Boston, MA 02109-3912

August 23, 2012

Dear Ms. Stanley,

I write to you today in support of New Bedford Marine Terminal project and urge the agency to issue all of the necessary agency permits so that the City of New Bedford can move forward with this proposal.

I represent Local 4, Operating Engineers, union trades people who would obviously benefit from the construction of this project. Please consider the short-term value, which will benefit my members, and the long-term benefit to the City of New Bedford that this project will provide.

Sincerely,

Louis G. Rasetta
