Re: FOI Request No. 1-FOI-769-89

Dear Mr. Bering:

This letter confirms our telephone conversation of July 26, 1989 in which you stated that you would authorize Evo Cunha at the Records Center to allow our access to the site file for the New Bedford Harbor. We thank you for your promptness in responding to my July 26 letter regarding this matter. I have scheduled with Mr. Cunha an appointment for Wednesday, August 3, 1989, to begin our review of the documents in the site file.

Due to the voluminous nature of the file, I have, as you suggested, identified several categories of documents from the "Region I Superfund NPL and Removal Site File Structure" which we do not need to review at this time. We may need to review some or all of the documents included in these categories in the future, and I will contact you to arrange for their review if needed. The following are categories of documents which we will not review at this time:

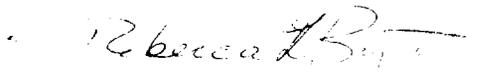

- 1.0 Pre-remedial
 - Subcategories 1.13-1.18
- 2.0 Removal Response
 - All subcategories
- 8.0 Site closeout
 - All subcategories
- 10.0 Enforcement
 - Subcategory 10.9

Charles C. Bering, Esquire
July 27, 1989
Page 2

- 11.0 Potentially Responsible Party (PRB)
Subcategories 11.2-11.16
- 12.0 Cost Recovery
Subcategories 12.1-12.7 and
Subcategories 12.11-12.15
- 15.0 Freedom of Information Act (FOIA) Management
All subcategories
- 16.0 Natural Resource Trustee
Subcategories 16.4-16.5
- 17.0 Site Management Records
Subcategories 17.3-17.9
- 18.0 Initial Remedial Measure (IRM Records)
Subcategories 18.5-18.9

If we are able to identify other categories of documents which we do not need to review at this time, we will inform Mr. Cunha at the time of our review. Please do not hesitate to call if you have any questions.

Sincerely,

Rebecca L. Bryant
