Carl,

Good progress from USACE noted below.

Best,

Bill

Classification: UNCLASSIFIED  
Caveats: NONE

Bill,

I just got your voicemail and email. I am in the office (all quiet, so far, on the baby front). I received all of your information.

I received minor comments on the two work plans from our Safety office. The one remaining item is getting our real estate division to issue a license to do the test borings. Alex Garneau (cc'd above) will be covering for me during my 2 week absence and will follow up, should the baby come earlier.

I am going through the technical report today.

My intent is two issue two letters. The first letter will allow for a change to the blasting limits based on the recent report. The second letter will allow the test borings and include the license to do the test borings.

Check back in at the end of the week and I (or Alex) can give you another update.

Thanks - Mike

Mike,

Chet and I just left you message to make sure you and your team had all the information you need and to discuss timeline for a revised decision.

Many thanks and hope all is calm on the baby front!

Bill

Hi Michael,

For your convenience, we are sending a courier over today with a 3 hard copies of what Chet submitted to you electronically yesterday (revised Vibration Monitoring Plan with GZA's revised Blasting Impact Report).

Yesterday the courier was able to get to the reception area, and left copies of the Work Plan and Accident Prevention Plan for you.

Thanks, Diane

Subject: Updated Blasting Submission

Hi Mike,

We have an updated submission to USACE, based on our discussions at our meeting at USACE on August 22, 2013 (regarding the revision to the GZA report).

The updated GZA report, a cover letter from MassCEC, and an updated Vibration Monitoring Plan are available for download on our Document Management System.

To access them, please go to the following address:

Please contact me if you have any issues with downloading the information.

Thanks so much for your assistance in this matter!

Chet
