Re: Notice of Intent for Coverage Under Small MS4 General Permit
Division of Capital Asset Management & Maintenance (DCAMM)
Various locations within Massachusetts

Dear Mr. Tedder,

The Division of Capital Asset Management & Maintenance (DCAMM) is filing the attached Notice of Intent (NOI) to apply for coverage under the General Permits for Stormwater Discharges from Small Municipal Separate Storm Sewer Systems in Massachusetts (small MS4). DCAMM is responsible for capital planning, public building construction, facilities management, and real estate services for the Commonwealth of Massachusetts. The agency manages several properties throughout the State. Historically, DCAMM obtained coverage under the 2003 small MS4 permit for several properties which are now vacant or were sold to other entities. Please advise if DCAMM is required to file a Notice of Termination for the previous permits, as the properties are not included in this NOI.

Many of the DCAMM currently owned and managed properties consist of a parcel of land, vacant campus properties or building(s), or are only a tenant occupied single building. The vacant properties have no population on a routine basis and are typically monitored by a security company and maintained by the DCAMM maintenance group. Other properties have populations less than 1,000 people daily, including employees and visitors. A full list of the DCAMM owned and/or managed properties is included in Attachment 1 of this letter. The attached list of properties details the following evaluations of each location:

- determination if property location is within an urbanized area as defined in the small MS4 permit;

- determination of DCAMM ownership of stormwater conveyance system associated with the property; and
- determination if population is less than 1,000 (i.e., qualify for a waiver under the small MS4) at the property including employees and visitors.

Based on the current inventory, DCAMM has determined that three properties owned by the agency are likely subject to the small MS4 permit. These include the following properties:

- Charles F. Hurley Building located at 19 Staniford Street, in Boston, Massachusetts;
- Massachusetts Information Technology Center (MITC) located at 200 Arlington Street in Chelsea, Massachusetts; and
- State House located at 24 Beacon Street, in Boston, Massachusetts.

The Office of Facilities Management and Maintenance, Operations & Technical Services located in Boston, Massachusetts oversees the implementation of the small MS4 permit at DCAMM properties. Since the properties are owned and/or operated by a single entity and are scattered in geographic locations, the NOI was prepared for DCAMM as an entity to seek coverage for those properties that should be regulated under the small MS4 permit. The annual reports filed during the small MS4 permit cycle will include the ownership inventory list of those properties to articulate to the USEPA which properties are exempt or regulated under the permit.

If you have questions concerning the enclosed materials, please contact Jeffrey Dill at (617) 727-4050 extension 31526 or Lori Anderson at (617) 727-4050 extension 31834 who manages the MS4 program for DCAMM.

Very truly yours,

DCAMM

 Jeffrey Dill
Director of Property Operations

☐ Check the box if your municipality or organization was covered under the 2003 MS4 General Permit

Notice of Intent (NOI) for coverage under Small MS4 General Permit

Part II: Summary of Receiving Waters

Please list the waterbody segments to which your MS4 discharges. For each waterbody segment, please report the number of outfalls discharging into it and, if applicable, any impairments.

Massachusetts list of impaired waters: https://www.mass.gov/files/documents/2016/08/sa/14list2_0.pdf

Waterbody segment that receives flow from the MS4	Number of outfalls into receiving water segment	Chloride	Chlorophyll-a	Dissolved Oxygen / DO Saturation	Nitrogen	Oil & Grease / PAH	Phosphorus	Solids / TSS/ Turbidity	E. coli	Enterococcus	Other pollutant(s) causing impairments
Hurley Building – City of Boston MS4 system on street which conveys to an outfall into Charles River [MA72-38]	3	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	DDT, PCBs
MITC – City of Chelsea MS4 system on street which conveys to an outfall into Mystic River [MA71-03]	3	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Ammonia, fecal coliform, PCBs
State House – City of Boston MS4 system on street which conveys to an outfall into Charles River [MA72-38]	3	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	DDT, PCBs

Notice of Intent (NOI) for coverage under Small MS4 General Permit

Part III: Stormwater Management Program Summary

Identify the Best Management Practices (BMPs) that will be employed to address each of the six Minimum Control Measures (MCMs).

