NPDES PII Small MS4 General Permit Annual Report

Part I. General Information

Contact Person: Matt O'Keefe

Title: Director of Energy & Utilities

Telephone #: 603-862-1276

Email: matt.okeefe@unh.edu

Certification:

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Signature:

Printed Name: Matt O'Keefe

Title: Director of Energy & Utilities

Date: April 14, 2015

Part II. Self-Assessment

The University of New Hampshire has completed the required self-assessment and has determined to the best of our knowledge that our organization is in compliance with the various parts of our NPDES permit.

Part III. Summary of Minimum Control Measures

1) PUBLIC EDUCATION AND OUTREACH					
BM P ID	BMP	Responsible Person(s)	Measurable Goal(s)	Progress on Goal(s) – Permit Year 7 (Reliance on non-municipal partners indicated, if any)	Changes/Goals for Next Reporting Year
1	Production and Distribution of Informational Publications	M. O’Keefe	Distribution to Faculty and Student Population; Evaluation of Public Comments	In progress - see bulleted item(s) below.	Continue creating and distributing informational resources.
	<p>2015</p> <ul style="list-style-type: none"> The UNH Storm Water Management Plan brochure is distributed to new employees during the monthly UNH Human Resources – New Employee Orientation. Updated the UNH Storm Water Management website to ensure all links are current and active. <p>2014</p> <ul style="list-style-type: none"> The UNH Storm Water Management Plan brochure is distributed to new employees during the monthly UNH Human Resources – New Employee Orientation. Updated the UNH Storm Water Management website to ensure all links are current and active. <p>2013</p> <ul style="list-style-type: none"> The UNH Storm Water Management Plan brochure is distributed to new employees during the monthly UNH Human Resources – New Employee Orientation. BMP ID	BMP	Responsible Person(s)	Measurable Goal(s)	Progress on Goal(s) – Permit Year 7 (Reliance on non-municipal partners indicated, if any)	Changes/Goals for Next Reporting Year
6	Stenciling of Catch basins	M. O’Keefe	All CBs Stenciled	In progress - see bulleted item(s) below.	Review cost effectiveness of catch basin markers.
	<p>2015</p> <ul style="list-style-type: none"> Looking to other communities BMP’s to determine future practice of labeling. <p>2014</p> <ul style="list-style-type: none"> Conducted survey of catch basin markers to determine how many are missing due to snow plowing, vandalism, etc. Only 90 of 850 catch basins still have medallions. The marking program is being reviewed for cost effectiveness. <p>2013</p> <ul style="list-style-type: none"> There were no changes to report this year. <p>2012</p> <ul style="list-style-type: none"> There were no changes to report this year. <p>2011</p> <ul style="list-style-type: none"> There were no changes to report this year. <p>2010</p> <ul style="list-style-type: none"> There were no changes to report this year. <p>2009</p> <ul style="list-style-type: none"> There were no changes to report this year. <p>2008</p> <ul style="list-style-type: none"> Purchased and installed 207 permanent storm catch basin drain markers, indicating “No Dumping – Drains to Bay” from Almatek Industries. Summer 2007. Conducted field verification of the UNH Storm Water Sewer System Map for catch basin locations. New or inaccurately marked catch basins were noted and reported to the Facilities Geographical Information Systems division for correction. Summer 2007. <p>2007</p> <ul style="list-style-type: none"> Purchased and installed 250 permanent storm catch basin drain markers, indicating “No Dumping – Drains to Bay” from Almatek Industries in summer 2006. Conducted field verification of the UNH Storm Water Sewer System Map for catch basin locations. New or inaccurately marked catch basins were noted and reported to the Facilities Geographical Information Systems division for correction. Summer 2006. Interns in the Office of Environmental Health and Safety stenciled over 200 catch basins at UNH in summer 2006. <p>2006</p> <ul style="list-style-type: none"> Installed 500 permanent storm catch basin drain markers, indicating “No Dumping – Drains to Bay” from Almatek Industries. Installation completed over Summer 2005. Purchased 200 additional permanent storm catch basin drain markers, indicating “No Dumping – Drains to Bay” from Almatek Industries. Installation will begin in Summer 2005. Installed 180 of the additional permanent storm catch basin drain markers, indicating “No Dumping – Drains to Bay” from Almatek Industries. Installation completed over Summer 2005. Conducted field verification of the UNH Storm Water Sewer System Map for catch basin locations. New or inaccurately marked catch basins were noted and reported to the Facilities Geographical Information Systems division for correction. Summer 2005 				

