Carl/John- I think that there may be some confusion on this point. I will circle back with you both tomorrow. In the meantime, I hope that you all enjoy the weather. /gd

Subject: Blasting, New Bedford Harbor

Bill White called today to say that the Section 7 consultation would hold up the bid award 30 days. I did not think this was the case when we left the meeting on Wednesday as I thought we had agreed that the bid award could be separated from the consultation. But Bill feels that the work we have done to date should fulfill the requirement for the consultation on blasting. I promised Bill that I would check in with our folks and with EPA to see if that is possible. Hence this e-mail to Mary and to Carl. But I also wonder why a plan we had agreed to last Wednesday seems to have come apart. Perhaps Gary can shed some light on that.

John
