RE: Centredale Manor Restoration Project
Start of Convening Process for a Remedy Selection Dialogue with Stakeholders

Due to complex nature of the site, its high visibility, and a large number of stakeholders involved a neutral assistance has been sought by the case team. In-house neutral assistance started with **9/17/04** meeting with Matt Schweisberg, an in-house neutral, to discuss the project needs. Our in-house Regional ADR Program is currently assisting the case team with planning the ADR process and with bringing in an outside neutral to convene the interested parties and to develop a plan for facilitated dialog.
