

**Year 6 Annual Report**  
**Massachusetts Small MS4 General Permit**  
**Reporting Period: July 1, 2023-June 30, 2024**

***\*\*Please DO NOT attach any documents to this form. Instead, attach all requested documents to an email when submitting the form. Also ensure any websites included on this form are to publicly accessible sites\*\****

***Unless otherwise noted, all fields are required to be filled out. If a field is left blank, it will be assumed the requirement or task has not been completed. Please ONLY report on activities between July 1, 2023 and June 30, 2024 unless otherwise requested.***

**Part I: Contact Information**

Name of Municipality or Organization: Northampton

EPA NPDES Permit Number: MAR041016

**Primary MS4 Program Manager Contact Information**

Name: Donna LaScaleia

Title: Director

Street Address Line 1: 125 Locust Street

Street Address Line 2:

City: Northampton

State: MA

Zip Code: 01060

Email: dlascaleia@northamptonma.gov

Phone Number: (413) 587-1570

**Stormwater Management Program (SWMP) Information**

SWMP Location (publicly available web address): <http://northamptonma.gov/1998/Stormwater-Management-Program>

Date SWMP was Last Updated: 6/30/2022

If the SWMP is not available on the web please provide the physical address:

## Part II: Self-Assessment

First, in the box below, select the impairment(s) and/or TMDL(s) that are applicable to your MS4. Make sure you are referring to the most recent EPA approved Section 303(d) Impaired Waters List which can be found here: <https://www.epa.gov/tmdl/region-1-impaired-waters-and-303d-lists-state>

<b>Impairment(s)</b>			
<input checked="" type="checkbox"/> Bacteria/Pathogens	<input type="checkbox"/> Chloride	<input type="checkbox"/> Nitrogen	<input type="checkbox"/> Phosphorus
<input type="checkbox"/> Solids/ Oil/ Grease (Hydrocarbons)/ Metals			
<b>TMDL(s)</b>			
<b>In State:</b>	<input type="checkbox"/> Assabet River Phosphorus	<input type="checkbox"/> Bacteria and Pathogen	<input type="checkbox"/> Cape Cod Nitrogen
	<input type="checkbox"/> Charles River Watershed Phosphorus	<input type="checkbox"/> Lake and Pond Phosphorus	
<b>Out of State:</b>	<input type="checkbox"/> Bacteria/Pathogens	<input type="checkbox"/> Metals	<input checked="" type="checkbox"/> Nitrogen
			<input type="checkbox"/> Phosphorus
<b>Clear Impairments and TMDLs</b>			

Next, check off all requirements below that have been completed. **By checking each box you are certifying that you have completed that permit requirement fully.** If you have not completed a requirement leave the box unchecked. Additional information will be requested in later sections.

### Annual Requirements

- ☒ Provided an opportunity for public participation in review and implementation of SWMP and complied with State Public Notice requirements
- ☒ Kept records relating to the permit available for 5 years and made available to the public
- ☒ The SSO inventory has been updated, including the status of mitigation and corrective measures implemented
  - ☐ This is not applicable because we do not have sanitary sewer
  - ☐ This is not applicable because we did not find any new SSOs
  - ☒ The updated SSO inventory is attached to the email submission
  - ☐ The updated SSO inventory can be found at the following publicly available website:
- ☐ Updated system map due in year 10 with information from completed catchment investigations
- ☒ Provided training to employees involved in IDDE program within the reporting period
- ☒ Properly stored and disposed of catch basin cleanings and street sweepings so they did not discharge to receiving waters
- ☒ All curbed roadways were swept at least once within the reporting period
- ☒ Enclosed all road salt storage piles or facilities and implemented winter road maintenance procedures to minimize the use of road salt
- ☒ Implemented SWPPPs for all permittee owned or operated maintenance garages, public works yards, transfer stations, and other waste handling facilities

- ☒ Updated inventory of all permittee owned facilities as necessary
- ☒ O&M programs for all permittee owned facilities have been completed and updated as necessary
- ☐ Implemented all maintenance procedures for permittee owned facilities in accordance with O&M programs
- ☒ Implemented program for MS4 infrastructure maintenance to reduce the discharge of pollutants
- ☒ Inspected all permittee owned treatment structures (excluding catch basins)