For each MCM, list each existing or proposed BMP by category and provide a brief description, responsible parties/departments, measurable goals, and the year the BMP will be employed (public education and outreach BMPs also requires a target audience). **Use the drop-down menus in each table or enter your own text to override the drop-down menu.**

MCM 1: Public Education and Outreach

BMP Media / Category	BMP Description	Targeted Audience	Responsible Department/ Parties	Measurable Goal	Beginning Year of BMP Implementation
Special Events / Festivals / Fairs	Annual Big E event	Public	Stormwater Program Manager or designee	Number of brochures distributed	2020
Website	Stormwater management webpage on DCAMM website	DCAMM Employees and Contractors	Stormwater Program Manager or designee	Site page views data	2020
Website	DCAMM Standard Specifications for design/bid/build construction projects available online	Contractors	Stormwater Program Manager or designee	Site page views data	2019
Displays/Posters	Stormwater related topic posters in building entrances of MS4 regulated facilities	Tenants, Visitors, and DCAMM Employees	Stormwater Program Manager or designee	Updated materials	2019

Notice of Intent (NOI) for coverage under Small MS4 General Permit

Part III: Stormwater Management Program Summary (continued)

MCM 2: Public Involvement and Participation

BMP Categorization	BMP Description	Responsible Department/Parties	Additional Description / Measurable Goal	Beginning Year of BMP Implementation
Public Review	SWMP Review – Posted online for public view on DCAMM website	Stormwater Program Manager or designee	Allow annual review of stormwater management plan and posting of stormwater management plan on website	2019
Public Participation	Annual public meeting for public to complete a SWMP review and provide feedback	Stormwater Program Manager or designee	Allow public to comment on stormwater management plan annually	2019
Public Participation	Email helpline – reporting problems/violations	Stormwater Program Manager or designee	Website posting of contact information for public to reach out to DCAMM regarding stormwater issues / Number of inquiries received annually	2019

Notice of Intent (NOI) for coverage under Small MS4 General Permit

Part III: Stormwater Management Program Summary (continued)

MCM 3: Illicit Discharge Detection and Elimination (IDDE)

BMP Categorization	BMP Description	Responsible Department/Parties	Measurable Goal
SSO Inventory	This BMP does not apply to DCAMM. There are no SSOs on the regulated properties.	Not applicable	Not applicable
Storm sewer system map	Create map and update during IDDE program completion	Stormwater Program Manager or designee	Update map within 2 years of effective date of permit and complete full system map 10 years after effective date of permit
Written IDDE program development	Create written IDDE program	Stormwater Program Manager or designee	Complete within 1 year of the effective date of permit and update as required
Implement IDDE program	Implement catchment investigations according to program and permit conditions	Stormwater Program Manager or designee	Complete 10 years after effective date of permit
Employee training	Train employees on IDDE implementation	Stormwater Program Manager or designee	Train annually
Conduct dry weather screening	Conduct in accordance with outfall screening procedure and permit conditions	Stormwater Program Manager or designee	Complete 3 years after effective date of permit
Conduct wet weather screening	Conduct in accordance with outfall screening procedure	Stormwater Program Manager or designee	Complete 10 years after effective date of permit
Ongoing screening	Conduct dry weather and wet weather screening (as necessary)	Stormwater Program Manager or designee	Complete ongoing outfall screening on completion of IDDE program

Notice of Intent (NOI) for coverage under Small MS4 General Permit

Part III: Stormwater Management Program Summary (continued)

