**Re: Public Hearing Response on In-Situ Containment**

Dear Frank:

As we discussed in our meeting prior to the public briefing in New Bedford, on behalf of AVX Corporation, we would like to make a detailed presentation to the public relative to the in-situ containment alternative. In response to our statement that we intended to discuss this subject at the public hearing scheduled on August 16, it was suggested that it might be more appropriate to hold a separate public hearing. Accordingly, we request that you arrange a public meeting for August 23, 1989, at a location to be named later, in order that we may make this presentation. We would plan to make a brief statement at the public hearing on August 16, and reserve detailed information for the August 23rd presentation. We appreciate your willingness to discuss the issue and to arrange for this presentation. It would be helpful if we could review what steps will be taken to publicize this second hearing. If you have any questions, please give me a call.

Very truly yours,

Richard J. Hughto, Ph.D., P.E.  
Vice President