*Optional:* If you would like to describe progress made on any incomplete requirements listed above or provide any additional details, please use the box below:

**Bacteria/ Pathogens** (Combination of Impaired Waters Requirements and TMDL Requirements as Applicable)

Annual Requirements

*Public Education and Outreach\**

- ☒ Annual message was distributed encouraging the proper management of pet waste, including noting any existing ordinances where appropriate
- ☒ Permittee or its agents disseminated educational material to dog owners at the time of issuance or renewal of dog license, or other appropriate time
- ☒ Provided information to owners of septic systems about proper maintenance in any catchment that discharges to a water body impaired for bacteria
- ☐ This is not applicable because there are no septic systems present

*\* Public education messages can be combined with other public education requirements as applicable (see Appendix H and F for more information)*

*Optional:* If you would like to describe progress made on any incomplete requirements listed above or provide any additional details, please use the box below:

**Nitrogen** (Combination of Impaired Waters Requirements and TMDL Requirements as Applicable)

Annual Requirements

*Public Education and Outreach\**

- ☒ Distributed an annual message in the spring (April/May) that encourages the proper use and disposal of grass clippings and encourages the proper use of slow-release fertilizers
- ☒ Distributed an annual message in the summer (June/July) encouraging the proper management of pet waste, including noting any existing ordinances where appropriate
- ☐ Distributed an annual message in the fall (August/September/October) encouraging the proper disposal of leaf litter

*\* Public education messages can be combined with other public education requirements as applicable (see Appendix H and F for more information)*

*Good Housekeeping and Pollution Prevention for Permittee Owned Operations*

- ☐ Increased street sweeping frequency of all municipal owned streets and parking lots subject to Permit part 2.3.7.a.iii.(c) to a minimum of two times per year (spring and fall)

*Structural BMPs*

- ☒ Installed a structural BMP as a demonstration project within the drainage area of the water quality limited water or its tributaries. The type of BMP installed is (*e.g. biofiltration*):

9 Biofiltration (Rain Gardens) on King Street

Any structural BMPs listed in Attachment 3 to Appendix F already existing or installed in the regulated area by the permittee or its agents was tracked and the nitrogen removal by the BMP was estimated

- ☒ consistent with Attachment 3 to Appendix F. The BMP type, total area treated by the BMP, the design storage volume of the BMP, and the estimated nitrogen removed in mass per year by the BMP were documented.

- ☐ No BMPs were installed
- ☒ The above referenced BMP information is attached to the email submission
- ☐ The above referenced BMP information can be found at the following publicly available website:

Total estimated nitrogen removed in lbs/year from the installed BMPs: 1.51

*Optional:* If you would like to describe progress made on any incomplete requirements listed above or provide any additional details, please use the box below:

-The DPW is working toward meeting the requirement to sweep all curbed roadways and parking lots two times per year. All curbed roadways and parking lots are swept once and roadways in the main commercial/downtown areas are swept multiple times in the warmer months.

-The list of existing structural BMPs will be revised in the future to include additional existing BMPs and BMPs on private property in the regulated area.

*Optional:* Use the box below to provide any additional information you would like to share as part of your self-assessment:

### **Part III: Receiving Waters/Impaired Waters/TMDL**

Have you made any changes to your lists of receiving waters, outfalls, or impairments since the NOI was submitted?

☒ Yes

☐ No

If yes, describe below, including any relevant impairments or TMDLs:

Additional outfalls within the MS4 area have been added and others removed from the list due to field inspections and changes to the systems.

## Part IV: Minimum Control Measures

*Please fill out all of the metrics below. If applicable, include in the description who completed the task if completed by a third party.*

### MCM1: Public Education

Number of educational messages completed during this reporting period: 8

*Below, report on the educational messages completed during this reporting period. For the measurable goal(s) please describe the method/measures used to assess the overall effectiveness of the educational program.*

#### **BMP: #1. Think Blue Connecticut River Website**

##### Message Description and Distribution Method:

See annual reporting for education and outreach activities, Year 6 at: [www.thinkblueconnecticutriver.org/ms4-communities/](http://www.thinkblueconnecticutriver.org/ms4-communities/)

Targeted Audience: Residents, Business, Institutions and Commercial Developers, and Industrial

