Part II: Self-Assessment

First, in the box below, select the impairment(s) and/or TMDL(s) that are applicable to your MS4. Make sure you are referring to the most recent EPA approved Section 303(d) Impaired Waters List which can be found here: https://www.epa.gov/tmdl/region-1-impaired-waters-and-303d-lists-state

Impairment(<u>(s)</u>			
	⊠ Bacteria/Pathogens	☐ Chloride		☐ Phosphorus
	☐ Solids/ Oil/ Grease (H	Hydrocarbons)/ Metal	ls	
TMDL(s)				
In State:	Assabet River Phosph	norus 🔲 Bact	eria and Pathogen	☐ Cape Cod Nitrogen
	☐ Charles River Waters	hed Phosphorus	☐ Lake and Pond	d Phosphorus
Out of State:	⊠ Bacteria/Pathogens	☐ Metals	☐ Nitrogen	☐ Phosphorus
			C	lear Impairments and TMDLs
Year 2 Requir	eted Phase I of system ma	pping		
Develo	= =	require the submissi mpleted construction	on of as-built drawin sites and added these	gs and ensure the long term e procedures to the SWMP
i faciliti Develo	oped written operations and es, and vehicles and equip- oped an inventory of all pengs and facilities, and vehicles	ment and added these rmittee owned facilit	e procedures to the S' ies in the categories	WMP of parks and open space,
⊠ Compl	eted a written program for	MS4 infrastructure	maintenance to reduc	ee the discharge of pollutants
⊠ operate	oped written SWPPPs, incled facilities: maintenance ges where pollutants are exp	garages, public works		ng permittee owned or ons, and other waste handling

Optional: If you would like to describe progress made on any incomplete requirements listed above, provide any additional information, and/or if any of the above year 2 requirements could not be completed due to the impacts of COVID-19, please identify the requirement that could not be completed, any actions taken to attempt to complete the requirement, and reason the requirement could not be completed below:

The Town was not able to complete all the Phase 1 Mapping. The Town intended to complete required updates using Highway Department staff, however due to COVID-19, resources had to be directed elsewhere. The Town plans to compete the mapping update by Spring 2021.

Annual	Req	uirements

Provided an opportunity for public participation in review and implementation of SWMP and complied with State Public Notice requirements
⊠ Kept records relating to the permit available for 5 years and made available to the public
The SSO inventory has been updated, including the status of mitigation and corrective measures implemented
 This is not applicable because we do not have sanitary sewer
 This is not applicable because we did not find any new SSOs
 The updated SSO inventory is attached to the email submission
The updated SSO inventory can be found at the following website:
Properly stored and disposed of catch basin cleanings and street sweepings so they did not discharge to receiving waters
□ Provided training to employees involved in IDDE program within the reporting period
☐ Updated outfall and interconnection inventory and priority ranking as needed

Optional: If you would like to describe progress made on any incomplete requirements listed above, provide any additional information, and/or if any of the above annual requirements could not be completed due to the impacts of COVID-19, please identify the requirement that could not be completed, any actions taken to attempt to complete the requirement, and reason the requirement could not be completed below:

The only opportunity for public participation in the past permit term was the availability of the SWMP on the Town website and at the Highway Department for review. Due to COVID-19, no in-person public participation clean-up events or other activities occurred. Because there were no meetings held during the reporting period, there was no need to comply with State Public Notice Requirements. In regard to the updated outfall/interconnection inventory and priority ranking: there are no known interconnections so these were not mapped; no new outfalls were identified, therefore the outfall inventory was not revised. Priority ranking of outfalls was completed as part of the IDDE plan preparation in Permit

Bacteria/ **Pathogens** (Combination of Impaired Waters Requirements and TMDL Requirements as Applicable) Annual Requirements

Public Education and Outreach* Annual message was distributed encouraging the proper management of pet waste, including noting any existing ordinances where appropriate Permittee or its agents disseminated educational material to dog owners at the time of issuance or renewal of dog license, or other appropriate time Provided information to owners of septic systems about proper maintenance in any catchment that discharges to a water body impaired for bacteria		
Permittee or its agents disseminated educational material to dog owners at the time of issuance or renewal of dog license, or other appropriate time	Pu	ublic Education and Outreach*
		Annual message was distributed encouraging the proper management of pet waste, including noting any existing ordinances where appropriate
Provided information to owners of septic systems about proper maintenance in any catchment that discharges to a water body impaired for bacteria		Permittee or its agents disseminated educational material to dog owners at the time of issuance or renewal of dog license, or other appropriate time
	\boxtimes	Provided information to owners of septic systems about proper maintenance in any catchment that discharges to a water body impaired for bacteria

^{*} Public education messages can be combined with other public education requirements as applicable (see Appendix H and F for more information)

Optional: If you would like to describe progress made on any incomplete requirements listed above or provide any additional details, please use the box below:

As reported in last year's Annual Report, educational brochures were previously available at Town Hall and addressed stormwater management including appropriate use and disposal of grass clippings/leaf litter and fertilizers as well as pet waste management. However, Town Hall was closed from March through early September due to COVID-19 so these were not available to the public. Instead, the Town is in the process of posting educational material on the Town website.

