Part II: Self-Assessment

First, in the box below, select the impairment(s) and/or TMDL(s) that are applicable to your MS4. Make sure you are referring to the most recent EPA approved Section 303(d) Impaired Waters List which can be found here: https://www.epa.gov/tmdl/region-1-impaired-waters-and-303d-lists-state

Impairment(<u>(s)</u>			
	⊠ Bacteria/Pathogens	☐ Chloride	☐ Nitrogen	
	⊠ Solids/ Oil/ Grease (Hy	drocarbons)/ Metal	ls	
TMDL(s)				
In State:	☐ Assabet River Phospho	orus 🗵 Bacto	eria and Pathogen	☐ Cape Cod Nitrogen
	☐ Charles River Watersho	ed Phosphorus	Lake and Pon	d Phosphorus
Out of State:	☐ Bacteria/Pathogens	☐ Metals	☐ Nitrogen	☐ Phosphorus
				Clear Impairments and TMDLs
Year 2 Requi	dditional information will be rements leted Phase I of system map	-	sections.	
•	oped a written catchment inv		re and added the pro	acedure to the SWMP
	-	-	-	ngs and ensure the long term
	ion and maintenance of com			
⊠ Enclos	sed or covered storage piles	of salt or piles conta	aining salt used for o	deicing or other purposes
	oped written operations and es, and vehicles and equipm	-	-	
	oped an inventory of all perrngs and facilities, and vehicle		<u> </u>	
	leted a written program for M	MS4 infrastructure 1	maintenance to redu	ce the discharge of pollutants
operate	oped written SWPPPs, inclued facilities: maintenance gases where pollutants are expo	rages, public works		ng permittee owned or ions, and other waste handling

Optional: If you would like to describe progress made on any incomplete requirements listed above, provide any additional information, and/or if any of the above year 2 requirements could not be completed due to the impacts of COVID-19, please identify the requirement that could not be completed, any actions taken to attempt to complete the requirement, and reason the requirement could not be completed below:

Due to lack of staffing and COVID-19 impacts, some of the items listed above are incomplete at this time:
-Phase I system mapping efforts during the reporting period included stormwater BMPs and initial catchment delineations, but interconnections are still being mapped. The Town has a consultant under contract to finish

this mapping this Fall.

-Written O&M procedures for Facilities, Vehicles and Parks & Open Spaces are currently being developed. These procedures will be added to the SWPPP this year.

Annual Requirements

Provided an opportunity for pu with State Public Notice requir	ublic participation in review and implementation of SWMP and complied rements
⊠ Kept records relating to the pe	rmit available for 5 years and made available to the public
The SSO inventory has been u implemented	pdated, including the status of mitigation and corrective measures
This is not applical	ble because we do not have sanitary sewer
This is not applical	ole because we did not find any new SSOs
 The updated SSO i 	nventory is attached to the email submission
The updated SSO i	nventory can be found at the following website:
https://www.scitua	tema.gov/department-of-public-works/pages/ms-4-permit
Properly stored and disposed of receiving waters	of catch basin cleanings and street sweepings so they did not discharge to
□ Provided training to employee	s involved in IDDE program within the reporting period

Optional: If you would like to describe progress made on any incomplete requirements listed above, provide any additional information, and/or if any of the above annual requirements could not be completed due to the impacts of COVID-19, please identify the requirement that could not be completed, any actions taken to attempt to complete the requirement, and reason the requirement could not be completed below:

All curbed roadways were swept at least once within the reporting period

Updated outfall and interconnection inventory and priority ranking as needed

Due to lack of staffing and COVID-19 impacts, some of the items listed above are incomplete at this time. -Interconnections are being updated now with the completion of the Phase I Map

Bacteria/ **Pathogens** (Combination of Impaired Waters Requirements and TMDL Requirements as Applicable) Annual Requirements

Public Education and Outreach*

- Annual message was distributed encouraging the proper management of pet waste, including noting any existing ordinances where appropriate
- Permittee or its agents disseminated educational material to dog owners at the time of issuance or renewal of dog license, or other appropriate time
- Provided information to owners of septic systems about proper maintenance in any catchment that discharges to a water body impaired for bacteria
- * Public education messages can be combined with other public education requirements as applicable (see Appendix H and F for more information)