MCM 4: Construction Site Stormwater Runoff Control

BMP Categorization	BMP Description	Responsible Department/Parties	Measurable Goal
Site inspection and enforcement of Erosion and Sediment Control (ESC) measures	Complete written procedures of site inspections and enforcement procedures	Stormwater Program Manager or designee	Complete within 1 year of the effective date of permit
Site plan review	Complete written procedures of site plan review and begin implementation	Stormwater Program Manager or designee	Complete within 1 year of the effective date of permit
Erosion and sediment control	Adoption of requirements for construction operators to implement a sediment and erosion control program	Stormwater Program Manager or designee	Complete within 1 year of the effective date of permit
Waste control	Adoption of requirements to control wastes, including but not limited to, discarded building materials, concrete truck wash out, chemicals, litter, and sanitary wastes	Stormwater Program Manager or designee	Complete within 1 year of the effective date of permit

Notice of Intent (NOI) for coverage under Small MS4 General Permit

Part III: Stormwater Management Program Summary (continued)

MCM 5: Post-Construction Stormwater Management in New Development and Redevelopment

BMP Categorization	BMP Description	Responsible Department/Parties	Measurable Goal
As-built plans for on-site stormwater control	The procedures to require submission of as-built drawings and ensure long term operation and maintenance will be a part of the SWMP	Stormwater Program Manager or designee	Require submission of as-built plans for completed projects
Target properties to reduce impervious areas	Complete an inventory and priority ranking of permittee-owned property and existing infrastructure that could be retrofitted with BMPs designed to reduce the frequency, volume and pollutant loads of stormwater discharges to its MS4 through the mitigation of impervious area	Stormwater Program Manager or designee	Complete 4 years after effective date of permit and report annually on retrofitted properties
Allow green infrastructure	Develop a report assessing existing local regulations to determine the feasibility of making green infrastructure practices allowable when appropriate site conditions exist	Stormwater Program Manager or designee	Complete 4 years after effective date of permit and implement recommendations of report
Street design and parking lot guidelines	Develop a report assessing requirements that affect the creation of impervious cover. The assessment will help determine if changes to design standards for streets and parking lots can be modified to support low impact design options.	Stormwater Program Manager or designee	Complete 4 years after effective date of permit and implement recommendations of report
Ensure any stormwater controls or management practices for new development and redevelopment meet the retention or treatment requirements of the permit and all applicable requirements of the Massachusetts Stormwater Handbook	Adoption, amendment, or modification of a regulatory mechanism to meet permit requirements	Stormwater Program Manager or designee	Complete 2 years after effective date of permit

Notice of Intent (NOI) for coverage under Small MS4 General Permit

Part III: Stormwater Management Program Summary (continued)

MCM 6: Municipal Good Housekeeping and Pollution Prevention

BMP Categorization	BMP Description	Responsible Department/Parties	Measurable Goal	Beginning Year of BMP Implementation
O&M procedures	Create written O&M procedures including all requirements contained in 2.3.7.1 for parks and open spaces, buildings and facilities, and vehicles and equipment	Stormwater Program Manager or designee	Complete and implement 2 years after effective date of permit	2020
Inventory all permittee-owned parks and open spaces, buildings and facilities, and vehicles and equipment	Create inventory	Stormwater Program Manager or designee	Complete 2 years after effective date of permit and implement annually	2020
Infrastructure O&M	Establish and implement program for repair and rehabilitation of MS4 infrastructure	Stormwater Program Manager or designee	Complete 2 years after effective date of permit	2020
Stormwater Pollution Prevention Plan (SWPPP)	DCAMM does not have waste-handling facilities which are regulated under MS4.	Not applicable	Not applicable	Not applicable
Catch basin cleaning	Establish schedule for catch basin cleaning such that each catch basin is no more than 50% full and clean catch basins on that schedule	Stormwater Program Manager or designee	Clean catch basins on established schedule and report number of catch basins cleaned and volume of material moved annually	2019
Street Sweeping program	Sweep all streets and permittee-owned parking lots in accordance with permit conditions	Stormwater Program Manager or designee	Sweep all streets and permittee-owned parking lots once per year in the spring	2019

