Subject: RE: MHC - New Bedford South Terminal Meeting Today?
Date: Thursday, September 19, 2013 1:48:47 PM

Thanks for the update. Glad to hear that you're having productive discussions with Ed Bell on the NHPA issues. Let us know if there's something we could do to help move this along.

Subject: RE: MHC - New Bedford South Terminal Meeting Today?

Folks,

Eric and I just talked with Ed Bell at MHC. It does not appear that he has any concerns with the Lighthouse. He did have questions about potential impacts to the paleosols and whether the modifications described in the May 20,2013 letter to EPA had been surveyed for paleosols. We informed him it had been and he was greatly relieved (his words). He then asked for a GIS/satellite map showing the pre and post May 20 outlines of the project and the locations of the paleosols as well as a cover letter from Apex that the surveys are complete in all relevant areas.

We are working on assembling that information so that I can hand deliver to Ed this afternoon.

Will keep you posted.

Thanks,

Bill

Subject: MHC - New Bedford South Terminal Meeting Today?

Mr. Bell,

The receptionist at MHC suggested I contact you via email. I'm following up a message from Kwabena Kyei-Aboagye at USEPA in order to see if it is possible to schedule a meeting today in order to brief you on the New Bedford Marine Commerce Terminal. Dr. Eric Hines, senior project engineer, Greg Harper, Cultural Resource Specialists at Apex, and a representative from USEPA are available to come to your office at 220 Morrissey Blvd. this afternoon to provide information and background on the requested modifications to the Terminal construction.

Please let us know if you have a window of availability this afternoon.

Many thanks,

Bill