3) ILLICIT DISCHARGE DETECTION AND ELIMINATION

BMP ID	BMP	Responsible Person(s)	Measurable Goal(s)	Progress on Goal(s) – Permit Year 7 (Reliance on non-municipal partners indicated, if any)	Changes/Goals for Next Reporting Year
7	Development of a Storm Sewer System Map	M. O’Keefe	Completion of Site Plan	In progress - see bulleted item(s) below.	Complete catchment ranking.
	<p>2015 UNH GIS updates the storm water dataset whenever a significant change has occurred on campus (i.e. the completion of a major construction project). If there are several major construction projects going on simultaneously, the system will be updated annually as soon as all projects have been completed. Most areas of campus remained unchanged. Catchments identification is complete and current.</p> <p>2014 UNH GIS updates the storm water dataset whenever a significant change has occurred on campus (i.e. the completion of a major construction project). If there are several major construction projects going on simultaneously, the system will be updated annually as soon as all projects have been completed. Most areas of campus remained unchanged. Catchments ranking is now well underway. UNH purchased a remote camera system and locating sonde to enhance stormwater pipe condition assessments and mapping.</p> <p>2013 UNH GIS updates the storm water dataset whenever a significant change has occurred on campus (i.e. the completion of a major construction project). If there are several major construction projects going on at simultaneously, the system will be updated annually as soon as all projects have been completed. Most areas of campus remained unchanged. Catchments are now being mapped and ranked as a new initiative.</p> <p>2012 UNH GIS updates the storm water dataset whenever a significant change has occurred on campus (i.e. the completion of a major construction project). If there are several major construction projects going on at simultaneously, the system will be updated annually as soon as all projects have been completed. Most areas of campus remained unchanged.</p> <p>2011 UNH GIS updates the storm water dataset whenever a significant change has occurred on campus (i.e. the completion of a major construction project). If there are several major construction projects going on at simultaneously, the system will be updated annually as soon as all projects have been completed. Most areas of campus remained unchanged.</p> <p>2010 UNH GIS updates the storm water dataset whenever a significant change has occurred on campus (i.e. the completion of a major construction project). If there are several major construction projects going on at simultaneously, the system will be updated annually as soon as all projects have been completed. Most areas of campus remained unchanged.</p> <p>2009</p> <ul style="list-style-type: none"> • UNH GIS updates the storm water dataset whenever a significant change has occurred on campus (i.e. the completion of a major construction project). If there are several major construction projects going on at simultaneously, the system will be updated annually as soon as all projects have been completed. • Most areas of campus remained unchanged. Areas that will need to be re-examined include James Hall and Main Street West. Once construction has been completed on these areas, the changes will be inventoried, mapped, and all GIS database systems will be updated appropriately. 				

