Subject: RE: South Terminal Project in New Bedford, MA - Potential Wetland Mitigation Sites (UNCLASSIFIED)
Date: Tuesday, September 11, 2012 9:33:01 AM

Hi Paul,

There is one other site that we will likely want to show you. It is the potential freshwater wetland site located near the airport in New Bedford.

There are no design plans for that site right now; but it may be worthwhile showing you the site while you are in New Bedford.

Thanks,

Chet Myers

Chet:

Are there additional wetland mitigation sites (other than Rivers End Park) that you are planning to show us on Thursday's field day? Thanks.

Paul Sneeringer

Subject: Rivers End Park

Hi Mike and Paul,

Attached please find plans for the River's End Park mitigation project located north of the Wood Street Bridge in New Bedford, MA.

The Commonwealth is currently considering adding this mitigation project to replace the Stormwater

Drainage Swale Mitigation Area project.

The project as designed is currently approximately 15,000 square feet (0.34 acres).

We will be able to show you the location of this project when you are onsite this Thursday after you take a look at the onsite wetland flagging.

Thanks,