Notice of Intent (NOI) for coverage under Small MS4 General Permit

BMP Categorization	BMP Description	Responsible Department/Parties	Measurable Goal	Beginning Year of BMP Implementation
Road salt use optimization program	Establish and implement a program to minimize the use of road salt	Stormwater Program Manager or designee	Implement salt use optimization during deicing season	2019
Inspections and maintenance of stormwater treatment structures	Establish and implement inspection and maintenance procedures and frequencies	Stormwater Program Manager or designee	Inspect and maintain treatment structures at least annually	2019

Notice of Intent (NOI) for coverage under Small MS4 General Permit

Part III: Stormwater Management Program Summary (continued)

Actions for Meeting Total Maximum Daily Load (TMDL) Requirements

Use the drop-down menus to select the applicable TMDL, action description to meet the TMDL requirements, and the responsible department/parties. If no options are applicable, or more than one, enter your own text to override drop-down menus.

Applicable TMDL	Action Description	Responsible Department/Parties
Not applicable		

Notice of Intent (NOI) for coverage under Small MS4 General Permit

Part III: Stormwater Management Program Summary (continued)

Actions for Meeting Requirements Related to Water Quality Limited Waters

Use the drop-down menus to select the pollutant causing the water quality limitation and enter the waterbody ID(s) experiencing excursions above water quality standards for that pollutant. In addition, if you are subject to additional requirements due to a downstream nutrient impairment (see Part 2.2.2 of the permit) select the pollutant of concern and indicate applicable waterbody IDs or write "all waterbodies" if applicable. Choose the action description from the dropdown menu and indicate the responsible party. If no options are applicable, or more than one, enter your own text to override drop-down menus.

Pollutant	Waterbody ID(s)	Action Description	Responsible Department/Parties
Phosphorus	Charles River [MA72-38]	Adhere to requirements in Part II of Appendix H	Stormwater Program Manager or designee
E. Coli	Charles River [MA72-38]	Adhere to requirements in Part III of Appendix H	Stormwater Program Manager or designee
Chloride	Charles River [MA72-38]	Adhere to requirements in Part IV of Appendix H	Stormwater Program Manager or designee
Petroleum Hydrocarbons	Charles River [MA72-38]	Adhere to requirements in Part V of Appendix H	Stormwater Program Manager or designee
Oil & Grease	Mystic River [MA71-03]	Adhere to requirements in Part V of Appendix H	Stormwater Program Manager or designee

Notice of Intent (NOI) for coverage under Small MS4 General Permit

Part IV: Notes and additional information

Use the space below to indicate the part(s) of 2.2.1 and 2.2.2 that you have identified as not applicable to your MS4 because you do not discharge to the impaired water body or a tributary to an impaired water body due to nitrogen or phosphorus. Provide all supporting documentation below or attach additional documents if necessary.

Also, provide any additional information about your MS4 program below.

Notice of Intent (NOI) for coverage under Small MS4 General Permit

Part V: Certification

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I have no personal knowledge that the information submitted is other than true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Name: Jeffery Dill Title: Director of Property Operations

Signature:  for Jeffrey Dill Date: October 1, 2018
Deputy Commissioner
[To be signed according to Appendix B, Subparagraph B.11, Standard Conditions]

NOI Submission

Please submit the form electronically via email using the "Submit by Email" button below or send in a CD with your completed NOI. You may also print and submit via mail using the address below if you choose not to submit electronically. The outfall map required in Part I of the NOI (if applicable) can be submitted electronically as an email attachment OR as a paper copy.

Permittees that choose to submit their NOI electronically by email or by mailing a CD with the completed NOI form to EPA, will be able to download a partially filled Year 1 Annual Report at a later date from EPA.

