Subject: RE: Follow up questions re New Bedford/South Terminal
Date: Tuesday, June 26, 2012 7:09:09 PM
Attachments: [Largest CAD Cell #3.pdf](#)

Hi Ann,

Again, this is additional information that EPA requested.

The Commonwealth's impact analysis of CAD Cell #3 (8.76 acres) was based upon the anticipated largest CAD Cell that would be constructed in association with the anticipated work. The design for that larger CAD Cell is attached to this e-mail.

Attached are the Top of CAD #3, Bottom of CAD #3, Cross Sections, and a CAD #3 disposal plan for the largest CAD Cell anticipated, which, again, is correlated with the 8.76 acres of impact.

The design previously forwarded to EPA (as Attachment A to the Commonwealth's June 18, 2012 response to EPA Questions) is a smaller CAD Cell that can only accommodate a smaller volume of material, and correlates to a smaller area of impact (approximately 6.3 acres).

The current proposed mitigation associated with this project assumes that the larger (i.e. 8.76 acre) CAD Cell will be constructed, even though the Commonwealth currently anticipates that only the smaller (i.e. approximately 6.3 acre) CAD Cell will be constructed in association with this project.

Thanks,

Subject: RE: Follow up questions re New Bedford/South Terminal

Dear Gary:

Attached are the Region's questions following our review of the Commonwealth's June 18, 2012 submission. These questions all pertain to evaluations we are making in order to prepare a draft decision. Therefore we would appreciate responses as soon as possible. If some answers are available sooner than others, we encourage the Commonwealth to provide those early responses right away rather than waiting until all of the responses are complete. In addition to the attached questions, we have also asked for information about the "Readiness Plan" in a June 20, 2012 email to you.

Please call me at 617-918-1097 if you have any questions about the attached.

Sincerely,

Ann
