	<u> </u>	·			

Annual Requirements
Provided an opportunity for public participation in review and implementation of SWMP and complied with State Public Notice requirements
⊠ Kept records relating to the permit available for 5 years and made available to the public
The SSO inventory has been updated, including the status of mitigation and corrective measures implemented
This is not applicable because we do not have sanitary sewer
 This is not applicable because we did not find any new SSOs
 The updated SSO inventory is attached to the email submission
The updated SSO inventory can be found at the following website:
Properly stored and disposed of catch basin cleanings and street sweepings so they did not discharge to receiving waters
☑ Provided training to employees involved in IDDE program within the reporting period
□ Updated outfall and interconnection inventory and priority ranking as needed
Optional: If you would like to describe progress made on any incomplete requirements listed above, provide any additional information, and/or if any of the above annual requirements could not be completed due to the impacts of COVID-19, please identify the requirement that could not be completed, any actions taken to attempt to complete the requirement, and reason the requirement could not be completed below:
Update Outfall and Interconnection inventory and priority ranking: Interconnections were identified and added to the MS4 mapping and will be incorporated into the inventory in the upcoming year once field verified. Otherwise, no new information was obtained this year that would warrant an update to the inventory and ranking.
Chloride
Annual Requirements
Public Education and Outreach Included an annual massage in Nevember/December to private read self applicators and commercial
Included an annual message in November/ December to private road salt applicators and commercial industrial site owners on the proper storage and application rates of winter deicing material, along with the steps that can be taken to minimize salt use and protect local waterbodies
Optional: If you would like to describe progress made on any incomplete requirements listed above or providing any additional details, please use the box below:

Phosphorus (Combination of Impaired Waters Requirements and TMDL Requirements as Applicable)

Annual Requirements

Town of Upton Page 4
Distributed an annual message in the spring (April/May) encouraging the proper use and disposal of grass clippings and encouraging the proper use of slow-release and phosphorus-free fertilizers Distributed an annual message in the summer (June/July) encouraging the proper management of pet waste, including noting any existing ordinances where appropriate Distributed an annual message in the fall (August/September/October) encouraging the proper disposal of leaf litter * Public education messages can be combined with other public education requirements as applicable (see Appendix H and F for more information)
Good Housekeeping and Pollution Prevention for Permittee Owned Operations Increased street sweeping frequency of all municipal owned streets and parking lots subject to Permit part 2.3.7.a.iii.(c) to a minimum of two times per year (spring and fall)
Potential structural BMPs
Any structural BMPs already existing or installed in the regulated area by the permittee or its agents was tracked and the phosphorus removal by the BMP was estimated consistent with Attachment 3 to Appendix F. The BMP type, total area treated by the BMP, the design storage volume of the BMP and the estimated phosphorus removed in mass per year by the BMP were documented.
 The BMP information is attached to the email submission
○ The BMP information can be found at the following website:
Optional: If you would like to describe progress made on any incomplete requirements listed above or provid any additional details, please use the box below:
The Town completed the written Good Housekeeping and Pollution Prevention program during this reporting period which includes the above mentioned additional impairment requirement for street sweeping. The Town is now working on funding and staffing to implement this in Year 3.
This year existing structural BMPs installed at Town facilities were included as part of the permittee-owned facility inventory. They were also recorded in the town's drainage GIS mapping. Now that they are identified and inventoried, the BMPs can be evaluated for the above mentioned parameters.
Solids, Oil and Grease (Hydrocarbons), or Metals Annual Requirements Good Housekeeping and Pollution Prevention for Permittee Owned Operations Increased street sweeping frequency of all municipal owned streets and parking lots to a schedule that targets areas with potential for high pollutant loads Prioritized inspection and maintenance for catch basins to ensure that no sump shall be more than 50 percent full; Cleaned catch basins more frequently if inspection and maintenance activities indicated
excessive sediment or debris loadings

This year, as part of the permittee-owned facility inventory, site characteristics including potential high pollutant loads were identified and included in the site maintenance and reporting form. This will be used

any additional details, please use the box below:

Optional: If you would like to describe progress made on any incomplete requirements listed above or provide

Town of Upton	Page 5
going forward to perform inspection and maintenance including increased sweeping who this requirement.	ere needed to satisfy
uns requirement.	
<i>Optional:</i> Use the box below to provide any additional information you would like to she self-assessment:	are as part of your

Part III: Receiving Waters/Impaired Waters/TMDL

Have you submitted	d?
	○ Yes
	No
If yes, de	escribe below, including any relevant impairments or TMDLs:

Part IV: Minimum Control Measures

Please fill out all of the metrics below. If applicable, include in the description who completed the task if completed by a third party.

