual activities in the vicinity of the outfalls (i.e. vehicle washing, etc) or obvious sources of illicit discharges associated with any sampled outfall. Sources of dry weather flow are likely due to snow melt, high groundwater and perimeter yard drains. Laboratory tests of the samples for *E.coli*, ammonia, fluoride and chlorine did not indicate elevated concentrations at any outfall. Additional outfall inspections are ongoing; laboratory testing will be performed as needed.

The Town's consultant obtained a confirmatory sample of the Spring 2010 catch basin cleaning CBC stockpile on June 18, 2010. Approximately 12 grab samples of the approximately ½ cubic yard in size stockpile were taken to create a single composite sample. The sample was evaluated for disposal and reuse options in compliance with NHDES Risk Characterization and Management Policy (RCMP) soil standards. The stockpile met all S-1 criteria for reuse without restriction such that no special disposal or handling is required and these materials may be used where needed. In compliance with NHDES regulations, annual testing of one representative composite sample for an initial period of 2 years has been completed. Sampling may now be performed every 3 years, with the next sample not requiring collection until 2013.

Part V. Program Outputs & Accomplishments (OPTIONAL)

Programmatic

Stormwater management position created/staffed	(y/n)	N
Annual program budget/expenditures	(\$)	\$15,000

▪ CADD	(%)	-
▪ GIS	(%)	100%
Outfalls inspected/screened	(# or %)	100%
Illicit discharges identified	(#)	0
Illicit connections removed	(#)	N/A
% of population on sewer	(est. gpd)	
% of population on septic systems	(%)	0%
	(%)	100%

Construction

Number of construction starts (> 1-acre)	(#)	0
Estimated percentage of construction starts adequately regulated for erosion and sediment control	(%)	100%
Site inspections completed	(# or %)	0
Tickets/Stop work orders issued	(# or %)	0
Fines collected	(# and \$)	0
Complaints/concerns received from public	(#)	0

Post-Development Stormwater Management

Estimated percentage of development/redevelopment projects adequately regulated for post-construction stormwater control	(%)	100%
Site inspections (for proper BMP installation & operation) completed	(# or %)	0
BMP maintenance required through covenants, escrow, deed restrictions, etc.	(y/n)	N
Low-impact development (LID) practices permitted and encouraged	(y/n)	Y

Operations and Maintenance

Average frequency of catch basin cleaning (non-commercial/non-arterial streets)	(times/yr)	1
Average frequency of catch basin cleaning (commercial/arterial or other critical streets)	(times/yr)	1
Total number of structures cleaned	(#)	~26
Storm drain cleaned	(LF or mi.)	0
Qty. of screenings/debris removed from storm sewer infrastructure	(lbs. or tons)	N/A
Disposal or use of sweepings (landfill, POTW, compost, recycle for sand, beneficial use, etc.)		
Basin Cleaning Costs		
• Annual budget/expenditure (labor & equipment)	(\$)	
• Hourly or per basin contract rate	(\$/hr or \$ per basin)	
• Disposal cost	(\$)	
Cleaning Equipment		
• Clam shell truck(s) owned/leased	(#)	0
• Vacuum truck(s) owned/leased	(#)	0
• Vacuum trucks specified in contracts	(y/n)	N
• % Structures cleaned with clam shells	(%)	0%
• % Structures cleaned with vacor	(%)	0%
Average frequency of street sweeping (non-commercial/non-arterial streets)	(times/yr)	0
Average frequency of street sweeping (commercial/arterial or other critical streets)	(times/yr)	0
Qty. of sand/debris collected by sweeping	(lbs. or tons)	
Disposal of sweepings (landfill, POTW, compost, beneficial use, etc.)	(location)	
Annual Sweeping Costs		
• Annual budget/expenditure (labor & equipment)		
• Hourly or lane mile contract rate		
• Disposal cost		
Sweeping Equipment		
• Rotary brush street sweepers owned/leased		0
• Vacuum street sweepers purchased/leased		
• Vacuum street sweepers specified in contracts	(\$)	
• % Roads swept with rotary brush sweepers	(#)	
• % Roads swept with vacuum sweepers	(y/n)	

Reduction in application on public land of: ("N/A" = never used; "100%" = elimination)	
■ Fertilizers	(lbs. or %)
■ Herbicides	(lbs. or %)
■ Pesticides	(lbs. or %)
Integrated Pest Management (IPM) practices implemented	
Anti-/De-icing products and ratios	
	% NaCl
	% CaCl ₂
	% MgCl ₂
	% CMA
	% Kac
	% KCl
	% Sand
Pre-wetting techniques utilized	(y/n)
Manual control spreaders used	(y/n)
Zero-velocity spreaders used	(y/n)
Estimated net reduction or increase in typical year salt/chemical application rate	
Estimated net reduction or increase in typical year sand application rate	
% of salt/chemical pile(s) covered in storage shed(s)	
Storage shed(s) in design or under construction	(lbs. or %)
100% of salt/chemical pile(s) covered in storage shed(s) by 2010	(y/n)
*Monies are being placed into the Capital Reserve Account in preparation of building new storage facilities with ability to load inside of facility. A total of \$90,630 has been deposited towards a goal of \$180,000.	(y/n)
