Year 2 Annual Report

Massachusetts Small MS4 General Permit Reporting Period: July 1, 2019-June 30, 2020

Please DO NOT attach any documents to this form. Instead, attach all requested documents to an email when submitting the form

Unless otherwise noted, all fields are required to be filled out. If a field is left blank, it will be assumed the requirement or task has not been completed. Please ONLY report on activities between July 1, 2019 and June 30, 2020 unless otherwise requested.

| planned to be removed below: | |
| | |
| | |
| Employee Training | |
| Describe the frequency and type of employee training conducted du | uring the reporting period: |
| MS4 coordinator attended CMRSWC training in May 2020. | |
| | |
| | |

MCM4: Construction Site Stormwater Runoff Control

Below, report on the construction site plan reviews, inspections, and enforcement actions completed during this reporting period.

| wn of Walpole Page 12 |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Number of site plan reviews completed: 18 |
| Number of inspections completed: 25 |
| Number of enforcement actions taken: 2 |
| Optional: Enter any additional information relevant to construction site plan reviews, inspections, and inforcement actions: |
| ite plan reviews, inspections and enforcements are conducted by the Conservation Agent under the Walpole Vetlands Protection Bylaw Regulations and the Stormwater and Erosion Control Bylaw and Regulations. Comments for stormwater management and erosion control installations are made to through Viewpoint who wilding permits applications are made. |
| MCM5: Post-Construction Stormwater Management in New Development and Redevelopment |
| erdinance or Regulatory Mechanism |
| elow, select the option that describes your ordinance or regulatory mechanism progress. |
| O Bylaw, ordinance, or regulations are updated and adopted consistent with permit requirement |
| Bylaw, ordinance, or regulations are updated consistent with permit requirements but are not yet adopted |
| O Bylaw, ordinance, or regulations have not been updated or adopted |
| s-built Drawings |
| Describe the measures the MS4 has utilized to require the submission of as-built drawings and ensure long erm operation and maintenance of completed construction sites: |
| As-built plans are currently required under both the Wetlands Protection Bylaw and the Stormwater and Crosion Control Bylaw and Regulations for sites 40,000 s.f or more. The Stormwater and Erosion Control Bylaw and Regulations also require operation and maintenance plans for stormwater treatment systems on ew construction sites. Operation and Maintenance plans are recorded at the registry of deeds. Owners of BMPs are required to provide annual reports to the Conservation Commission. |
| treet Design and Parking Lots Report |
| Describe the status of the street design and parking lots assessment due in year 4 of the permit term, includir ny planned or completed changes to local regulations and guidelines: |
| |

Green Infrastructure Report

Describe the status of the green infrastructure report due in year 4 of the permit term, including the findings and progress towards making the practice allowable:

A green infrastructure and retrofit assessment was conducted by Fuss and O'Neil under an MVP grant. Summary report will be available on the website.

Retrofit Properties Inventory

Describe the status of the inventory, due in year 4 of the permit term, of permittee-owned properties that could be modified or retrofitted with BMPs to mitigate impervious areas and report on any properties that have been modified or retrofitted:

The Town has identified 10 town-owned properties primarily schools and town hall complex and completed conceptual designs for BMP's. Summary will be available on the website.

MCM6: Good Housekeeping

Catch Basin Cleaning

Below, report on the number of catch basins inspected and cleaned, along with the total volume of material removed from the catch basins during this reporting period.

Number of catch basins inspected: 2,036

Number of catch basins cleaned: 2,036

Total volume or mass of material removed from all catch basins: 454 tons

Below, report on the total number of catch basins in the MS4 system.

Total number of catch basins: 3,459

If applicable:

Report on the actions taken if a catch basin sump is more than 50% full during two consecutive routine inspections/cleaning events:

The the catch basin is reported to the town DPW, the town reviews area and inspect for potential sources.

Street Sweeping

Report on street sweeping completed during this reporting period using one of the three metrics below.

| Town of Walpole | | | | Page 14 |
|---------------------------------|-----------------------------------------------------------------------------------------------------------------|-------------------|----------------------------|-----------------|

| Optional: Enter any additional information relevant to your stormwater management program implements the reporting period. Include any BMP modifications made by the MS4 if not already discussions. | • |
| | |
| | |
| | |
| | |

COVID-19 Impacts

Optional: If any of the above year 2 requirements could not be completed due to the impacts of COVID-19, please identify the requirement that could not be completed, any actions taken to attempt to complete the requirement, and reason the requirement could not be completed below:

The SWPPP were not conducted because the MS4 coordinator was unable to meet with department personal and walk sites between March-July and then a back log of other duties has slowed the process.

The public hearings to revise the Stormwater and Erosion Control Bylaw Regulations and Wetland Protection Act Bylaw Regulations to meet the MS4 requirements were continued due to covid-19 impacts and then due to a backlog of other applications scheduled for public hearings. The public hearing to review Blylaw regulation changes is scheduled for 10/28/2020.

Activities Planned for Next Reporting Period

Please confirm that your SWMP has been, or will be, updated to comply with all applicable permit requirements including but not limited to the year 3 requirements summarized below. (Note: impaired waters and TMDL requirements are not listed below)

Yes, I agree ⊠

- Inspect all outfalls/ interconnections (excluding Problem and Excluded outfalls) for the presence of dry weather flow
- Complete follow-up ranking as dry weather screening becomes available

Annual Requirements

- Annual report submitted and available to the public
- Annual opportunity for public participation in review and implementation of SWMP
- Keep records relating to the permit available for 5 years and make available to the public
- Properly store and dispose of catch basin cleanings and street sweepings so they do not discharge to receiving waters
- Annual training to employees involved in IDDE program
- Update inventory of all known locations where SSOs have discharged to the MS4
- Continue public education and outreach program
- Update outfall and interconnection inventory and priority ranking and include data collected in

connection with the dry weather screening and other relevant inspections conducted

- Implement IDDE program
- Review site plans of construction sites as part of the construction stormwater runoff control program
- Conduct site inspection of construction sites as necessary
- Inspect and maintain stormwater treatment structures
- Log catch basins cleaned or inspected
- Sweep all uncurbed streets at least annually
- Continue investigations of catchments associated with Problem Outfalls
- Review inventory of all permittee owned facilities in the categories of parks and open space, buildings and facilities, and vehicles and equipment; update if necessary

| Provide and | y additional | details on | activities | planned t | for permit | year 3 below: |
|-------------|--------------|------------|------------|-----------|------------|---------------|

| The Town continues to work with Fuss and O'Neil on dry weather outfall investigations, testing and sampling. The Town will continue to catch up on Year two requirements that were not completed in year 2. |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| |
| |

Part V: Certification of Small MS4 Annual Report 2020

40 CFR 144.32(d) Certification

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, I certify that the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