Responsible Department/Parties: PVPC staff and Connecticut River Stormwater Committee members

Measurable Goal(s):

Message Date(s):

Message Completed for: Appendix F Requirements ☐ Appendix H Requirements ☐

Was this message different than what was proposed in your NOI? Yes ☐ No ☐

If yes, describe why the change was made:

#### **BMP: #2. Proper Management of Pet Waste (during time of licensing)**

##### Message Description and Distribution Method:

See annual reporting for education and outreach activities, Year 6 at: [www.thinkblueconnecticutriver.org/ms4-communities/](http://www.thinkblueconnecticutriver.org/ms4-communities/)

Targeted Audience: Residents

Responsible Department/Parties: PVPC staff and Connecticut River Stormwater Committee members

Measurable Goal(s):

Message Date(s):

Message Completed for: Appendix F Requirements ☐ Appendix H Requirements ☐Was this message different than what was proposed in your NOI? Yes ☐ No ☐

If yes, describe why the change was made:

**BMP: #3. Proper Management of Pet Waste (during summer)**

Message Description and Distribution Method:

See annual reporting for education and outreach activities, Year 6 at: [www.thinkblueconnecticutriver.org/ms4-communities/](http://www.thinkblueconnecticutriver.org/ms4-communities/)

Targeted Audience: Residents

Responsible Department/Parties: PVPC staff and Connecticut River Stormwater Committee members

Measurable Goal(s):

Message Date(s):

Message Completed for: Appendix F Requirements ☐ Appendix H Requirements ☐Was this message different than what was proposed in your NOI? Yes ☐ No ☐

If yes, describe why the change was made:

**BMP: #4. Proper Septic System Care**

Message Description and Distribution Method:

See annual reporting for education and outreach activities, Year 6 at: [www.thinkblueconnecticutriver.org/ms4-communities/](http://www.thinkblueconnecticutriver.org/ms4-communities/)

Targeted Audience: Residents

Responsible Department/Parties: PVPC staff and Connecticut River Stormwater Committee members

Measurable Goal(s):

Message Date(s):

Message Completed for: Appendix F Requirements ☐ Appendix H Requirements ☐

Was this message different than what was proposed in your NOI? Yes ☐ No ☐

If yes, describe why the change was made:

---

**BMP: #5. Proper Management of Geese**

Message Description and Distribution Method:

See annual reporting for education and outreach activities, Year 6 at: [www.thinkblueconnecticutriver.org/ms4-communities/](http://www.thinkblueconnecticutriver.org/ms4-communities/)

Targeted Audience: Businesses, institutions and commercial facilities

Responsible Department/Parties: PVPC staff and Connecticut River Stormwater Committee members

Measurable Goal(s):

Message Date(s):

Message Completed for: Appendix F Requirements ☐ Appendix H Requirements ☐

Was this message different than what was proposed in your NOI? Yes ☐ No ☐

If yes, describe why the change was made:

---

**BMP: #6. Importance of Soil Test, Proper Use of Fertilizers, Disposal of Grass Clippings**

Message Description and Distribution Method:

See annual reporting for education and outreach activities, Year 6 at: [www.thinkblueconnecticutriver.org/ms4-communities/](http://www.thinkblueconnecticutriver.org/ms4-communities/)

Targeted Audience: Residents

Responsible Department/Parties: PVPC staff and Connecticut River Stormwater Committee members

Measurable Goal(s):

Message Date(s):

Message Completed for: Appendix F Requirements ☐ Appendix H Requirements ☐

Was this message different than what was proposed in your NOI? Yes ☐ No ☐

If yes, describe why the change was made:

---

**BMP: #7. Importance of Soil Test, Proper Use of Fertilizers, Disposal of Grass Clippings**

Message Description and Distribution Method:

See annual reporting for education and outreach activities, Year 6 at: [www.thinkblueconnecticutriver.org/ms4-communities/](http://www.thinkblueconnecticutriver.org/ms4-communities/)

Targeted Audience: Businesses, institutions and commercial facilities

Responsible Department/Parties: PVPC staff and Connecticut River Stormwater Committee members

Measurable Goal(s):

Message Date(s):

Message Completed for: Appendix F Requirements ☐ Appendix H Requirements ☐

Was this message different than what was proposed in your NOI? Yes ☐ No ☐

If yes, describe why the change was made:

---

**BMP: #8 Proper Management of Pet Waste at Fitzgerald Lake Conservation Area**

Message Description and Distribution Method:

Distributed brochure, "Good Dog Owners Make Good Dogs," at kiosks at two entrances to Fitzgerald Lake Conservation Area in Northampton. The brochure includes information about picking up dog waste. The Conservation Area also provides bags for dog waste collection, trash cans and trail signage reminding visitors to pick up dog waste.