Send an email with attachments to: stormwater.reports@epa.gov

Project Name: "The Big E" / Eastern States Exposition

September 20, 2018

Subject: List of threatened and endangered species that may occur in your proposed project location, and/or may be affected by your proposed project

To Whom It May Concern:

The enclosed species list identifies threatened, endangered, proposed and candidate species, as well as proposed and final designated critical habitat, that may occur within the boundary of your proposed project and/or may be affected by your proposed project. The species list fulfills the requirements of the U.S. Fish and Wildlife Service (Service) under section 7(c) of the Endangered Species Act (Act) of 1973, as amended (16 U.S.C. 1531 *et seq.*).

New information based on updated surveys, changes in the abundance and distribution of species, changed habitat conditions, or other factors could change this list. Please feel free to contact us if you need more current information or assistance regarding the potential impacts to federally proposed, listed, and candidate species and federally designated and proposed critical habitat. Please note that under 50 CFR 402.12(e) of the regulations implementing section 7 of the Act, the accuracy of this species list should be verified after 90 days. This verification can be completed formally or informally as desired. The Service recommends that verification be completed by visiting the ECOS-IPaC website at regular intervals during project planning and implementation for updates to species lists and information. An updated list may be requested through the ECOS-IPaC system by completing the same process used to receive the enclosed list.

The purpose of the Act is to provide a means whereby threatened and endangered species and the ecosystems upon which they depend may be conserved. Under sections 7(a)(1) and 7(a)(2) of the Act and its implementing regulations (50 CFR 402 *et seq.*), Federal agencies are required to utilize their authorities to carry out programs for the conservation of threatened and endangered species and to determine whether projects may affect threatened and endangered species and/or designated critical habitat.

A Biological Assessment is required for construction projects (or other undertakings having similar physical impacts) that are major Federal actions significantly affecting the quality of the human environment as defined in the National Environmental Policy Act (42 U.S.C. 4332(2)(c)). For projects other than major construction activities, the Service suggests that a biological evaluation similar to a Biological Assessment be prepared to determine whether the project may affect listed or proposed species and/or designated or proposed critical habitat. Recommended contents of a Biological Assessment are described at 50 CFR 402.12.

If a Federal agency determines, based on the Biological Assessment or biological evaluation, that listed species and/or designated critical habitat may be affected by the proposed project, the agency is required to consult with the Service pursuant to 50 CFR 402. In addition, the Service recommends that candidate species, proposed species and proposed critical habitat be addressed within the consultation. More information on the regulations and procedures for section 7 consultation, including the role of permit or license applicants, can be found in the "Endangered Species Consultation Handbook" at:

<http://www.fws.gov/endangered/esa-library/pdf/TOC-GLOS.PDF>

Please be aware that bald and golden eagles are protected under the Bald and Golden Eagle Protection Act (16 U.S.C. 668 *et seq.*), and projects affecting these species may require development of an eagle conservation plan (http://www.fws.gov/windenergy/eagle_guidance.html). Additionally, wind energy projects should follow the wind energy guidelines (<http://www.fws.gov/windenergy/>) for minimizing impacts to migratory birds and bats.

Guidance for minimizing impacts to migratory birds for projects including communications towers (e.g., cellular, digital television, radio, and emergency broadcast) can be found at: <http://www.fws.gov/migratorybirds/CurrentBirdIssues/Hazards/towers/towers.htm>; <http://www.towerkill.com>; and <http://www.fws.gov/migratorybirds/CurrentBirdIssues/Hazards/towers/comtow.html>.

We appreciate your concern for threatened and endangered species. The Service encourages Federal agencies to include conservation of threatened and endangered species into their project planning to further the purposes of the Act. Please include the Consultation Tracking Number in the header of this letter with any request for consultation or correspondence about your project that you submit to our office.

Attachment(s):

- Official Species List
-

Official Species List

This list is provided pursuant to Section 7 of the Endangered Species Act, and fulfills the requirement for Federal agencies to "request of the Secretary of the Interior information whether any species which is listed or proposed to be listed may be present in the area of a proposed action".

