Subject: South Terminal-Proposed Project Modification and DEP ARARs

After consultation with the BWSC project manager and wetlands technical staff, I have concluded that the applicable ARARs set out in the memoranda included in Appendix D of the Determination do not need to be revised or supplemented to address the proposed project modifications that would allow blasting to facilitate constructing the sheet pile bulkhead, widening by 50' and deepening to 200' the navigation channels and not deploying silt curtains in areas that might result in navigational interference in the federal channel. The potential impact from those activities are already adequately addressed through the standards described in these memoranda.

If you need this determination memorialized in a different format, let me know.

which may be a computer program. This attached computer program could
contain a computer virus which could cause harm to EPA's computers,
network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses introduced
into the EPA network. EPA is deleting all computer program attachments
sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate, you
should contact the sender and request that they rename the file name
extension and resend the Email with the renamed attachment. After
receiving the revised Email, containing the renamed attachment, you can
rename the file extension to its correct name.

For further information, please contact the EPA Call Center at
(866) 411-4EPA (4372). The TDD number is (866) 489-4900.
