

March 9, 1988

Mr. Charles C. Bering
Assistant Regional Counsel
U. S. Environmental Protection Agency
Region 1
J. F. Kennedy Federal Building
Boston, MA 02203-211

Dear Mr. Bering:

Enclosed is a list of documents referred to in the "Final Draft, Detailed Analysis of Remedial Technologies for the New Bedford Harbor Feasibility Study" that we are requesting from EPA.

For some references, the citation appears to be incomplete, but the common source of these citations is the above-reference report, so there should be no difficulty in identifying the reference. Some of the references in the report are to telephone conversations and, if any written notes or memoranda of conversations have been prepared, we would appreciate copies.

It is important that we have these references in order to provide constructive comments on this report. Therefore, may I ask for your expeditious review of this request?

Kindest personal regards,

John Allshouse
Staff Engineer