This species list is provided by:

New England Ecological Services Field Office

Project Name: “The Big E” / Eastern States Exposition

Project Type: ** OTHER **

Project Description: Division of Capital Asset Management & Maintenance (DCAMM) must apply for coverage under the new small MS4 stormwater permit. There are no projects planned under this permit and this evaluation is to complete the required ESA evaluation of project subject to permitting.

Project Location:

Approximate location of the project can be viewed in Google Maps: <https://www.google.com/maps/place/42.09015021569816N72.62144979910306W>

Counties: Hampden, MA

Endangered Species Act Species

There is a total of 1 threatened, endangered, or candidate species on this species list.

Species on this list should be considered in an effects analysis for your project and could include species that exist in another geographic area. For example, certain fish may appear on the species list because a project could affect downstream species.

IPaC does not display listed species or critical habitats under the sole jurisdiction of NOAA Fisheries¹, as USFWS does not have the authority to speak on behalf of NOAA and the Department of Commerce.

See the "Critical habitats" section below for those critical habitats that lie wholly or partially within your project area under this office's jurisdiction. Please contact the designated FWS office if you have questions.

-
1. [NOAA Fisheries](#), also known as the National Marine Fisheries Service (NMFS), is an office of the National Oceanic and Atmospheric Administration within the Department of Commerce.

September 18, 2018

Subject: List of threatened and endangered species that may occur in your proposed project location, and/or may be affected by your proposed project

To Whom It May Concern:

The enclosed species list identifies threatened, endangered, proposed and candidate species, as well as proposed and final designated critical habitat, that may occur within the boundary of your proposed project and/or may be affected by your proposed project. The species list fulfills the requirements of the U.S. Fish and Wildlife Service (Service) under section 7(c) of the Endangered Species Act (Act) of 1973, as amended (16 U.S.C. 1531 *et seq.*).

New information based on updated surveys, changes in the abundance and distribution of species, changed habitat conditions, or other factors could change this list. Please feel free to contact us if you need more current information or assistance regarding the potential impacts to federally proposed, listed, and candidate species and federally designated and proposed critical habitat. Please note that under 50 CFR 402.12(e) of the regulations implementing section 7 of the Act, the accuracy of this species list should be verified after 90 days. This verification can be completed formally or informally as desired. The Service recommends that verification be completed by visiting the ECOS-IPaC website at regular intervals during project planning and implementation for updates to species lists and information. An updated list may be requested through the ECOS-IPaC system by completing the same process used to receive the enclosed list.

The purpose of the Act is to provide a means whereby threatened and endangered species and the ecosystems upon which they depend may be conserved. Under sections 7(a)(1) and 7(a)(2) of the Act and its implementing regulations (50 CFR 402 *et seq.*), Federal agencies are required to utilize their authorities to carry out programs for the conservation of threatened and endangered species and to determine whether projects may affect threatened and endangered species and/or designated critical habitat.

A Biological Assessment is required for construction projects (or other undertakings having similar physical impacts) that are major Federal actions significantly affecting the quality of the human environment as defined in the National Environmental Policy Act (42 U.S.C. 4332(2)(c)). For projects other than major construction activities, the Service suggests that a biological evaluation similar to a Biological Assessment be prepared to determine whether the project may affect listed or proposed species and/or designated or proposed critical habitat. Recommended contents of a Biological Assessment are described at 50 CFR 402.12.

If a Federal agency determines, based on the Biological Assessment or biological evaluation, that listed species and/or designated critical habitat may be affected by the proposed project, the agency is required to consult with the Service pursuant to 50 CFR 402. In addition, the Service recommends that candidate species, proposed species and proposed critical habitat be addressed within the consultation. More information on the regulations and procedures for section 7 consultation, including the role of permit or license applicants, can be found in the "Endangered Species Consultation Handbook" at:

<http://www.fws.gov/endangered/esa-library/pdf/TOC-GLOS.PDF>

Please be aware that bald and golden eagles are protected under the Bald and Golden Eagle Protection Act (16 U.S.C. 668 *et seq.*), and projects affecting these species may require development of an eagle conservation plan (http://www.fws.gov/windenergy/eagle_guidance.html). Additionally, wind energy projects should follow the wind energy guidelines (<http://www.fws.gov/windenergy/>) for minimizing impacts to migratory birds and bats.

