FYI, see message below from Mike Amaral, Endangered Species Coordinator for the USFWS in Concord, NH. I asked Mike to hold September 8th and 9th (a change from the Sept. 2nd date mentioned in my voice mail earlier today) for the site visit. None of the earlier dates work for me.

Is there anyone else here who'd like to attend the visit? If so, do you have a preference for the 8th or the 9th? Dave D. -- Assuming you wish to attend, and once we decide on a date, do you want to arrange the visit, or would you prefer I do that thru EEOEA?

Matt

Subject: Re: New Bedford Harbor State Enhanced Remedy CERCLA issue - Roseate Tern

Matt - Given South Terminal's purpose is related to the Cape Wind project and given our on-going litigation with regard to our Biol Opinion for that project, we will be conducting a thorough review of potential effects on endangered Roseate Terns. As we discussed on the phone this am, Maria Tur and I would benefit from a site visit.

Potential dates for us are as follows: Aug 18, 19, 26, Sept. 8 or 9. at 1 pm/ afternoon.

Michael Amaral, Supervisory Fish and Wildlife Biologist
Environmental Contaminants and End. Species
New England Field Office
U.S. Fish and Wildlife Service
70 Commercial St., Ste 300
Concord, NH 03301

Subject New Bedford Harbor State Enhanced Remedy CERCLA issue
- Roseate Tern

Attached is a letter from Tom French of MA DF&W regarding the roseate tern foraging habitat issue at the South Terminal site in New Bedford Harbor.

(See attached file: Div of Fisheries & Wildlife-Ros Tern-8_3_10 Ltr.pdf)

I expect to receive the state's draft description of environmental resources, assessment of adverse impacts, and proposal for compensatory mitigation sometime next week. Will pass it along at that time.

Please let me know if I can answer any questions (or at least try to).
