

Callahan Mine Superfund Site Documents

The historic documents gathered here are related to the Callahan Mine Superfund Site located in the area of Brooksville, Maine. Based on the legible dates seen on the documents, they were produced between 1948 and 1977, but are not arranged in any particular order beyond the date ranges shown below.

To view a grouping, click on the document number or title. Each grouping may also contain sub-links to separate parts of the documents which were broken apart to create more easily downloadable PDF files.

Links back to this index are located in the Bookmark section of each 'main document' for a grouping. Links back to each main document are listed at the bottom of each PDF file's Bookmark section.