MCM1: Public Education
Number of educational messages completed during this reporting period: 4
Below, report on the educational messages completed during this reporting period. For the measurable goal(s) please describe the method/measures used to assess the overall effectiveness of the educational program. BMP:[Educate Residents]
Message Description and Distribution Method:
The Town has a webpage titled "Stormwater Facts in Upton" to provide education about protecting the Towns waters through stormwater management and how residents can help to keep stormwater clean. There are links to the Blackstone River Watershed webpage for more information.
Targeted Audience: Residents
Responsible Department/Parties: DPW Director/CMRSWC
Measurable Goal(s):
Message Date(s): Ongoing
Pressage Date(s). Singuing
Message Completed for: Appendix F Requirements Appendix H Requirements
Was this message different than what was proposed in your NOI? Yes ○ No •
If yes, describe why the change was made:
BMP:[Fall Leaf - What is Composting?] Message Description and Distribution Method:
Flyer describing composting, what it is, why it is beneficial, and how to compost effectively. The flyer explains ways that nutrients are put back into the local waterbodies and why this should be avoided. Message is posted on the Town's stormwater website.
Targeted Audience: Residents
Responsible Department/Parties: DPW Director/CMRSWC
Measurable Goal(s):

Message Date(s): Ongoing Message Completed for: Appendix F Requirements □ Appendix H Requirements □ Was this message different than what was proposed in your NOI? Yes ○ No If yes, describe why the change was made:

Add an Educational Message	
MCM2: Public Participation	
Describe the opportunity provided for public involvement in the development of the Stor Program (SWMP) during this reporting period:	mwater Management
The SWMP is posted to the Town website with contact information for questions/comme	ents.
Was this opportunity different than what was proposed in your NOI? Yes O No •	
Describe any other public involvement or participation opportunities conducted during t	his reporting period:
MCM3: Illicit Discharge Detection and Elimination (IDD	DE)
Sanitary Sewer Overflows (SSOs) Check off the box below if the statement is true. This SSO section is NOT applicable because we DO NOT have sanitary s	sewer
Below, report on the number of SSOs identified in the MS4 system and removed during the Number of SSOs identified: 0	us reporting period.
NUMBER OF SOUS IDENTIFIED U	

Fown of Upton Pa	age 10				
Number of SSOs removed: 0					
MS4 System Mapping					
Below, check all that apply.					
The following elements of the Phase I map have been completed:					
○ Outfalls and receiving waters					
Open channel conveyances					
Municipally-owned stormwater treatment structures					
Optional: Describe any additional progress you made on your map during this reporting period or provide additional status information regarding your map:	de				
Screening of Outfalls/Interconnections If conducted, please submit any outfall monitoring results from this reporting period. Outfall monitoring results should include the date, outfall/interconnection identifier, location, weather conditions at time of sampling, precipitation in previous 48 hours, field screening parameter results, and results from all analysis on The outfall screening data is attached to the email submission The outfall screening data can be found at the following website:	•				
All outfalls/interconnections were screened and dry weather sampled in 2018.					
Below, report on the number of outfalls/interconnections screened during this reporting period.					
Number of outfalls screened: 0					
Catchment Investigations If conducted, please submit all data collected during this reporting period as part of the dry and wet were investigations. Also include the presence or absence of System Vulnerability Factors for each catchment. The catchment investigation data is attached to the email submission The catchment investigation data can be found at the following website:					
Below, report on the number of catchment investigations completed during this reporting period.					
Number of catchment investigations completed this reporting period: 1					
Below, report on the percent of catchments investigated to date.					
Percent of total catchments investigated: 10					

Optional: Provide any additional information for clarity regarding the catchment investigations below:

The drain and sewer at the intersection of Mendon St. and Pleasant St. was televised in June 2020 to attempt to identify illicit sources to outfall 78-3. The results were inconclusive and did not pinpoint an exact source.

IDDE Progress

If illicit discharges were found, please submit a document describing work conducted over this reporting
period, and cumulative to date, including location source; description of the discharge; method of discovery;
date of discovery; and date of elimination, mitigation, or enforcement OR planned corrective measures and
schedule of removal.

schedule of i	removal.				
	 The illicit discharge removal report is a 	attached to the	e email submission		
	The illicit discharge removal report can be found at the following website:				
_	rt on the number of illicit discharges ident ring this reporting period.	ified and remo	oved, along with the volume of sewage		
	Number of illicit discharges identified:	0			
	Number of illicit discharges removed:	0			
	Estimated volume of sewage removed:	0	gallons/day		

Below, report on the total number of illicit discharges identified and removed to date. At a minimum, report on the number of illicit discharges identified and removed since the effective date of the permit (July 1, 2018).

Total number of illicit discharges identified:	0
Total number of illicit discharges removed:	0

Optional: Provide any additional information for clarity regarding illicit discharges identified, removed, or planned to be removed below:

There were no illicit discharges identified du	ring this	reporting	period
--	-----------	-----------	--------

Employee Training

Describe the frequency and type of employee training conducted **during the reporting period**:

IDDE TRAINING was conducted on August 28, 2019 at the Highway Department facility and the audience consisted of 5 DPW Employees. The goals of the presentation were to help the audience understand the difference between what is and is not an illicit discharge and to teach them how to report a potential illicit discharge.

