THE PCBs AT THE NEW BEDFORD HARBOR MUST BE REMOVED OFF SITE. THIS IS THE ONLY WAY TO ASSURE A CONTAMINANT FREE WATER. THE WATER NEEDS TO BE CLEAN FOR OUR FUTURE GENERATION. THE EPA STATED THAT THE PCBs WERE TO BE REMOVED FROM THE HARBOR BUT NOW IT IS PROPOSED THAT CAD CELLS SHOULD NOT BE CREATED TO HOLD THE PCBs - IT MAY FASTER AND CHEAPER, BUT IT IS LIKE SWEEPING IT UNDER THE RUG. EPA MUST NOT AGREE TO CAD CELLS. WE NEED A CLEAN HARBOR AND JOB CREATION.
