

Davis Liquid Waste
NPL Site Administrative Record Addition
Removal Action

Index

Prepared: September 1995
Released on CD-ROM: August 2014

Prepared by
EPA New England
Office of Site Remediation & Restoration

Introduction to the Collection

This is the Administrative Record File Addition for the Davis Liquid Waste Superfund Site, Smithfield, RI, Removal Action. The file contains site-specific documents and a list of guidance documents used by EPA staff in selecting a response action at the site.

The removal action will include stabilizing the existing drums at the site and sampling their contents for compatibility. Based on compatibility results, samples may be collected and analyzed for disposal parameters. Disposal options will be determined following review of the analytical data. In addition, post disposal soil samples may be collected to identify any residual contamination in the temporary staging area

The administrative record file is available for review at:

EPA New England OSRR Records and Information Center
1st Floor, 5 Post Office Square, Suite 100 (OSRR 02-3),
Boston, MA 02109-3912
(by appointment)

An administrative record file is required by the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended by the Superfund Amendments and Reauthorization Act (SARA).

Please note that the compact disc(s) (CD) containing this Administrative Record may include index data and other metadata (hereinafter collectively referred to as metadata) to allow the user to conduct index searches and key word searches across all the files contained on the CD. All the information that appears in the metadata, including any dates associated with creation of the indexing data, is not part of the Administrative Record for the Site under CERCLA and shall not be construed as relevant to the documents that comprise the Administrative Record. This metadata is provided as a convenience for the user and is not part of the Administrative Record.

Questions about this administrative record file should be directed to the EPA New England Remedial Project Manager.