Targeted Audience: Residents

Responsible Department/Parties: Broad Brook Coalition and Northampton Conservation Commission

Measurable Goal(s):

All visitors to the Fitzgerald Lake Conservation Area are reminded to pick up dog waste and dispose of properly.

Message Date(s): Ongoing

Message Completed for: Appendix F Requirements ☒ Appendix H Requirements ☒

Was this message different than what was proposed in your NOI? Yes ☒ No ☐

If yes, describe why the change was made:

Additional BMP

Add an Educational Message

## MCM2: Public Participation

Describe the opportunity provided for public involvement in the development of the Stormwater Management Program (SWMP) during this reporting period:

The SWMP is available to the public for review and comment on the City of Northampton website and a hard copy is available for review at the DPW administration office.

Was this opportunity different than what was proposed in your NOI? Yes ☐ No ☒

Describe any other public involvement or participation opportunities conducted during this reporting period:

Northampton DPW continued to offer rain barrels at a discounted price to City residents and 30 rain barrels were purchased during this reporting period.

One household hazardous waste collection was held in Northampton on 9/9/2023 and there were 128 participants.

## MCM3: Illicit Discharge Detection and Elimination (IDDE)

### Sanitary Sewer Overflows (SSOs)

Check off the box below if the statement is true.

☐ This SSO section is NOT applicable because we DO NOT have sanitary sewer

Below, report on the number of SSOs identified in the MS4 system and removed during this reporting period.

Number of SSOs identified: 2

Number of SSOs removed: 2

### MS4 System Mapping

Percent of Phase II map complete: 95

*Optional: Provide additional status information regarding your map:*

The Northampton MS4 map is complete for stormwater outfalls, receiving waters, waterbody impairments, open channel conveyances, interconnections with other MS4s and other storm sewer systems, catch basins and other intakes, manholes, pipes, sanitary sewer system, municipally-owned and non-municipally owned stormwater treatment structures, and delineation of outfall catchment areas. This information is continually updated as necessary.

### **Screening of Outfalls/Interconnections**

*If conducted, please submit any outfall monitoring results from this reporting period. Outfall monitoring results should include the date, outfall/interconnection identifier, location, weather conditions at time of sampling, precipitation in previous 48 hours, field screening parameter results, and results from all analyses. Please also include the updated inventory and ranking of outfalls/interconnections based on monitoring results.*

- ☒ No outfalls were inspected
- ☐ The above referenced outfall screening data is attached to the email submission
- ☐ The above referenced outfall screening data can be found at the following publicly available website:

*Below, report on the number of outfalls/interconnections screened during this reporting period.*

Number of outfalls screened:

*Below, report on the percent of outfalls/interconnections screened to date.*

Percent of outfalls screened:

*Optional: Provide additional information regarding your outfall/interconnection screening:*

### **Catchment Investigations**

*If conducted, please submit all data collected during this reporting period as part of the dry and wet weather investigations. Also include the presence or absence of System Vulnerability Factors for each catchment.*

- ☒ No catchment investigations were conducted
- ☐ The catchment investigation data is attached to the email submission
- ☐ The catchment investigation data can be found at the following publicly available website:

*Below, report on the number of catchment investigations completed during this reporting period.*

Number of catchment investigations completed this reporting period:

*Below, report on the percent of catchments investigated to date.*

Percent of total catchments investigated:

*Optional: Provide any additional information for clarity regarding the catchment investigations below:*

### **IDDE Progress**

*If illicit discharges were found, please submit a document describing work conducted over this reporting period, and cumulative to date, including location source; description of the discharge; method of discovery; date of discovery; and date of elimination, mitigation, or enforcement OR planned corrective measures and schedule of removal.*

