Wilmington, Massachusetts 01887

December 2005

## INTRODUCTION

This document is the Index to the Administrative Record File Addendum for the Centredale Manor Restoration Project Site Removal Action. The Index cites site-specific documents and guidance documents used by EPA staff in selecting a removal action at the site.

Chain-link fencing was installed on the west bank of Allendale Pond in 2000 under the first Action Memorandum to protect public health and to limit access to contaminated sediments. Property owners abutting Allendale Pond had granted access and authorization to EPA for installation of the fencing. At that time, Allendale Dam had been breached for several years, lowering the historic water level in Allendale Pond.

During 2002, Allendale Dam was replaced by the EPA Remedial Program under an Engineering Evaluation/Cost Analysis (EE/CA). The dam replacement resulted in an increase of several feet in the water level, restoring historic water levels in Allendale Pond. However, the restored water level caused the chain-link fence to submerge in several areas. Under this Action Memorandum Addendum, the fence has been relocated to the existing, stable shoreline.

The Emergency Rapid Response Services (ERRS) contractors have conducted a site-walk with the EPA On-Scene Coordinator (OSC); mobilized appropriate equipment and personnel to the site; removed and disposed of the submerged fencing and hardware; installed new chain-link fencing at the existing shoreline; and surveyed the new fence line. The relocated fence line will continue to restrict public access to contaminated sediments until a long-term remedy is in place. Before work commenced, updated access agreements with the affected property owners were obtained.

The Administrative Record File is available for public review, by appointment, at the U.S. EPA Records Center, 1 Congress Street, Suite 1100, Boston, Massachusetts, 02114-2023; at the Salvatore Mancini Union Free Library (North Providence Public Library), 1810 Mineral Spring Ave., North Providence, Rhode Island, 02904; and at the Marian J. Mohr Memorial Public Library, 1 Memorial Ave., Johnston, Rhode Island, 02919. Questions concerning the Administrative Record File should be addressed to Edward Bzenas, EPA On-Scene Coordinator.

The Administrative Record File is required by the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), 42 U.S.C. § 9613 (k), and EPA's implementing regulations, 40 CFR § 300.800.-825.

**PLEASE NOTE: THE FOLLOWING DOCUMENTS COMPILED IN THIS ADMINISTRATIVE RECORD HAVE BEEN MADE FROM THE BEST AVAILABLE COPIES.**

## **SITE-SPECIFIC DOCUMENTS**

### **ADMINISTRATIVE RECORD FILE ADDENDUM INDEX for the Centredale Manor Restoration Project Site Removal Action**

#### **REMOVAL**

##### **Removal Reports (Site File 2.02)**

1. Memorandum from Timothy Benton, Site Leader, Weston Solutions, Inc., Superfund Technical Assessment and Response Team (START) 2000, to the Centredale Manor Site File, cc: Ted Bzenas, On-Scene Coordinator, U.S. Environmental Protection Agency (EPA), regarding Fence Line Delineation Conducted at the Centredale Manor Site, North Providence, Rhode Island, 4 November 2004, dated 21 December 2004.

##### **Action Memorandum (Site File 2.09)**

2. Memorandum from Edward J. Bzenas, On-Scene Coordinator, Emergency Response and Removal Section II, EPA Region I, through Steve Novick, Chief, Emergency Response and Removal Section II, EPA Region I, and Arthur V. Johnson III, Chief, Emergency Planning & Response Branch, EPA Region I, to Susan Studlien, Director, Office of Site Remediation and Restoration, EPA Region I, regarding a Request for Change of Scope and a 12-Month Exemption for a Continued Removal Action at the Centredale Manor Restoration Project, North Providence, Bristol County, Rhode Island, dated 1 June 2005, and signed by Richard Cavagnero (for Susan Studlien) on 1 June 2005. (The Enforcement Section of the Memorandum is withheld as being CONFIDENTIAL.)