-	ould like to describe progress made on any incomplete requirements listed above or provide iils, please use the box below:
Phosphorus (Com	bination of Impaired Waters Requirements and TMDL Requirements as Applicable)
Annual Requiremen	<u>nts</u>
Public Educati	ion and Outreach*
grass clippin Distributed a	an annual message in the spring (April/May) encouraging the proper use and disposal of an annual message in the proper use of slow-release and phosphorus-free fertilizers an annual message in the summer (June/July) encouraging the proper management of pet ding noting any existing ordinances where appropriate
Distributed a of leaf litter	an annual message in the fall (August/September/October) encouraging the proper disposal
	tion messages can be combined with other public education requirements as applicable (see d F for more information)
Good Housekee	eping and Pollution Prevention for Permittee Owned Operations
	reet sweeping frequency of all municipal owned streets and parking lots subject to Permit iii.(c) to a minimum of two times per year (spring and fall)
Potential struct	tural BMPs
was tracked Appendix F.	ral BMPs already existing or installed in the regulated area by the permittee or its agents and the phosphorus removal by the BMP was estimated consistent with Attachment 3 to The BMP type, total area treated by the BMP, the design storage volume of the BMP and d phosphorus removed in mass per year by the BMP were documented.
\circ 7	The BMP information is attached to the email submission
\circ T	The BMP information can be found at the following website:
	As part of the rebuilding of a public parking lot, a stone filter swale was constructed to treat all stormwater generated in the bituminous paved parking lot.
	The BMP information is attached to the email submission The BMP information can be found at the following website: As part of the rebuilding of a public parking lot, a stone filter swale was constructed to treat

Optional: If you would like to describe progress made on any incomplete requirements listed above or provide any additional details, please use the box below:

Structural BMPs in the Old Oaken Bucket Pond watershed are being identified and tracked this year - there is 1 known BMP located in the Musquashcut Pond watershed.

Solids, Oil and Grease (Hydrocarbons), or Metals

Annual Requirements

Good Housekeeping and Pollution Prevention for Permittee Owned Operations

Increased street sweeping frequency of all municipal owned streets and parking lots to a schedule that targets areas with potential for high pollutant loads

Town of Scituate Page 5

Prioritized inspection and maintenance for catch basins to ensure that no sump shall be more than 50

✓ percent full; Cleaned catch basins more frequently if inspection and maintenance activities indicated excessive sediment or debris loadings

Optional: If you would like to describe progress made on any incomplete requirements listed above or provide any additional details, please use the box below:

The Town of Scituate increases street sweeping of the North Scituate commercial district. This district lies in the Bound Brook area.

Optional: Use the box below to provide any additional information you would like to share as part of your self-assessment:

Part III: Receiving Waters/Impaired Waters/TMDL

Have you made any changes to your lists of receiving waters, outfalls, or impairments since the NOI was submitted?

Yes

O No

If yes, describe below, including any relevant impairments or TMDLs:

We updated the list of impairments based on the final 2016 list of impaired waters for Massachusetts. The changes are summarized below.

MA94-07 Herring River

Added to the list: Enterococcus

Final list: Enterococcus, Fecal Coliform

MA94-09 South River

Added to the list: Enterococcus

Final list: Enterococcus, Fecal Coliform

MA94-25 First Herring Brook ID number changed to MA94-36

Final list: No impairments

Part IV: Minimum Control Measures

Please fill out all of the metrics below. If applicable, include in the description who completed the task if completed by a third party.

MCM1: Public Education
Number of educational messages completed during this reporting period: 6
Below, report on the educational messages completed during this reporting period. For the measurable goal(s) please describe the method/measures used to assess the overall effectiveness of the educational program. BMP:1.01 School Program: Stormwater and conservation messaging
Message Description and Distribution Method:
Annual school curriculum, programs, press release, and social media post. Program incorporates demonstrations with groundwater model, watershed model and cleaning dirty water taught to elementary school students and parent volunteers in school program
Targeted Audience: Residents
Responsible Department/Parties: North and South Rivers Watershed Association as part of the WaterSmart reg
Measurable Goal(s):
Due to the Covid-19 pandemic, the school program had to go virtual. Environmental Educator Brian Taylor created videos on the school program content that teachers used with their students. The teachers also had the Watershed Jeopardy game to play with the students. All of the teachers were also given a packet of supplemental materials to go with the program. A press release to went out to the town, The Globe, the Patriot Ledger, Wicked Local, and the Scituate Mariner. There were 535 views on the school program web page. The program was also posted on the NSRWA Facebook page with a reach of 884 people and 83 engagements. In a sample survey, 85% of the students and 80% of the parents reported having a greater understanding of where their water comes from AFTER the program, 85% of the students and 80% of the parents reported having a greater understanding of the importance of conserving water AFTER the program, and 80% of the students and parents reported having a greater understanding of how pollutants and runoff affect the quality of water AFTER the program.

