Subject Aerovox trespassing

Scott - fyi, I forgot to mention that we noticed late last week that someone is cutting through the perimeter fence fabric near the shore and in the NE corner of the site, and vandalizing the exterior AC units to steal the interior components (compressors, copper piping, etc.). The locked chain on the eastern fence gate was also cut. Not a whole lot one can do except for added policing, as they'll just continue to cut through the fence fabric...

One thing the city's crews could/should address is a boarded up first floor window on Belleville Avenue (south of the main entrance to the office annex): the board is in place but its not fastened to anything.

Dave
