Part III: Stormwater Management Program Summary

Identify the Best Management Practices (BMPs) that will be employed to address each of the six Minimum Control Measures (MCMs). For municipalities/organizations whose MS4 discharges into a receiving water with an approved Total Maximum Daily Load (TMDL) and an applicable waste load allocation (WLA), identify any additional BMPs employed to specifically support the achievement of the WLA in the TMDL section at the end of part III.

For each MCM, list each existing or proposed BMP by category and provide a brief description, responsible parties/departments, measurable goals, and the year the BMP will be employed (public education and outreach BMPs also requires a target audience). Use the drop-down menus in each table or enter your own text to override the drop down menu.

MCM 1: Public Education and Outreach

BMP Media/Category (enter your own text to override the drop down menu)	BMP Description	Targeted Audience	Responsible Department/Parties (enter your own text to override the drop down menu)	Measurable Goal	Beginning Year of BMP Implementation
Videos	Share Pet Waste Meme; circulate pet waste flyer; distribute pet waste press release	Residents	Stormwater Management Working Group	Minimum of 2 educational messages to this audience over the permit term, spaced at least one year apart	2018
Newspaper Articles/Press Releases	Circulate waste management press release and flyer; share waste management meme on Facebook	Businesses, Institutions and Commercial Facilities	Stormwater Management Working Group	Minimum of 2 educational messages to this audience over the permit term, spaced at least one year apart	2019
Newspaper Articles/Press Releases	Circulate erosion control and sedimentation flyers and press releases; share Erosion Control and Sedimentation meme from Think Blue Massachusetts on Facebook	Developers (construction)	Stormwater Management Working Group	Minimum of 2 educational messages to this audience over the permit term, spaced at least one year apart	2019

Part IV: Notes and additional information

Use the space below to indicate the part(s) of 2.2.1 and 2.2.2 that you have identified as not applicable to your MS4 because you do not discharge to the impaired water body or a tributary to an impaired water body due to nitrogen or phosphorus. Provide all supporting documentation below or attach additional documents if necessary. Also, provide any additional information about your MS4 program below.

Stormwater Management Working Group is comprised of Department Heads from the Highway Department, Conservation Department, and Planning Department.

Part V: Certification

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, I certify that the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