MCM2: Public Participation
Describe the opportunity provided for public involvement in the development of the Stormwater Management Program (SWMP) during this reporting period:
A working group comprised of residents, design engineers, developers and regulators was created to discuss Stormwater regulations. The Stormwater Bylaw was updated and approved at the Annual Town Meeting in 2016.
Was this opportunity different than what was proposed in your NOI? Yes • No O
Describe any other public involvement or participation opportunities conducted during this reporting period . Due to Covid-19, the working group has not resumed discussions on the regulations.
MCM3: Illicit Discharge Detection and Elimination (IDDE)
Sanitary Sewer Overflows (SSOs)
Check off the box below if the statement is true. ☐ This SSO section is NOT applicable because we DO NOT have sanitary sewer
1 ms 550 section is 1101 applicable because we DO 1101 have samilarly sewer
Below, report on the number of SSOs identified in the MS4 system and removed during this reporting period.
Number of SSOs identified: 1
Number of SSOs removed: 1

MS4 System Mapping					
Below, check all that apply.					
The following elements of the Phase I map have been completed:					
☐ Outfalls and receiving waters					
Open channel conveyances					
☐ Interconnections					
Municipally-owned stormwater treatment structures					
Optional: Describe any additional progress you made on your map during this reporting period or provide additional status information regarding your map:					
-Phase I system mapping efforts during the reporting period included stormwater BMPs and initial catchment delineations, but interconnections are still being mapped. The Town has a consultant under contract to finish this mapping this Fall.					
Savaaning of Outfalls/Interconnections					
Screening of Outfalls/Interconnections If conducted, please submit any outfall monitoring results from this reporting period. Outfall monitoring					
results should include the date, outfall/interconnection identifier, location, weather conditions at time of					
sampling, precipitation in previous 48 hours, field screening parameter results, and results from all analyses.					
 The outfall screening data is attached to the email submission 					
The outfall screening data can be found at the following website:					
Below, report on the number of outfalls/interconnections screened during this reporting period. Number of outfalls screened: 0					
Catchment Investigations If any division this personnel of the dry and wat weather					
If conducted, please submit all data collected during this reporting period as part of the dry and wet weather investigations. Also include the presence or absence of System Vulnerability Factors for each catchment.					
The catchment investigation data is attached to the email submission					
The catchment investigation data can be found at the following website:					
The eatenment investigation data can be found at the following weester.					
Below, report on the number of catchment investigations completed during this reporting period.					
Number of catchment investigations completed this reporting period: 0					
Below, report on the percent of catchments investigated to date.					
Percent of total catchments investigated: 0					

IDDE Progress If illicit discharges were found, please submit a document describing work conducted over this reporting period, and cumulative to date, including location source; description of the discharge; method of discovery; date of discovery; and date of elimination, mitigation, or enforcement OR planned corrective measures and schedule of removal. The illicit discharge removal report is attached to the email submission The illicit discharge removal report can be found at the following website: Below, report on the number of illicit discharges identified and removed, along with the volume of sewage removed during this reporting period. Number of illicit discharges identified: 0 Number of illicit discharges removed: 0 Estimated volume of sewage removed: 0 Below, report on the total number of illicit discharges identified and removed to date. At a minimum, report on the number of illicit discharges identified and removed to date. At a minimum, report on the number of illicit discharges identified: 0 Total number of illicit discharges identified: 0 Total number of illicit discharges removed: 0 Optional: Provide any additional information for clarity regarding illicit discharges identified, removed, or planned to be removed below: Employee Training Describe the frequency and type of employee training conducted during the reporting period: Fuss and O'Neil provided training opportunities via Zoom during the Spring of 2020 due to Covid-19. Training included the development of O&M procedures for parks, public spaces, facilities and Vehicles.	Optional: Provide any additional information for clarity regarding the catchment investigations below:				
If illicit discharges were found, please submit a document describing work conducted over this reporting period, and cumulative to date, including location source; description of the discharge; method of discovery; and date of elimination, mitigation, or enforcement OR planned corrective measures and schedule of removal. Or The illicit discharge removal report is attached to the email submission Or The illicit discharge removal report can be found at the following website: Below, report on the number of illicit discharges identified and removed, along with the volume of sewage removed during this reporting period. MCM4: Construction Site Stormwater Runoff Control

Below, report on the construction site plan reviews, inspections, and enforcement actions completed during this reporting period.