- ☐ No illicit discharges were found
- ☒ The illicit discharge removal report is attached to the email submission
- ☐ The illicit discharge removal report can be found at the following publicly available website:

*Below, report on the number of illicit discharges identified and removed, along with the volume of sewage removed during this reporting period.*

Number of illicit discharges identified: 3

Number of illicit discharges removed: 3

Estimated volume of sewage removed: 2,553 gallons/day

*Below, report on the total number of illicit discharges identified and removed to date. At a minimum, report on the number of illicit discharges identified and removed since the effective date of the permit (July 1, 2018).*

Total number of illicit discharges identified: 29

Total number of illicit discharges removed: 29

*Optional: Provide any additional information for clarity regarding illicit discharges identified, removed, or planned to be removed below:*

Total number of illicit discharges identified and removed is since the beginning of the 2003 MS4 Permit.

### **Employee Training**

Describe the frequency and type of employee training conducted during this reporting period:

IDDE Training was completed by 2 DPW employees during year 6 by reviewing IDDE manuals and the Baystate Roads/VHB IDDE Training Workshop.

*Below, report on the construction site plan reviews, inspections, and enforcement actions completed during this reporting period.*

Number of site plan reviews completed: 51

Number of inspections completed: 34

Number of enforcement actions taken: 4

*Optional:* Enter any additional information relevant to construction site plan reviews, inspections, and enforcement actions:

Enforcement actions were initiated for 4 sites and site operators and owners immediately implemented actions to correct the problems in a timely manner.

## **MCM5: Post-Construction Stormwater Management in New Development and Redevelopment**

### **Ordinance or Regulatory Mechanism**

Date update was completed (due in year 3): 12/15/2022

Website of ordinance or regulatory mechanism:

<https://northamptonma.gov/763/Stormwater-Permits>

### **As-built Drawings**

*Below, report on the number of as-built drawings received during this reporting period.*

Number of as-built drawings received: 3

*Optional:* Enter any additional information relevant to the submission of as-built drawings:

As-built drawings are a required condition of every Stormwater Management Permit and 3 projects were completed during this reporting period.

### **Street Design and Parking Lots Report**

Below, describe any changes made or planned to be made to local regulations and guidelines based on the report completed in Year 4:

The Street Design and Parking Lots Report was completed in 2022 and the recommended updates have not been completed.

### **Green Infrastructure Report**

Below, describe progress towards making green infrastructure practices allowable based on the report completed in Year 4:

The Green Infrastructure Report was completed in 2022 and no updates were recommended.

### **Retrofit Properties Inventory**

Below, list remaining permittee-owned properties that could be modified or retrofitted with BMPs to mitigate impervious areas (must maintain a minimum of 5 sites in inventory until less than 5 sites remain):

- 1) Damon Road-Infiltration Basin
- 2) Oak Street-5 Subsurface Infiltration Trenches
- 3) Elm Street Brook Watershed-Roadway Infiltration Trenches/Bioretenction
- 4) Old South Street Parking Lot-Bioretenction
- 5) Smith Vocational High School-Infiltration

Below, list all properties that have been modified or retrofitted with BMPs to mitigate impervious area that were inventoried as part of 2.3.6.d of the permit and the type of BMP(s) implemented. Non-MS4 owned properties that have been modified or retrofitted with BMPs to mitigate impervious area may also be listed, but must be indicated as non-MS4.

- Conz Street Bioswale and Impervious Reduction, 2011
- North Street Bioswales and Impervious Reduction, 2013
- Pulaski Park Bioswale and Impervious Reduction, 2016
- Pleasant Street Rain Gardens and Impervious Reduction, 2017
- Hampden Avenue Impervious Reduction, 2018
- Wright Avenue Impervious Reduction, 2018
- Burts Pit Road Impervious Reduction, 2019
- Glendale Road Infiltration, 2019
- Pine Street Impervious Reduction, 2021
- Warfield Place Impervious Reduction, 2021
- Meadow Street Infiltration Trench, 2021
- King Street Rain Gardens, 2022
- Winter Street-Impervious Reduction, 2023

**MCM6: Good Housekeeping****Catch Basin Cleaning**

*Below, report on the number of catch basins inspected and cleaned, along with the total volume of material removed from the catch basins during this reporting period.*

Number of catch basins inspected: 512

Number of catch basins cleaned: 490

Total volume or mass of material removed from all catch basins: 241 tons

*Below, report on the total number of catch basins in the MS4 system.*

Total number of catch basins: 3,818

*If applicable:*

Report on the actions taken if a catch basin sump is more than 50% full during two consecutive routine inspections/cleaning events:

If a catch basin sump is more than 50% full during two consecutive routine inspections/cleaning events, the catch basin will be placed on an accelerated inspection and cleaning schedule.

