Re: United States of America, et al. v. AVX Corporation,  
et al., U.S.D.C. of Mass. No. 83-3882-Y

Dear Ellen:

In reviewing the New Bedford Harbor progress report for February 1987 by EBASCO Services, Inc., I note reference, at pages 2-8 and 2-9, to certain RFPs for work on destruction/detoxification technologies scheduled to be issued on March 30, 1987. We would like to receive copies of these RFPs, as well as any other RFPs issued in connection with the ongoing EPA remedial investigation in New Bedford Harbor.

Please call me if you have any questions with respect to this request.

Very truly yours,

*Mary K. Ryan*