Number of site plan reviews completed: 10
Number of inspections completed: 50
Number of enforcement actions taken: 4
Optional: Enter any additional information relevant to construction site plan reviews, inspections, and enforcement actions:
Some Projects required many inspections, enforcement and fines to correct the situations. Many inspections are also performed by Boards and Committees consulting Engineers
MCM5: Post-Construction Stormwater Management in New Development and Redevelopment
Ordinance or Regulatory Mechanism
Below, select the option that describes your ordinance or regulatory mechanism progress.
 Bylaw, ordinance, or regulations are updated and adopted consistent with permit requirements
Bylaw, ordinance, or regulations are updated consistent with permit requirements but are not yet adopted
O Bylaw, ordinance, or regulations have not been updated or adopted
As-built Drawings
Describe the measures the MS4 has utilized to require the submission of as-built drawings and ensure long term operation and maintenance of completed construction sites:
Following completion, Asbuilt plans are submitted and reviewed by the Planning Board and Conservation Commission for compliance with the approved plans.
Street Design and Parking Lots Report
Describe the status of the street design and parking lots assessment due in year 4 of the permit term, including any planned or completed changes to local regulations and guidelines:
No update at this time.

Green Infrastructure Report

Page 18

Town of Scituate	Page 19
Describe the status of the green infrastructure report due in year 4 of the permit term, in and progress towards making the practice allowable:	cluding the findings
No update at this time.	
Retrofit Properties Inventory	
Describe the status of the inventory, due in year 4 of the permit term, of permittee-owned be modified or retrofitted with BMPs to mitigate impervious areas and report on any promodified or retrofitted:	
No update at this time.	
MCM6: Good Housekeeping <u>Catch Basin Cleaning</u> Below, report on the number of catch basins inspected and cleaned, along with the total	volume of material
removed from the catch basins during this reporting period.	
Number of catch basins inspected: 2,000	
Number of catch basins cleaned: 2,000	
Total volume or mass of material removed from all catch basins:	tons
Below, report on the total number of catch basins in the MS4 system.	
Total number of catch basins: 2,500	
If applicable:	
Report on the actions taken if a catch basin sump is more than 50% full during two consinspections/cleaning events:	secutive routine

Following coastal overwash events roadways including Oceanside Drive, Surfside Road, Rebecca Road, Lighthouse Road and Central Avenue receive repeated cleanings of catch basins, drain lines and manholes. The majority of these events occur in the Fall ,Winter and Spring.

Street Sweeping

Report on street sweeping completed during this reporting period using one of the three metrics below.

Town of Scituate	Page 20					
• Number of miles cleaned: 70						
O Volume of material removed:	[Select Units]					
O Weight of material removed:	[Select Units]					
O&M Procedures and Inventory of Permitted Below, check all that apply. The following permittee-owned properties have	ve been inventoried:					
☐ Vehicles and equipment						
Number of site inspections completed: 0 Describe any corrective actions taken at a facility with a SWPPP:						
Additional Information Monitoring or Study Results Results from any other stormwater or receiving water quality monitoring or studies conducted during the						
	eve, where the data is being used to inform permit compliance or

Activities Planned for Next Reporting Period

Please confirm that your SWMP has been, or will be, updated to comply with all applicable permit requirements including but not limited to the year 3 requirements summarized below. (Note: impaired waters and TMDL requirements are not listed below)

Yes, I agree ⊠

- Inspect all outfalls/ interconnections (excluding Problem and Excluded outfalls) for the presence of dry weather flow
- Complete follow-up ranking as dry weather screening becomes available

Annual Requirements

- Annual report submitted and available to the public
- Annual opportunity for public participation in review and implementation of SWMP
- Keep records relating to the permit available for 5 years and make available to the public
- Properly store and dispose of catch basin cleanings and street sweepings so they do not discharge to receiving waters
- Annual training to employees involved in IDDE program
- Update inventory of all known locations where SSOs have discharged to the MS4
- Continue public education and outreach program
- Update outfall and interconnection inventory and priority ranking and include data collected in

connection with the dry weather screening and other relevant inspections conducted

- Implement IDDE program
- Review site plans of construction sites as part of the construction stormwater runoff control program
- Conduct site inspection of construction sites as necessary
- Inspect and maintain stormwater treatment structures
- Log catch basins cleaned or inspected
- Sweep all uncurbed streets at least annually
- Continue investigations of catchments associated with Problem Outfalls
- Review inventory of all permittee owned facilities in the categories of parks and open space, buildings and facilities, and vehicles and equipment; update if necessary

Provide any additional details on activities planned for permit year 3 below:					
All attempts and focus will be made to complete the outfall inspections this fall and early next year.					

Part V: Certification of Small MS4 Annual Report 2020

40 CFR 144.32(d) Certification

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, I certify that the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
