submitted?	anges to your lists of receiving waters, outlans, or impairments since the NOI was
Yes □	No ⊠
If yes, describe below,	including any relevant impairments or TMDLs:

Part IV: Minimum Control Measures

MCM1: Public Education

Please fill out all of the metrics below. If applicable, include in the description who completed the task if completed by a third party.

Number of educational messages completed during the reporting period: 1
Below, report on the educational messages completed during the first year. For the measurable goal(s) please describe the method/measures used to assess the overall effectiveness of the educational program.
BMP:[Message name here]
Message Description and Distribution Method:
The Town updated it's web site in 2019 to include the recently completed SWMP, draft IDDE Ordinance and IDDE Program.
Targeted Audience: Residents and businesses
Responsible Department/Parties: Town Administrator
Measurable Goal(s):
Increased awareness of stormwater issues.
Message Date(s): June 2019
Message Completed for: Appendix F Requirements Appendix H Requirements
Was this message different than what was proposed in your NOI? Yes ☐ No 区
If yes, describe why the change was made:
Add an Educational Message

MCM2: Public Participation

Describe the opportunity provided for public involvement in the development of the Stormwater Management Program (SWMP) during the reporting period:

The Town posted on it's web site the recently completed SWMP, draft IDDE Ordinance and IDDE Program. Also, the Board of Selectmen had a public hearing on the proposed IDDE Regulations and Program in September 2019.

Town of Newton, NH	Page 6
Was this opportunity different than what was proposed in your NOI? Yes ☐ No ☒	
Describe any other public involvement or participation opportunities conducted during the	reporting period:
MCM3: Illicit Discharge Detection and Elimination (IDDE)	`

Below, report on the number of catchment investigations completed during this reporting period. Number of catchment investigations completed this reporting period: Below, report on the percent of catchments investigated to date.	
Percent of total catchments investigated: 0	
Optional: Provide any additional information for clarity regarding the catchment investigations below:	
IDDE Progress If illicit discharges were found, please submit a document describing work conducted over this reporting period, and cumulative to date, including location source; description of the discharge; method of discovery date of discovery; and date of elimination, mitigation, or enforcement OR planned corrective measures and schedule of removal. C The illicit discharge removal report is attached to the email submission C The illicit discharge removal report can be found at the following website:	
Below, report on the number of illicit discharges identified and removed, along with the volume of sewage removed during this reporting period.	
Number of illicit discharges identified: 0	
Number of illicit discharges removed: 0	
Estimated volume of sewage removed: 0 [UNITS]	
Below, report on the total number of illicit discharges identified and removed to date. At a minimum, report the number of illicit discharges identified and removed since the effective date of the permit. Total number of illicit discharges identified: 0	t on

Total number of illicit discharges removed: 0
Optional: Provide any additional information for clarity regarding illicit discharges identified, removed, or planned to be removed below:
The IDDE Program was completed in June 2019. Implementation is underway.
Employee Training Describe the frequency and type of employee training conducted during the reporting period:
The IDDE Program was completed in June 2019. Training will begin in 2019/2020.

MCM4: Construction Site Stormwater Runoff Control

Below, report on the construction site plan reviews, inspections, and enforcement actions completed during this reporting period.

Number of site plan reviews completed	l: 1
Number of inspections completed: 8	
Number of enforcement actions taken:	0

MCM5: Post-Construction Stormwater Management in New Development and Redevelopment

Ordinance Development

Describe the status of the post-construction ordinance required to be complete in year 2 of the permit term:

The Post Construction Ordinance for Site Plans has been completed and was adopted on April 9, 2019. The Post Construction Ordinance for Subdivisions was drafted and will be approved next reporting year (was approved on July 23, 2019).

As-built Drawings

Describe the status of the measures the MS4 has utilized to require the submission of as-built drawings and ensure long term operation and maintenance of completed construction sites required to be complete in year 2 of the permit term:

The Post Construction	Ordinance	includes	a requirement	for as-	-built drawings

Will be completed in Year 2.				

