Hello all,

Due to continued community interest regarding the proposed modification to the New Bedford Harbor Cleanup we have once again extended the comment period. You can still submit comments regarding the lower harbor CAD cell until September 24th, the comment period has been officially in effect since June 25th.

This proposed change is outlined in a draft Explanation of Significant Difference (ESD) document that remains in draft form until public comments and a response by EPA are officially recorded.

We appreciate your thoughts, questions and opinions and encourage you to reach out to the cleanup team if anything remains unclear as you look through the ESD, related documents, and presentations on our harbor cleanup website: www.epa.gov/ne/nbh. The ESD is also available at the New Bedford Public Library on 613 Pleasant Street.

Thank you!

Sincerely,

Jeanethe