**Street Sweeping**

*Report on street sweeping completed during this reporting period using one of the three metrics below.*

☒ Number of miles cleaned: 177

☐ Volume of material removed: [Select Units]

☐ Weight of material removed: [Select Units]

**Stormwater Pollution Prevention Plan (SWPPP)**

*Below, report on the number of site inspections for facilities that require a SWPPP completed during this reporting period.*

Number of site inspections completed: 4

Describe any corrective actions taken at a facility with a SWPPP:

### **Additional Information**

#### **Monitoring or Study Results**

*Results from any other stormwater or receiving water quality monitoring or studies conducted during the reporting period not otherwise mentioned above, where the data is being used to inform permit compliance or permit effectiveness must be attached.*

- ☒ Not applicable
- ☐ The results from additional reports or studies are attached to the email submission
- ☐ The results from additional reports or studies can be found at the following publicly available website(s):

If such monitoring or studies were conducted on your behalf or if monitoring or studies conducted by other entities were reported to you, a brief description of the type of information gathered or received shall be described below:

#### **Additional Information**

Enter any additional information relevant to your stormwater management program implementation during the reporting period. Include any BMP modifications made by the MS4 if not already discussed above.

### **Year 7**

#### **Activities Planned for Next Reporting Period**

Please confirm that your SWMP has been, or will be, updated to comply with all applicable permit requirements including but not limited to the year 7 requirements summarized below. (Note: impaired waters and TMDL requirements are not listed below)

Yes, I agree ☒

- Complete investigations of catchments associated with Problem Outfalls
- Complete investigations of catchments where any information gathered on the outfall/interconnection identifies sewer input

#### Annual Requirements

- Annual report submitted and available to the public
- Annual opportunity for public participation in review and implementation of SWMP
- Keep records relating to the permit available for 5 years and make available to the public
- Properly store and dispose of catch basin cleanings and street sweepings so they do not discharge to receiving waters
- Annual training to employees involved in IDDE program
- Update inventory of all known locations where SSOs have discharged to the MS4
- Continue public education and outreach program
- Update outfall and interconnection inventory and priority ranking and include data collected in connection with the dry weather screening and other relevant inspections conducted
- Implement IDDE program
- Review site plans of construction sites as part of the construction stormwater runoff control program
- Conduct site inspection of construction sites as necessary
- Inspect and maintain stormwater treatment structures
- Log catch basins cleaned or inspected
- Sweep all curbed streets at least annually
- Continue investigations of catchments associated with Problem Outfalls
- Implemented SWPPPs for all permittee owned or operated maintenance garages, public works yards, transfer stations, and other waste handling facilities
- Review inventory of all permittee owned facilities in the categories of parks and open space, buildings and facilities, and vehicles and equipment; update if necessary
- Review O&M programs for all permittee owned facilities; update if necessary
- Implement all maintenance procedures for permittee owned facilities in accordance with O&M programs
- Implement program for MS4 infrastructure maintenance to reduce the discharge of pollutants
- Enclose all road salt storage piles or facilities and implemented winter road maintenance procedures to minimize the use of road salt
- Review as-built drawings for new and redevelopment to ensure compliance with post construction bylaws, regulations, or regulatory mechanism consistent with permit requirements
- Inspect all permittee owned treatment structures (excluding catch basins)
- Identify additional permittee-owned properties that could potentially be modified or retrofitted with BMPs to reduce impervious areas so that the permittee maintains a minimum of 5 sites in their inventory, until such a time when the permittee has less than 5 sites remaining

Provide any additional details on activities planned for permit year 7 below:

## Part V: Certification of Small MS4 Annual Report 2024

### **40 CFR 144.32(d) Certification**

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, I certify that the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