Nitrogen (Combination of Impaired Waters Requirements and TMDL Requirements as Applicable)

Annual Requirements
Public Education and Outreach*
Distributed an annual message in the spring (April/May) that encourages the proper use and disposal of grass clippings and encourages the proper use of slow-release fertilizers
Distributed an annual message in the summer (June/July) encouraging the proper management of pet waste, including noting any existing ordinances where appropriate
Distributed an annual message in the fall (August/September/October) encouraging the proper disposal of leaf litter
* Public education messages can be combined with other public education requirements as applicable (see Appendix H and F for more information)
Good Housekeeping and Pollution Prevention for Permittee Owned Operations
Increased street sweeping frequency of all municipal owned streets and parking lots subject to Permit part 2.3.7.a.iii.(c) to a minimum of two times per year (spring and fall)
Potential structural BMPs
Any structural BMPs listed in Table 3 of Attachment 1 to Appendix H already existing or installed in the regulated area by the permittee or its agents was tracked and the nitrogen removal by the BMP was estimated consistent with Attachment 1 to Appendix H. The BMP type, total area treated by the BMP, the design storage volume of the BMP and the estimated nitrogen removed in mass per year by the BMP were documented.
 The BMP information is attached to the email submission
○ The BMP information can be found at the following website:

Optional: If you would like to describe progress made on any incomplete requirements listed above or provide any additional details, please use the box below:

As reported in last year's Annual Report, educational brochures were previously available at Town Hall and addressed stormwater management including appropriate use and disposal of grass clippings/leaf litter and fertilizers as well as pet waste management. However, Town Hall was closed from March through early September due to COVID-19 so these were not available to the public. Instead, the Town is in the process of posting educational material on the Town website.

Optional: Use the box below to provide any additional information you would like to share as part of your self-assessment:

Road Sweeping: During the reporting period, roads within the MS4 regulated area were swept once/year and main roads were swept twice/year. Due to staff demand associated with COVID-19 issues, the Highway Department did not sweep roads draining to Mount Hope Bay, Cole River, and Lee River twice a year, however plans to increase sweeping frequency during permit year 3

Part III: Receiving Waters/Impaired Waters/TMDL

Have you made submitted?	any changes to your lists of receiving waters, outfalls, or impairments since the NOI was
\circ	Yes
•	No
If yes, describe	below, including any relevant impairments or TMDLs:

Part IV: Minimum Control Measures

Please fill out all of the metrics below. If applicable, include in the description who completed the task if completed by a third party.

MCM1: Public Education				
Number of educational messages completed during this reporting period:				
Below, report on the educational messages completed during this reporting period. For the measurable goal(s) please describe the method/measures used to assess the overall effectiveness of the educational program. BMP:[Message name here] Message Description and Distribution Method:				
Targeted Audience:				
Responsible Department/Parties:				
Measurable Goal(s):				
Message Date(s):				
Message Completed for: Appendix F Requirements ☐ Appendix H Requirements ☐				
Was this message different than what was proposed in your NOI? Yes ○ No ○				
If yes, describe why the change was made:				
Add an Educational Message				

MCM2: Public Participation

Describe the opportunity provided for public involvement in the development of the Stormwater Management Program (SWMP) during this reporting period:

The SWMP is available for review online and at the Highway Department and the public is able to provide comments to Town officials regarding suggestions for additional actions to be added to the SWMP.

Town of Swansea	Page 8
Was this opportunity different than what was proposed in your NOI? Yes No No	
Describe any other myhlis involvement or mortisination competynities conducted dyning this	uanautina naviad.
Describe any other public involvement or participation opportunities conducted during this i	reporting period:
MCM3. Illigit Disabarge Detection and Elimination (IDDE)	
MCM3: Illicit Discharge Detection and Elimination (IDDE)	
Sanitary Sewer Overflows (SSOs)	
Check off the box below if the statement is true.	
☐ This SSO section is NOT applicable because we DO NOT have sanitary sewer	r
Below, report on the number of SSOs identified in the MS4 system and removed during this re	eporting period.
Number of SSOs identified:	7
Number of SSOs removed:	
MS4 System Mapping	
Below, check all that apply. The following elements of the Phase I map have been completed:	
Outfalls and receiving waters	
☐ Open channel conveyances	
Interconnections	
☐ Municipally-owned stormwater treatment structures	
 ☑ Waterbodies identified by name and indication of all use impairments 	
☐ Initial catchment delineations	
<i>Optional:</i> Describe any additional progress you made on your map during this reporting period additional status information regarding your map:	od or provide
The Town was not able to complete all the Phase 1 Mapping. The Town intended to complete	e required
updates using Highway Department staff, however due to COVID-19, resources had to be dis	ected elsewhere.
The Town plans to compete the mapping update by Spring 2021.	
Screening of Outfalls/Interconnections	
If conducted, please submit any outfall monitoring results from this reporting period. Outfall	_
results should include the date, outfall/interconnection identifier, location, weather condition, sampling, precipitation in previous 48 hours, field screening parameter results, and results fr	•

