Dear Mr. Dickerson:

You recently received a letter from Mayor Tierney dated 1-3-97 concerning the Agency's proposed cleanup plan for the upper and lower NEW BEDFORD HARBOR.

As you know, I have been intimately involved with the Forum group since its formation and remain concerned with all the aspects of the pollution problem in the Harbor.

In my estimation the plan which has been agreed to takes into consideration our concerns, and deserves the support of all affected.

In summary, I endorse all the comments made by the Mayor in this matter.

Sincerely,

*George Rogers
Council President*