3) ILLICIT DISCHARGE DETECTION AND ELIMINATION (continued)

BMP ID	BMP	Responsible Person(s)	Measurable Goal(s)	Progress on Goal(s) – Permit Year 7 (Reliance on non-municipal partners indicated, if any)	Changes/Goals for Next Reporting Year
8	Development of Policy Prohibiting Illicit Discharges	M. O'Keefe	Completion and Implementation of Policy	In progress - see bulleted item(s) below.	Review and update the Storm Water Illicit Discharge Procedures as needed (include Town of Durham Storm Water Ordinance if approved).
	<p>2015</p> <ul style="list-style-type: none"> • There were no changes to report this year. <p>2014</p> <ul style="list-style-type: none"> • There were no changes to report this year. <p>2013</p> <ul style="list-style-type: none"> • There were no changes to report this year. <p>2012</p> <ul style="list-style-type: none"> • There were no changes to report this year. <p>2011</p> <ul style="list-style-type: none"> • There were no changes to report this year. <p>2010</p> <ul style="list-style-type: none"> • There were no changes to report this year. <p>2009</p> <ul style="list-style-type: none"> • There were no changes to report this year. <p>2008</p> <ul style="list-style-type: none"> • The Town of Durham's Storm Water Ordinance was reviewed and approved by the Planning Board in February, and has more recently been cleared by the Town Attorney. The final version will be brought before the Town Council in May, 2008. <p>2007</p> <ul style="list-style-type: none"> • The Town of Durham's draft ordinance was recently reviewed by Stone Environmental Consulting (using a NHDES grant) to identify its relative effectiveness and redundancies with existing Town regulations and ordinances. The Town of Durham will be evaluating this information and is expected to revise the draft ordinance accordingly. To satisfy the Phase II regulations, the Town of Durham is preparing to adopt an ordinance before May 2008. <p>2006</p> <ul style="list-style-type: none"> • Contacted the Town Engineer regarding the status of the "Town of Durham Storm Water Ordinance" on August 12, 2005. The Town Engineer responded that the Ordinance is still going through Town Attorney review. <p>2005</p> <ul style="list-style-type: none"> • Re-evaluated and updated the UNH Storm Water Illicit Discharge Procedures on March 1, 2005. This document includes IDDE preparation, drainage system, investigation and summary of findings. • Contacted the Town Engineer regarding the status of the "Town of Durham Storm Water Ordinance" on March 8, 2005. The Town Engineer responded that the Ordinance is going through Town Attorney review and should be before the Town Council in June 2005. 				

3) ILLICIT DISCHARGE DETECTION AND ELIMINATION (continued)

BMP ID	BMP	Responsible Person(s)	Measurable Goal(s)	Progress on Goal(s) – Permit Year 7 (Reliance on non-municipal partners indicated, if any)	Changes/Goals for Next Reporting Year
9	Development and Implementation of an IDDE Plan	M. O’Keefe	Completion and Implementation of Plan	In progress - see bulleted item(s) below.	Storm water sewer system drainage will be further evaluated for illicit connections by dry weather, smoke or fluorescent dye testing as needed.
	<p>2015</p> <ul style="list-style-type: none"> Assessments for potential Illicit Discharges are ongoing; none were reported this year. <p>2014</p> <ul style="list-style-type: none"> Assessments for potential Illicit Discharges are ongoing; none were reported this year. <p>2013</p> <ul style="list-style-type: none"> Assessments for potential Illicit Discharges are ongoing; none were reported this year. <p>2012</p> <ul style="list-style-type: none"> Assessments for potential Illicit Discharges are ongoing; none were reported this year. <p>2011</p> <ul style="list-style-type: none"> Assessments for potential Illicit Discharges are ongoing; none were reported this year. <p>2010</p> <ul style="list-style-type: none"> Assessments for potential Illicit Discharges are ongoing; none were reported this year. <p>2009</p> <ul style="list-style-type: none"> Assessments for potential Illicit Discharges are ongoing; none were reported this year. <p>2008</p> <ul style="list-style-type: none"> Assessments for potential Illicit Discharges are ongoing; none were reported this year. <p>2007</p> <ul style="list-style-type: none"> UNH “Illicit Discharge Detection and Elimination (IDDE) Program: Preliminary Summary of Findings – Peripheral Campus” written by the UNH Facilities Information Technology GIS Division.