PRESENTATION consisted of Power Point given by BETA Group that included the following:

- -The Problem: Brief explanation and history of pollution in stormwater runoff and issues as it is directed to waters of the United States. Short video from https://www.thinkbluemassachusetts.org/
- -The Permit: Brief summary of MS4 Permit focusing on IDDE program and reporting
- -The Practicals: Detailed discussion of what is and is not an illicit discharge. Discussed and provided photos of illicit discharge indicators Discussed how to (and to whom) report a suspected illicit

discharge using Illicit Discharge Reporting Form, Discussed how to disseminate this information to field staff

MCM4: Construction Site Stormwater Runoff Control

Below, report on the construction site plan reviews, inspections, and enforcement actions completed during this reporting period.

his reporting	period.
	Number of site plan reviews completed: 3
	Number of inspections completed: 0
	Number of enforcement actions taken: 0
Optional: Entenforcement a	er any additional information relevant to construction site plan reviews, inspections, and actions:
Site plan revie Estates	ews completed, or in progress, are: The Preserve at Dean Pond, Grow Rite, and East Street

MCM5: Post-Construction Stormwater Management in New Development and Redevelopment

Ordinance or Regulatory Mechanism

Below, select the option that describes your ordinance or regulatory mechanism progress.

- O Bylaw, ordinance, or regulations are updated and adopted consistent with permit requirements
- O Bylaw, ordinance, or regulations are updated consistent with permit requirements but are not yet adopted
- Bylaw, ordinance, or regulations have not been updated or adopted

As-built Drawings

Describe the measures the MS4 has utilized to require the submission of as-built drawings and ensure long term operation and maintenance of completed construction sites:

Conservation Commission and Planning Board require submission of as-built drawings and long term operations and maintenance of sites through their permitting processes.

Street Design and Parking Lots Report

To be completed in year 4.	
Green Infrastructure Report	
Describe the status of the green infrastructure report due in year 4 of the permit term, including and progress towards making the practice allowable:	luding the findings
To be completed in year 4.	
Retrofit Properties Inventory Describe the status of the inventory, due in year 4 of the permit term, of permittee-owned be modified or retrofitted with BMPs to mitigate impervious areas and report on any properties.	
modified or retrofitted:	perties that have been
An inventory of permittee-owned facilities and potential retrofit properties and with recommendation improvements was created in April 2020. This inventory has been attached to this report.	
MCM6: Good Housekeeping Catch Basin Cleaning

- O The results from additional reports or studies are attached to the email submission
- O The results from additional reports or studies can be found at the following website(s):

Town of Upton	Page 15
If such monitoring or studies were conducted on your behalf or if monitoring or studies were reported to you, a brief description of the type of information gather described below:	•
Additional Information	
Optional: Enter any additional information relevant to your stormwater managenduring the reporting period. Include any BMP modifications made by the MS4 if	
In regards to regulatory mechanism, the Town has a Stormwater Bylaw that is ad Conservation Commission. The bylaw is in substantial compliance with the permupdated to incorporate all requirements.	
Town Owned Facility inspections for good housekeeping and pollution prevention reporting period. The inspection log is attached to this report and recommended at	
COVID-19 Impacts	
<i>Optional:</i> If any of the above year 2 requirements could not be completed due to please identify the requirement that could not be completed, any actions taken to requirement, and reason the requirement could not be completed below:	-
Activities Planned for Next Reporting Period	
Please confirm that your SWMP has been, or will be, updated to comply with all	applicable permit

requirements including but not limited to the year 3 requirements summarized below. (Note: impaired waters and TMDL requirements are not listed below)

Yes, I agree ⊠

- Inspect all outfalls/ interconnections (excluding Problem and Excluded outfalls) for the presence of dry weather flow
- Complete follow-up ranking as dry weather screening becomes available

Annual Requirements

- Annual report submitted and available to the public
- Annual opportunity for public participation in review and implementation of SWMP

- Keep records relating to the permit available for 5 years and make available to the public

- Properly store and dispose of catch basin cleanings and street sweepings so they do not discharge to receiving waters
- Annual training to employees involved in IDDE program
- Update inventory of all known locations where SSOs have discharged to the MS4
- Continue public education and outreach program
- Update outfall and interconnection inventory and priority ranking and include data collected in connection with the dry weather screening and other relevant inspections conducted
- Implement IDDE program
- Review site plans of construction sites as part of the construction stormwater runoff control program
- Conduct site inspection of construction sites as necessary
- Inspect and maintain stormwater treatment structures
- Log catch basins cleaned or inspected
- Sweep all uncurbed streets at least annually
- Continue investigations of catchments associated with Problem Outfalls
- Review inventory of all permittee owned facilities in the categories of parks and open space, buildings and facilities, and vehicles and equipment; update if necessary

Provide any additional details on activities planned for permit year 3 below:					

Part V: Certification of Small MS4 Annual Report 2020

40 CFR 144.32(d) Certification

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, I certify that the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
