MEMORANDUM

DATE: August 2, 1990

SUBJ: New Bedford Harbor Superfund Site;
Final Pilot Study Air Monitoring Report

FROM: Mary Sanderson
Remedial Project Manager

TO: Addressees

Enclosed for your files is a copy of the above-referenced report. This report presents the results of the ambient air quality monitoring that was conducted in support of the Pilot Dredging and Disposal Study by the Corps of Engineers. This final version of the report replaces the draft that you received from me in July 1990. Please recycle the draft version and use this final version as your reference for this project.

Volume I of this report is being provided to all of the addressees as a stand-alone document. Volume II contains detailed technical information, including calibration records and daily wind roses, and it is being distributed only as noted below.

If you have any questions or comments, please contact me at (617) 573-5711.

Addressees:

- Mark Lowe, EPA/RCR-2203