Guidance for minimizing impacts to migratory birds for projects including communications towers (e.g., cellular, digital television, radio, and emergency broadcast) can be found at: <http://www.fws.gov/migratorybirds/CurrentBirdIssues/Hazards/towers/towers.htm>; <http://www.towerkill.com>; and <http://www.fws.gov/migratorybirds/CurrentBirdIssues/Hazards/towers/comtow.html>.

We appreciate your concern for threatened and endangered species. The Service encourages Federal agencies to include conservation of threatened and endangered species into their project planning to further the purposes of the Act. Please include the Consultation Tracking Number in the header of this letter with any request for consultation or correspondence about your project that you submit to our office.

Endangered Species Act Species

There is a total of 0 threatened, endangered, or candidate species on this species list.

Species on this list should be considered in an effects analysis for your project and could include species that exist in another geographic area. For example, certain fish may appear on the species list because a project could affect downstream species.

IPaC does not display listed species or critical habitats under the sole jurisdiction of NOAA Fisheries¹, as USFWS does not have the authority to speak on behalf of NOAA and the Department of Commerce.

See the "Critical habitats" section below for those critical habitats that lie wholly or partially within your project area under this office's jurisdiction. Please contact the designated FWS office if you have questions.

220 MORRISSEY BOULEVARD
BOSTON, MASS. 02125
617-727-8470, FAX: 617-727-5128

PROJECT NOTIFICATION FORM

Project Name: Massachusetts State House – DCAMM Small MS4 Permit

Location / Address: 24 Beacon Street

City / Town: Boston, MA 02108

Project Proponent

Name: Division of Capital Asset Management & Maintenance (DCAMM)

Address: One Ashburton Place

City/Town/Zip/Telephone: Boston, Massachusetts 02108 (617) 727-4050

Agency license or funding for the project (list all licenses, permits, approvals, grants or other entitlements being sought from state and federal agencies).

Agency Name

Type of License or funding (specify)

United States Environmental Protection Agency (USEPA) Small MS4 Permit MAR042000

Project Description (narrative):

Division of Capital Asset Management & Maintenance (DCAMM) must apply for coverage under the new small MS4 stormwater permit for this property. There are no construction projects planned under this permit and this evaluation is to complete the required National Historical Preservation Act evaluation of facility subject to permitting.

Does the project include demolition? If so, specify nature of demolition and describe the building(s) which are proposed for demolition.

No demolition.

Does the project include rehabilitation of any existing buildings? If so, specify nature of rehabilitation and describe the building(s) which are proposed for rehabilitation.

No rehabilitation

Does the project include new construction? If so, describe (attach plans and elevations if necessary).

No new construction

950 CMR: OFFICE OF THE SECRETARY OF THE COMMONWEALTH

APPENDIX A (continued)

To the best of your knowledge, are any historic or archaeological properties known to exist within the project's area of potential impact? If so, specify.

The project is for stormwater permit coverage, no construction is anticipated for the permit coverage.

What is the total acreage of the project area?

Woodland	_____	acres	Productive Resources:	
Wetland	_____	acres	Agriculture	_____ acres
Floodplain	_____	acres	Forestry	_____ acres
Open space	_____	acres	Mining/Extraction	_____ acres
Developed	6	acres	Total Project Acreage	6 acres

What is the acreage of the proposed new construction? Not applicable acres

What is the present land use of the project area?

The subject property is the Massachusetts State Capitol Building and grounds. The property is used as the seat of government for the Commonwealth of Massachusetts, a place of business, a museum of art and history, and a site for public congregation.

Please attach a copy of the section of the USGS quadrangle map which clearly marks the project location.
