Subject: Request for Waiver for Town of Candia from
Municipal Separate Storm Sewer System (MS4) Permitting Requirements

Dear Ms. Murphy:

The purpose of this letter is to formally request that the Town of Candia be granted a waiver pursuant to 40CFR122.32(d) from the requirement to obtain coverage under an NPDES permit for the MS4 that we own and operate in the small urbanized area (UA) in town.

The Town of Candia is a small community of 3,909 people in southeastern New Hampshire. It is a rural and slowly developing bedroom community. The town does not have sewers and zoning requires that single-family homes be built on lots of at least three (3) acres.

We believe that this request is appropriate for the following reasons:

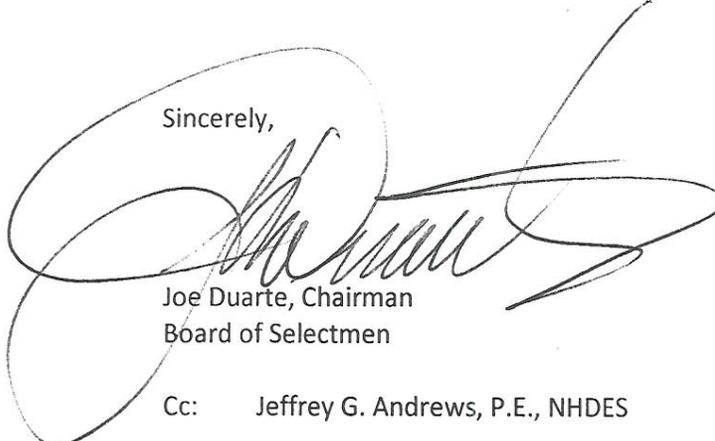

- Our UA, based on the 2010 Census, shows a population of only 15 people.
- The UA is only 0.02 square miles or only 0.07 percent of the town's total area (30.5 sq mi.)
- The storm drainage system in the UA is almost totally drainage swales discharging to intermittent streams and the soils in the area allow for significant infiltration. The swales are not interconnected to a neighboring town's MS4 since the land all slopes toward the upper portion of Hook Brook, which is in Candia.
- Hook Brook is not on the State's 303(d) list of impaired waters.

- We met with Jeff Andrews of the NH Department of Environmental Services on September 26, 2012 and he supports this request. Mr. Andrews recently evaluated the potential for activities occurring within our UA to affect surface water quality.

A prompt reply to this letter is requested since we do not wish to expend resources unnecessarily on the Notice of Intent if the permit requirement can be waived.

If you have any questions relative to this request please call me at (603) 483-8101.

Sincerely,

Joe Duarte, Chairman
Board of Selectmen
