Defense Counsel

Re: United States v. AVX Corporation, et al.,  
Civil Action No. 83-3882-Y

Dear Counsel:

Further documents are now available for your inspection in Room 501 of the U.S. Attorney's Office. This document production includes the following:

- Box XX. Folder A. Batch 24 - NUS Validation Report and Battelle Data
- Folder B. Batch 25 - NUS Validation Report and Battelle Data
- Folder C. Three volumes of chromatograms from Cambridge Analytical Associates which include the back up data for the CAA/State Report used in Plaintiff's Requests for Admissions, Document No. R-0009. The volumes are titled: DEQE Chromatograms - Low Boiling Aroclors, pp 1-125; DEQE Chromatograms - Low Boiling Aroclors, pp 126-290; Low Boiling PCBs.
- Folder D. Tissue Analysis for Bioaccumulation of PCB and Metal Contaminants for the New Bedford Superfund Site prepared by Sanford Ecological Services, Inc. in May 1986 for U.S. Army Corps of Engineers.
- Folder E. Chromatograms - analysis by Army Corps of Engineers on samples taken in New Bedford from August to December 1985.
- Folder F. NUS validated results of sediment samples taken during GZA Harbor Sampling Program

conducted from December 1985 to February 1986. This includes a location map, key to the sampling numbering system, and a general data sheet listing all samples analyzed. (This is apparently the data which Mary Ryan refers to as "sampling done for NUS by GZA Drilling" in her June 6, 1986 letter to plaintiff's counsel.)

I also enclose six revised pages of the Requests for Admissions in which attachment numbers were omitted or cited improperly. You may file these corrected pages in your set of Request for Admissions by following the directions on top of each page.

You may make an appointment with me to review these documents and/or to check them out for copying.

Mary Ryan of Nutter, McClennen & Fish was provided a copy of Folders D and E on June 24, 1986.

Very truly yours,

Mary Beth Downing  
Paralegal, Civil Division