<u>Inventory of Permittee-Owned Properties</u>

Town of Newton, NH	Page 11		
Describe the status of the inventory, due in year 2 of the permit term, of permittee-owned properties, include parks and open spaces, buildings and facilities, and vehicles and equipment, and include any updates:			
Will be completed in accordance with Permit requirements.			
O&M Procedures for Parks and Open Spaces, Buildings and Facilities, and Vehicles and	l Equipment		
Describe the status of the operation and maintenance procedures, due in year 2 of the permit to permittee-owned properties (parks and open spaces, buildings and facilities, vehicles and equinclude maintenance activities associated with each:			
Will be completed in accordance with Permit requirements.			
Stormwater Pollution Prevention Plan (SWPPP)			
Describe the status of any SWPPP, due in year 2 of the permit term, for permittee-owned or o including maintenance garages, public works yards, transfer stations, and other waste handling pollutants are exposed to stormwater:	-		
Will be completed in accordance with Permit requirements.			
Below, report on the number of site inspections for facilities that require a SWPPP completed reporting period. Number of site inspections completed: 0	during this		
Describe any corrective actions taken at a facility with a SWPPP:			
O&M Procedures for Stormwater Treatment Structures			
Describe the status of the written procedure for stormwater treatment structure maintenance:			
Structural BMPs will be identified and reported on in 2020.			

Additional Information

Monitoring or Study Results

Results from any other stormwater or receiving water quality monitoring or studies conducted during the reporting period not otherwise mentioned above, where the data is being used to inform permit compliance or permit effectiveness must be attached.

Not applicable			
C The results from additional reports or studies are attached to the email submission			
C The results from additional reports or studies can be found at the following website(s):			
If such monitoring or studies were conducted on your behalf or if monitoring or studies conducted by other entities were reported to you, a brief description of the type of information gathered or received shall be described below:			
dditional Information			
Optional: Enter any additional information relevant to your stormwater management program implementation uring the reporting period. Include any BMP modifications made by the MS4 if not already discussed above:			

Activities Planned for Next Reporting Period

Please confirm that your SWMP has been, or will be, updated to comply with all applicable permit requirements including but not limited to the year 2 requirements summarized below. (Note: impaired waters and TMDL requirements are not listed below)

Yes, I agree 🛛

- Complete system mapping Phase I
- Begin investigations of catchments associated with Problem Outfalls
- Develop or modify an ordinance or other regulatory mechanism for post-construction stormwater runoff from new development and redevelopment
- Establish and implement written procedures to require the submission of as-built drawings no later than two years after the completion of construction projects
- Develop, if not already developed, written operations and maintenance procedures
- Develop an inventory of all permittee owned facilities in the categories of parks and open space,

Town of Newton, NH Page 13

- buildings and facilities, and vehicles and equipment; review annually and update as necessary
- Establish a written program detailing the activities and procedures the permittee will implement so that the MS4 infrastructure is maintained in a timely manner
- Develop and implement a written SWPPP for maintenance garages, public works yards, transfer stations, and other waste handling facilities where pollutants are exposed to stormwater
- Enclose or cover storage piles of salt or piles containing salt used for deicing or other purposes
- Develop, if not already developed, written procedures for sweeping streets and municipal-owned lots
- Develop, if not already developed, written procedures for winter road maintenance including storage of salt and sand
- Develop, if not already developed, a schedule for catch basin cleaning
- Develop, if not already developed, a written procedure for stormwater treatment structure maintenance
- Develop a written catchment investigation procedure (18 months)

Annual Requirements

- Annual report submitted and available to the public
- Annual opportunity for public participation in review and implementation of SWMP
- Keep records relating to the permit available for 5 years and make available to the public
- Properly store and dispose of catch basin cleanings and street sweepings so they do not discharge to receiving waters
- Annual training to employees involved in IDDE program
- Update inventory of all known locations where SSOs have discharged to the MS4 in the last 5 years
- Continue public education and outreach program
- Implement procedures for sweeping streets and municipal-owned lots
- Implement procedures for winter road maintenance
- Update outfall and interconnection inventory and priority ranking and include data collected in connection with the dry weather screening and other relevant inspections conducted
- Implement IDDE program
- Review site plans of construction sites as part of the construction stormwater runoff control program
- Conduct site inspection of construction sites as necessary
- Inspect and maintain stormwater treatment structures
- Log catch basins cleaned or inspected
- Sweep all uncurbed streets at least annually

Provide any additional details on activities planned for permit year 2 below:				

Town of Newton, NH Page 14

Part V: Certification of Small MS4 Annual Report 2019

40 CFR 144.32(d) Certification

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, I certify that the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
