FYI. Just received, haven't read it. We'll have to all review the plan, then meet and compare notes. Please let me know your availability to meet on November 9th, anytime between 9 - 12 or 1:00 - 3:30.

We also can patch you in by phone if that works better (Olga?).

Matt

Subject: Sampling and Analysis Plan

Matt,

Attached please find a Sampling and Analysis Plan outlining the steps proposed to meet USEPA's requests for additional analysis at the South Terminal CDF.

My understanding is that you requested that some analyses be completed prior to USEPA issuing a draft decision.

If you wouldn't mind calling me at 617-908-5778 to discuss which analyses you would like to see completed right away, I would really appreciate it.

Additionally, in order to meet the deadline (of completing the analyses and receiving results from the laboratory prior to the USEPA draft decision), we will need approval of the Sampling and Analysis Plan as soon as possible.

At a minimum, would you please review the scope of work that pertains to the sampling that must be done right away and issue an approval of those portions of the plan as soon as possible?

I will call to make sure that you received this document, and to see whether you will require any hard copies.

Thanks,

Chet Myers, PE, LSP