O The outfall screening data is attached to the email submission

Town of Swansea	Page 9
0	The outfall screening data can be found at the following website:
D 1

	Number of outfalls screened: 0
Catchment In	vestigations
investigations.	lease submit all data collected during this reporting period as part of the dry and wet weather Also include the presence or absence of System Vulnerability Factors for each catchment. The catchment investigation data is attached to the email submission The catchment investigation data can be found at the following website:
Below, report o	on the number of catchment investigations completed during this reporting period.
	Number of catchment investigations completed this reporting period: 0
Below, report o	on the percent of catchments investigated to date.
	Percent of total catchments investigated: 0
Optional: Prov	vide any additional information for clarity regarding the catchment investigations below:
is part of the S during future p	t investigation procedure, including identification of SVFs, is included in the IDDE Plan, which SWMP. Swansea does not have any problem outfalls. Catchment investigations will be initiated permit years as needed. Screening of outfalls and interconnections is planned to be completed by required by the deadlines in the 2016 MS4 permit.
IDDE Progres	
If illicit dischar period, and cur	rges were found, please submit a document describing work conducted over this reporting mulative to date, including location source; description of the discharge; method of discovery; ery; and date of elimination, mitigation, or enforcement OR planned corrective measures and
••	The illicit discharge removal report is attached to the email submission The illicit discharge removal report can be found at the following website:
	This box cannot be unchecked.
-	on the number of illicit discharges identified and removed, along with the volume of sewage g this reporting period.
	Number of illicit discharges identified: 0
	Number of illicit discharges removed: 0
	Estimated volume of sewage removed: 0 gallons/day

Page 10 Below, report on the total number of illicit discharges identified and removed to date. At a minimum, report on the number of illicit discharges identified and removed since the effective date of the permit (July 1, 2018). Total number of illicit discharges identified: 1 Total number of illicit discharges removed: 1 Optional: Provide any additional information for clarity regarding illicit discharges identified, removed, or planned to be removed below: **Employee Training** Describe the frequency and type of employee training conducted during the reporting period: The Highway Director performed an internal training with operators of the catch basin cleaner vehicle. Training focused on observations that would flag the need to further investigate a potential illicit connection, such as: unusual pipe connections to catch basins; odors; visual discolorations; and water flowing when rain has not occurred in over 4 days. MCM4: Construction Site Stormwater Runoff Control Below, report on the construction site plan reviews, inspections, and enforcement actions completed during this reporting period. Number of site plan reviews completed: 0 Number of inspections completed: 0 Number of enforcement actions taken: 0 Optional: Enter any additional information relevant to construction site plan reviews, inspections, and enforcement actions:

MCM5: Post-Construction Stormwater Management in New Development and Redevelopment

Town of Swansea

Fown of Swansea P	age 11
Below, select the option that describes your ordinance or regulatory mechanism progress.	
O Bylaw, ordinance, or regulations are updated and adopted consistent with permit require	ments
Bylaw, ordinance, or regulations are updated consistent with permit requirements but are yet adopted	e not
O Bylaw, ordinance, or regulations have not been updated or adopted	
As-built Drawings	
Describe the measures the MS4 has utilized to require the submission of as-built drawings and ensure leterm operation and maintenance of completed construction sites:	ong
The Town currently implements procedures that requires submission of as-built plans for completed proto ensure long term operation and maintenance, as described in the SWMP.	ojects
Street Design and Parking Lots Report	
Describe the status of the street design and parking lots assessment due in year 4 of the permit term, incany planned or completed changes to local regulations and guidelines:	luding
This assessment has not yet been completed.	
Green Infrastructure Report	
Describe the status of the green infrastructure report due in year 4 of the permit term, including the find and progress towards making the practice allowable:	ings
This assessment has not yet been completed.	
Retrofit Properties Inventory	
Describe the status of the inventory, due in year 4 of the permit term, of permittee-owned properties that be modified or retrofitted with BMPs to mitigate impervious areas and report on any properties that have modified or retrofitted:	
This assessment has not yet been completed.	

MCM6: Good Housekeeping

Catch Basin Cleaning

Page 12

Town of Swansea

Describe any corrective actions taken at a facility with a SWPPP:

At the salt storage shed at the southerly side of the Highway Department building, the doorway opening has been modified to prevent salt exposure. In addition, a fence was installed along the eastern property boundary of the Highway Department to prevent wind blown waste from leaving the site and entering receiving waters.

Additional Information

Monitoring or Study Results

Results from any other stormwater or receiving water quality monitoring or studies conducted during the

1 01	od not otherwise mentioned above, where the data is being used to inform permit compliance or eness must be attached.
•	Not applicable
