Re: National Pollutant Discharge Elimination System (NPDES) Permit ID: NHR041020, Town of Milton, NH

Dear Ernest M. Cartier Creveling:

EPA received your Notice of Intent (NOI) for coverage under the 2017 NPDES General Permit for Stormwater Discharges from Small Municipal Separate Storm Sewer Systems (MS4) in New Hampshire (MS4 General Permit) on February 3, 2021. Your NOI has been reviewed by EPA and appears to be complete. You are hereby granted authorization by EPA to discharge stormwater from your MS4 in accordance with applicable terms and conditions of the MS4 General Permit, including all applicable Appendices. This authorization to discharge expires at midnight on **June 30, 2023**.

For those permittees that certified Endangered Species Act eligibility under Criterion C in their NOI, this authorization letter also serves as EPA's concurrence with your determination that your discharges will have no effect on the listed species present in your action area, based on the information provided in your NOI.

You can find information about the permit and available resources on our website: <https://www.epa.gov/npdes-permits/new-hampshire-small-ms4-general-permit>. Should you have any questions regarding this permit, please contact Newton Tedder at tedder.newton@epa.gov or (617) 918-1038.

Sincerely,
