Ann:

Enclosed is a map documenting approximate acreage for the Confined Disposal Facilities ("CDF") described in the 1998 Record of Decision ("ROD"), additional State Enhanced Remedy ("SER") CDF's identified on Figure 9 of the Commonwealth's January 2012 "application", as well as waterfront development shoreline facilities ("WDSF") discussed in the 2010 New Bedford Fairhaven Municipal Harbor Plan. I plan to use this information in updating the cumulative impacts write-up.

Feel free to contact me if you have any questions about the information presented in this e-mail. Thanks.

Paul Sneeringer
