Hi Paul and Mike,

Attached please find two drawings showing the resource areas anticipated to be impacted in association with the New Bedford Marine Commerce Terminal.

The estimated areas of the resource areas are as follows:

Intertidal (excluding salt marsh) = 1.94 Acres

Salt marsh = 0.09 Acres

Isolated Wetlands - DMF parcels = 0.106 Acres

Isolated Wetlands - BMX parcel = 0.42 Acres

We would like to get you guys out there so you can make a determination as to whether you accept the resource areas as delineated.

Please let us know if these drawings are sufficient for your field work and for estimating the overall resource area impacts, or if you would like changes to them.

After, let's try to coordinate a site visit, and we will invite our third-party wetland scientist to answer any questions. We will also mark the high-tide line onsite immediately prior to your visit.

Thanks,

Subject: NBMCT - Resource 40 scale drawings

Chet,

Attached are two 40 scale sheets showing the existing resources at the New Bedford Marine Commerce Terminal site. Let me know if you have any questions.

Greg
