

Stormwater permit
Gay Gillespie to: Thelma Murphy
Please respond to director

03/24/2010 11:38 AM

On behalf of the Westport River Watershed Alliance I am writing to convey our strong support for EPA's Municipal Storm Sewer General Permit, which requires towns to cut down on the amount of polluted rain water that flows through their storm drains and into our rivers and streams. I agree that it is essential that towns do more to educate their citizens on the dangers of polluted runoff and how they can help to reduce it. We have been actively working with the Town of Westport to reduce stormwater contributions to our river and projects to date have been successful. We need to do more and this EPA permit is a giant step in the right direction.
